Soul Scope - Introducing Yourself To You

Above is your name, and birth details. Please check this information is correct.

Your Soul Scope symbolises and sheds light upon - your purpose, your needs, your talents, your doubts, your sensitive spots, your destiny and more.

Whilst Reading Your Soul Scope

The overall accuracy of your Soul Scope is dependent on your birth time. Please bear in mind that although this horoscope is as accurate and informative as possible, there is no guarantee that every word will apply at this moment in time, or in the past or future. This horoscope maps out your potential; it is up to you what you make of this potential. You should always rely upon your own judgement and individual choice, will and inclination - which are precisely what your Soul Scope helps shed light upon.

Below your chartwheel the 'astrological positions' of your horoscope are set out by zodiac sign and degree which are interpreted in the following twelve chapters describing what they mean in your life. The number of ways in which the three factors of Planetary Aspects, Zodiac Signs and Houses can be combined is infinite.

The 'Aspects' are given a Star Rating from one to five to show their relative importance in the Profile. To the right of each pair of 'aspect' symbols is a group of five stars ★☆☆☆☆, the more dark stars there are the more powerful and significant the meaning of that aspect will be. The keys for the planets and the other symbols and terms used are given at the back of the report.

Annie's Chart Elements

There are four Elements in astrology: Fire, Earth, Air and Water. Each Zodiac Sign belongs to one of these, and you have each of these Elements either Over-Emphasised, Under-Emphasised or Balanced - as follows:

Annie's Fire Element Over-Emphasised

Sometimes you can have more energy than sense, being fervid, opinionated, and foolishly risk-taking. There is a danger of burning yourself (and others) out.

To compensate, make an effort to learn from experience and recognize the value of limitations. Consider others and their opinions. Also, look to any planetary placements in Water and Earth Signs, and make the most of them.

Annie's Air Element Under-Emphasised

You may find it hard to relate or view things impartially. You could be non- or even anti-intellectual.

To compensate, look to Mercury and Uranus, and if you know the time of your birth any placements in 3rd, 7th or 11th Houses, and make more of them. Identify what few, if any, planetary placements you do have in Air, and make the most of them.

Annie's Earth Element Balanced

You are practical without being dull. You are reliable, up to a point.

Annie's Water Element Balanced

You are responsive yet centred, and compassionate and sensitive without being overwhelmed emotionally.

Annie's Chart Modes

There are three Modes in astrology: Cardinal, Fixed and Mutable. Each Zodiac Sign belongs to one of these, and you have these Modes either Over-Emphasised, Under-Emphasised or Balanced - as follows:

Annie's Fixed Mode Under-Emphasised

You may lack persistence and cannot, or find it hard to, stand your ground.

To compensate, determine your convictions and stick by them. Resist being a yes-person; there's seldom any future in it.

Annie's Cardinal Mode Balanced

You have a healthy sense of initiative.

Annie's Mutable Mode Balanced

You are moderately adaptable and alive to change.

You were born with...

Aries Rising which is interpreted in Chapter One

Sun in Virgo in the Sixth House which is interpreted in Chapter Two

Moon in Pisces in the Twelfth House which is interpreted in Chapter Three

Capricorn at the Midheaven which is interpreted in Chapter Four

Mercury in Libra in the Seventh House which is interpreted in Chapter Five

Venus in Leo in the Sixth House which is interpreted in Chapter Six

Mars in Sagittarius in the Eighth House which is interpreted in Chapter Seven

Jupiter in Leo in the Sixth House which is interpreted in Chapter Eight

Saturn in Aries in the First House which is interpreted in Chapter Nine

Uranus in Virgo in the Sixth House which is interpreted in Chapter Ten

Neptune in Scorpio in the Eighth House which is interpreted in Chapter Eleven

Pluto in Virgo in the Sixth House which is interpreted in Chapter Twelve

The Planets symbolize various energies manifesting as dynamics of personality.

The Signs qualify or colour these energies, rather like a filter over a light.

The Houses designate areas of life experience upon which these energies focus.

The Aspects express how these energies dynamically interact with one another.

Note: Ongoing planetary influences throughout your life - be they in the past, present or future - as they apply to the planetary positions at your birth, are given and interpreted in your **Soul Guide**.

Chapter One - Your Ascendant: Appearance and Persona

AS in ♈

Aries Rising

Physically you appear to be quite energized - as if something was about to pop. This is particularly noticeable in your eyes, which have an intense, pointed quality - rather like a bird's. And they dart about rather than hold a fixed stare. However, all physical features can also be affected by other planetary positions, as any First House planets can. You find your personal identity simply by putting yourself forward. Initially at least, it does not matter how you do this - just so long as you do. The keyword here is self-actualisation. As far as you are concerned, the act of physically doing something is what creates your feeling of Self. Nothing else will do this - except perhaps someone else acting in a typically Arian forceful or even violent fashion towards you - and this is likely to be damaging to you.

Your possibly overly forceful attitude and self-presentation would benefit from being toned down by some consideration for others feelings if you wish to maintain any agreeable relationships. Because of this somewhat egocentric way you have about you, it is likely that you will attract a partner who is graceful and socially aware, even to the point of being a bit of a yes-person. - Conversely, you may just as easily attract a mate as arrogant as yourself - and battle would ensue! Recognize that you are likely to come across as pushy or cheeky - even if you do not actually feel that way inside. On the plus side however, you are pleasingly chirpy. On the other hand, if you feel held back for some reason, then formulating some social purpose or ideal will help to mobilize your being.

If in doubt - Act! "Courage is not merely one of the virtues - but every virtue at its testing point".

With Aries Rising you have what has been called an "undeviated chart". This means that some or all of your planets fall in Houses which correspond to the Signs your planets are placed in - for example, a planet in the Fifth House being in the fifth Sign (Leo). This simply means that your innate qualities readily find optimum circumstances in which to flourish - for good or ill.

Mars is your Ruling Planet, which governs the link between your exterior being and your interior being. So study Chapter Seven - Your Mars Profile, with this in mind.

You also have the following planet or planets about to rise in the East at the time of your birth. Such planets are said to be in the First House. This further describes your appearance, persona and outlook on life.

Saturn in the First House (See Chapter 9 - Your Saturn Profile)

Chapter Two - Your Sun profile: Your Will and Purpose

Sun in Virgo

Your essential purpose in life is to improve the expression or state of whatever it is that you regard as important. To enable you to accomplish this you are analytical, and are well able to spot the best and the worst in any given person, thing or situation. The danger here is that you can be over-critical and become anxious about things not being right or going wrong.

This can apply especially to the functioning of your own body and mind, although such an attitude could also mean that you are particularly good at caring for health generally. However, you need to cultivate tolerance and acceptance of things as they are. As a consequence of all this, on the one hand, you will attract or be attracted to circumstances and relationships which require your accuracy and eye for detail, and that employ your sensitive and helpful disposition. Yet on the other hand, they could try your fastidiousness to the point of isolating you.

Sun in the Sixth House

All of this is most likely to focus upon developing some kind of method or technique with which you can follow gainful employment or perform some sort of service. Without doing this it is probable that you'd suffer from unemployment or a string of aimless jobs. Your life is very much concerned with improving or preparing for something.

Initially, it is quite likely that you'll find yourself in a subordinate position where you are answerable to someone else - possibly even under their thumb. This would be because you are having to learn the importance of modesty and being in earnest. A career in health, hygiene or veterinary care could suit you well. Your own health can be quite an issue in that it is very much a barometer of your efficiency in life.

Your Sun Aspects

Sun opposed by Moon

You were born around the time of a Full Moon, which means to say that the dynamics and indications of your Sun Profile appear to run into trouble with those of your Moon Profile. Your heart and mind want one thing, while your habits and needs pull you in the opposite direction which results in your being split between say, creative opportunities and family duties, or of always having someone or something opposing your wishes or affronting your sensibilities.

Every so often, it might seem that one side of you is invalidating the other. Basically, you have the task of learning to take a back seat when things are against you and of going all out when the way is clear. Also bear in mind that others will find you hard to relate to at times, when either you appear to be living in two camps, or you blame the side of yourself that you cannot cope with upon the other people. Like it or not, you are working towards gaining a profound grasp of life's extremes, with a well-rounded personality as your reward.

Sun uniting with Uranus

However, in respect of much of all this you take up a decidedly radical position and aim to introduce to the world a strong sense of the original and innovative. This could well involve science and technology or metaphysics. You are heavily challenged in all the above-described areas with regard to this revolutionary stance that you adopt, especially by the more conservative elements of society, or even of your own personality. You can be quirky and cranky (and at times downright rebellious), but you are certainly your own person. At an evolved level you become quite a leading light.

Sun working with Neptune

Pervading all of your being is a very natural sense of love and acceptance. Because this makes for a rather passive disposition, you are inclined to turn the other cheek rather than take issue. Any more aggressive instincts that you might have are more likely to be used protectively. All in all though, you have the wisdom to know that letting life take its own course is bound in time to deliver you to your rightful place. However, do not underestimate and therefore fail to make something of your innate ability to inspire and be inspired - be it through music, visual art, drama, literature or in the sphere of healing.

Sun uniting with Pluto

Deep in the core of your being lies something profound and powerful. You may not have a particularly conscious idea of what it is, but you are not going to let anyone take it, or you, lightly. It gives, or rather burdens, you with the feeling that there is a dark force in life that could be out to get you. If you identify too closely with this notion then you are on your way to being either a megalomaniac or a self-destructive manic-depressive, or, being in the clutches of one.

If, on the other hand, you purify your own intentions, and accept yourself as being a steward of, or a channel for this power, then whatever you do in life will be deeply effective. But through self-study or intimate relating you have to reach your own depths first, for that is where the power lies. You may find that your father plays, or has played, some part in what could be called this power complex, with him being highly influential in your life in some way - for good or ill.

The Sabian Symbol For Your Sun

Finally, to give a symbolic focus to the Sun in your Chart, here is the "Sabian Symbol" for the degree of the Zodiac at which it was placed at the time of your birth. The Sabian Symbols were devised by astrologer Marc Edmund Jones and a clairvoyant called Elsie Wheeler. They may be read as interpreted, taken quite literally, or be given your own more personal or subjective interpretation much as you would for one of your dreams.

Remember to bear in mind that the Sun represents the essence or core of your life and its purpose, and to note how its Sabian Symbol corresponds to your Sun Profile, and your Chart interpretation as a whole. The Sabian Symbol for your Sun is...

"A BOY WITH A CENSER" - The performance of something in, or as if in, a divine presence, even though the sacred meaning of such might not yet be known. **Keyword: SANCTITY.** When positive, your sense of self-dedication and service, which heralds and thereby blesses everything that you do. When negative, sanctimoniousness, without any real sense of what the true issue or worth of a given thing is.

Chapter Three - Your Moon Profile: Your Needs and Emotional Responses

☾ in ♋

Moon in Pisces

Your reigning need is to feel accepted for what you are and to gain acceptance for others who you feel need it. What is responsible for this is your enormous compassion and sensitivity. I have to say that an equally important need of yours is to find a means of managing this sensitivity.

Without properly handling this openness to the feelings of all and sundry, you can be overwhelmed by something or someone in particular to the point of being emotionally incapacitated. Probably owing to your mother's unstable feelings, or perhaps even her selflessness, you are unconsciously on the lookout for someone to save or someone to be saved by. Such a predisposition is asking for trouble, in the form of being hopelessly in love, or craving something or someone unattainable.

And even if you do have your dream come true, it is then only too likely that the dream fades and ordinary reality - which you loathe - then returns. Any of these eventualities can lead to quite dubious means of easing the pain of disappointment - drugs and alcohol being the preferred options.

Ultimately, you have to appreciate that you are a soulful being in a rather soulless world and take the necessary steps to protect yourself - like meditation or some other spiritual discipline. Your dream for a better world - through art or healing - can then be more safely pursued and surely maintained.

☾ in 12th House

Moon in the Twelfth House

These needs and feelings of yours are repressed. The emotional problems that you have are deeply rooted and hard to pin down. They probably go back to babyhood or as far as the womb - or even to previous lives. Your mother will somehow be tied up with all of this - in an obvious or more mysterious way.

Often psychic links with your mother are in evidence and these should be positively used by your mother meditating upon or visualizing you in a positive light, or through yourself doing likewise to the child within you. You are emotionally wounded or very sensitive, or both. Because of this you are inclined to cut off from your feelings and anything to do with them - often with cynicism or a work schedule that allows no emotional access. Consequently, a sizeable dimension of your being may get clouded or closed off from your conscious mind.

This in turn can seriously inhibit emotionally relating, and maybe some mental functions too. Yet at the same time you want emotionally feeding. If you wish some of the weight to be taken from this rather private and idiosyncratic cross you bear, at some stage you will have to own up to your feelings - acutely painful though this'll probably be.

You will then find that you are in fact remarkably in touch with the collective mood and its hopes and fears (probably what made you feel invaded in the first place), thus giving rise to creative inspiration. Initially, you can experience and express all of this as being somewhat otherworldly (or in a world of your own), or, be very much of this world and into material things, by way of compensation.

Your Moon Aspects

Moon opposed by Sun

These qualities of your Moon-Sign and Moon-House act as a deep need that has to be met by the conscious and headstrong intentions of your Sun Profile. The trouble is that your lunar inclinations will try to eclipse your solar intentions. In other words, your innate habits and dispositions may obscure your more creative view of life. You must fix your attention consciously upon some end that endures, an end to which your emotional requirements must adjust themselves. Eventually, you find that you are then far more able to meet those lunar needs, such as I have here described them.

Moon allying with Mars

You do have a very available supply of energy to meet your needs. You possibly take this for granted simply because it is always there as you work and relax with enviable ease. The more aware you are of this healthy balance that you have between your feelings and body energy, the more vibrant and confident you will feel, enabling you to achieve success in your chosen field of endeavour.

Moon opposed by Uranus

Now a major theme of your emotional life is one of your becoming progressively more cool and detached about your needs and feelings. However, until you have made some headway in this respect, you are prone to definite, even violent, mood swings. This is caused by your being wrapped up in your emotions one moment and then being icily aloof the next. Possibly you feel that your mother didn't really want or connect with you in some way and so you zip back and forth between needing and not needing.

If you are a mother, you make an unusual one. In the meantime, no one could accuse you of being dull or of lacking intuition!

Moon allying with Neptune

One of the finer dimensions to all this is your well-developed empathetic and psychical nature. Because of this you have the makings of the natural therapist or psychologist, possessing a healing ability of the soothing, relaxing kind. You have an excellent bedside manner and a feel for the mood of the moment.

Moon opposed by Pluto

Beneath all the surface expressions of how you feel there lurks a deep distrust of human nature. This emotional seam was probably laid down long ago, in childhood, the cradle, or even before then. Other people with similarly deep-seated fears can spot this and find YOU untrustworthy.

To stop this kind of rot you need to purge such negative emotions - otherwise the power of these negative emotions will attract relationships and situations that force you to purge them anyway.

Moon challenging your Midheaven

A difficulty you have that underlies all your emotional dealings is one of not really feeling at ease with the way of the world in general. Although this could be regarded as understandable considering the state of things globally, you should bear in mind that such unease is more to do with your emotional conflict with your parents and background rather than society as a whole.

The Sabian Symbol for the Moon

Now, to give a symbolic focus to the Moon in your Chart, here is the "Sabian Symbol" for the degree of the Zodiac at which it was placed at the time of your birth. As I mentioned in the last Chapter - your Sun Profile, the Sabian Symbols may be read as interpreted, taken quite literally, or be given your own more personal or subjective interpretation much as you would for one of your dreams.

Remember to bear in mind that the Moon represents your unconscious disposition and responses, and your emotional needs and security, and to see how its Sabian Symbol corresponds to your Moon Profile in particular, and your Chart interpretation as a whole. The Sabian Symbol for your Moon is...

"A PRISM" - Something which is able to demonstrate fundamental and self-evident truths, such as the fact that white light breaks down into the visible spectrum of seven colours. **Keyword: EXEMPLIFICATION.** When positive, a clarity of judgment and simplicity of expression that is a wonder to behold. When negative, stating the obvious to an extent that misses the point.

Chapter Four - Your Midheaven profile: Career and Status

MC in ♄

Capricorn at the Midheaven

Your place in the world has very much to do with the conditions and tradition in which you were brought up. There is an unconscious tendency to accept or go for your prescribed lot - be it prince or pauper, tycoon or secretary. Careers that involve the building or maintenance of any kind of structure can be suitable for you, whether it's an actual building, a corporation, or government - or dentistry.

The condition of Saturn by Sign, House and Aspect will reveal further details with regard to your professional fortunes and inclinations. (See Chapter 9) Overall, you subscribe to the traditional attitude that it is desirable to reach a position of authority through discipline and hard work.

Chapter Five - Your Mercury Profile: Perception and Mentality

♀ in ♎

Mercury in Libra

The way that you think is based largely on how you feel in relating to others. Consequently, you're inclined to agree at the expense of failing to contact how you yourself actually feel about a given issue - until later, when you then have to 'agree' with someone else. All this results in the person to whom you relate most intimately becoming frustrated because they don't know which side of the fence you're on. What they don't see is that you're striving to keep the peace amongst a wide variety of people and opinions. However, the point that any close associate is trying to make is that you have to have a yardstick of your own; otherwise no-one will get your measure and they will consequently find you hard to take seriously. This would be a great shame, considering that your decision - when finally made - is the one most likely to be the fairest.

♀ in 7th House

Mercury in the Seventh House

You like to have a partner who thinks and perceives things in this way too and who is generally stimulating intellectually. You also prefer to conduct your relationships in a very reasonable way. This is fine up to the point where the emotional side of things can't get a look in. You will then find yourself with an extremely emotional mate on your hands, as they demand that you respond with more than just your head. Alternatively, if you're an emotional type yourself, or lack mental confidence for some reason, then you will get someone else to do your thinking for you. This is fine as long as you're both happy with the arrangement, but there will probably come a time when you will have to sort out your own mental or learning problems. Potentially, your mind is very capable of tuning into the facts and figures about others, so public relations or some kind of demographic or agency work would be well starred.

Your Mercury Aspects

♀ ♀ ♃ ★★☆☆☆

Mercury opposed by Saturn

There is no getting away from it, the correct development and use of your mental equipment is utterly important. This means that, as time goes by, you have a more and more disciplined mind with a satisfying working life to match, or else you will become stuck as a result of inconsistent attempts to get to grips with the situation. Alternatively, your perception and interests become dulled by cynicism, or mentally depressed through dry intellectualism or learning difficulties. The formula is: work when your mind feels like working; play with it when it doesn't.

Chapter Six - Your Venus Profile: Attraction and Harmony

♀ in ♌

Venus in Leo

You are the archetypal romantic. On the face of it you're madly affectionate, filled with fiery passions and inject masses of fun and imagination into your affairs of the heart. Consequently you can transport your paramour to previously undreamed of emotional heights. Inevitably though, this means that you have to understand that you're playing the role of king to your queen, or vice versa, as far as your love life is concerned.

In other words, the royal qualities of respect and nobility must be very alive in your breast if a relationship is to survive or live up to your fairytale expectations. Respect means that you must be mindful that both of you are entitled to equal amounts of freedom and commitment. Nobility means that both of you must behave in a manner that commands respect. The salient factor is that first you must set this example in order that your mate may be truly impressed by your great love - great because it is both generous of spirit and respectful of the other's individuality.

♀ in 6th House

Venus in the Sixth House

These love feelings of yours are going through a process of purification so whatever is false, or unjust, or lustful about your social or romantic intentions has to be eliminated in order that a healthy relationship might happen. In fact, 'healthy relationship' sums up the only kind of relationship that you could really enjoy consistently.

Where there is a lack of purity in your loving you will experience loss, or illness - particularly to the throat, hips, kidneys or reproductive organs. You really have to work at love. Love and work also come together in that your work itself can be to do with harmony and beauty, or simply that you lend an air of grace and charm to your work place.

Your Venus Aspects

♀ ♀ ♃ ★★★★★☆

Venus uniting with Jupiter

There should be plenty of opportunity to satisfy these appetites and predilections of yours because you have a naturally generous disposition, which life and the world are only too happy to reward. You have a sense of largesse that can attract success and enjoyment in any number of fields - both socially and professionally. Essentially, what you have is a sense of bounty and joy. This can incline you towards over-indulging in the pleasures of life, but all in all, people find you a pleasure to have in their midst.

♀ □ ♆ ★★★★★☆☆

Venus challenged by Neptune

When all is said and done your social skills and your sense of love and art, have to evolve to a higher level. This does mean that you are very idealistic in your love life or where your creations are concerned. Seeking the exquisite and exotic can mean many a disillusionment as loved ones fall from grace and show themselves to be the mere mortals that they are. Be that as it may, your refined senses serve as an inspiration to others. That you follow, or possibly excel in, some form of artistic or spiritual expression is very likely - or very important, because such is a more suitable means of giving form to your vision of a better world than being merely a hopeless romantic. In any event, love the one you're with - with all your heart and soul.

♀ △ MC ★★★★★☆

Venus allying with your Midheaven

You employ the attributes of your Venus Profile as described here in a professional capacity - or if you don't, you certainly should. Your strengths and weaknesses in this respect, either advance or hold you back in your career. In any event, art, grace, beauty, or a sense of harmony is central to your profession.

Chapter Seven - Your Mars profile: Self-Assertion and Sexual Drive

♂ in ♏

Mars in Sagittarius

You assert yourself best when you have something to promote and believe in. This is why you have such energy and desire to travel and get around - in order to discover what it is that you are supposed to be championing, and then to actually do the championing. So initially, the essential thing is that you have the freedom to make off in any direction when and with whom you want to.

The trouble is that such wild energy as this - especially with regard to your sexual exploits - could become a law unto itself and you might forget that it was a means to an end, not an end in itself. So, at some point, you're likely to get 'hobbled' - that is, restrained by certain circumstances - until you've realigned yourself and your prodigious energies with some cause that's worthy of them, rather than simply horsing around. As a way of managing your great energy, or even as a pursuit in its own right, sporting activities should come naturally to you.

♂ in 8th House

Mars in the Eighth House

Notwithstanding this, your urges and desires do well up from some quite deep and desperate place. There is an intensity about you that wants to get right down to the nitty-gritty. This can be expressed in certain ways - like sex, wheeling and dealing, dangerous activities, or anything else that makes you feel close to the edge, in touch with the core of life. The occult, the astral plane and any site of power exercises a pull on you.

In other words, you are desirous of getting in touch with forces greater than yourself. This is fine as long as you are conscious of this and exercise some caution - but not too much. Paradoxically, a fear of these forces can prevent you from getting what you want. Put it this way: You are turned on by power - and powerful when turned on.

Your Mars Aspects

♂ △ ☾ ★★☆☆☆

Mars allying with Moon

You have a ready supply of psychic energy to draw upon so just about any task can be tackled successfully because you're not likely to flag. 'Do more and get more' could be your simple maxim. Unlike people who work and play on nervous energy and who are consequently a bit fraught, the relaxed flow of energy that you possess permits a silent and smooth running engine.

♂ △ ♄ ★★★☆☆

Mars allying with Saturn

Under normal circumstances you pursue your objectives and perform your tasks with commendable discipline and thoroughness. You believe that if a job is worth doing at all, it's worth doing well. In times of hardship or stress, you are the kind of person others are glad to have around, for you have stamina, courage and resourcefulness.

♂ △ AS ★★★★★☆

Mars allying with your Ascendant

The way in which you assert yourself comes across as natural - whether you are aware of this or not. It's best that you are aware of this because others readily respond to anyone who appears to be a natural leader, but should you yourself doubt it, they could quickly get disappointed, suspicious even, and you'd lose your advantage.

Chapter Eight - Your Jupiter profile: Faith and Understanding

♃ in ♌

Jupiter in Leo

Faith for you depends upon how much you believe in yourself. Ideally, your sheer existence should be a testament to your own worth so you could say that cultivating an enthusiasm for yourself is your key to confidence and growth. There is a danger here of self-importance, but in some ways this is better than being falsely modest or shrewish.

However, as much as your sense of largesse can lead to great displays of generosity and wealth, it can also lead to biting off more than you can chew. Then again, thinking or acting small could find you equally pressured to pull something extra out of the bag. There comes a time for you when the nature of magnanimity has to be expressed - and properly understood.

♃ in 6th House

Jupiter in the Sixth House

These qualities of faith and understanding become critical issues with regard to health and work. Generally speaking, you are an enthusiastic worker and have a sound constitution to match. You may also be actively involved in healthcare or improving work methods and conditions in the manner of your Jupiter Sign.

What you have to watch out for mainly is overworking or being overly concerned about getting it right - for this in itself can lead to health trouble. Nevertheless, your recovery rate is good, probably through mind-over-matter methods.

Your Jupiter Aspects

♃ ♀ ★★★★★☆

Jupiter uniting with Venus

Very fortunately the quality of your beliefs and ethics is appealing to most others. This is a gigantic asset for it means that something about you bears the promise of happiness, health and better things to come. I for one hope you make the most of this broad and beautiful streak of your personality. You are certainly a party person and good fun to be with.

However, for you, true joy is found through judiciously bestowing your genuinely bountiful affections upon others, rather than squandering them as if you believed that quantity could be a substitute for quality. In this way you will find that those others then truly appreciate you.

♃ □ ♃ ★★★★★☆

Jupiter challenged by Neptune

All along your path of development and discovery the principles that guide you are often weakened by a tendency to think better of others than they deserve, or that life is easier than it actually is. Indeed, your capacity to give the benefit of the doubt - which is born of the Utopian ideal that everyone is kind and beautiful deep down - is a major attribute of yours. But to avoid being dangerously gullible, ponder on the fact that everything is as good, beautiful and laid-back as it is - not as you fancy it to be.

♃ △ MC ★★☆☆☆

Jupiter allying with your Midheaven

Your religious, philosophical and speculative qualities are very much a part of the way you further your career - or actually an integral part of it. As a consequence of this faithful and expansive attitude to the world, the world in turn rewards your efforts in the form of sound opportunities for work, and home too.

Chapter Nine - Your Saturn Profile: Lessons and Responsibilities

♄ in ♈

Saturn in Aries

You are learning to be self-assertive and sure of your standpoint, whatever that might be, as indicated by your horoscope as a whole. In order that this lesson can be learned therefore, you will often find yourself left to your own devices. It could be said that the very first lesson here is one of your learning to enjoy and make use of the freedom of movement and expression that this offers - or rather imposes.

By the same token, any form of order or discipline other than that which you have won through your own efforts just won't stand up. You have to drive in the first post and blaze the first trail. "Beaten paths are for beaten people" as one leader once said. However, in the process, try not to be too harsh upon yourself or others as you doggedly pursue that point down the lonesome road of self-discovery upon which you've fixed your gaze.

♄ in 1st House

Saturn in the First House

Your Saturn Profile is actually etched into your physical appearance and manner of self-expression so you are probably lean and bony or swarthy; you are certainly not fleshy - unless there is some other contrary planetary influence. You can look rather undernourished even though your health is usually reliable, except perhaps for complaints of stiffness. Such a look could be said to indicate that you're a bit mean with yourself and the stiffness could be a sign that you're being too rigid or formal. You might also experience skin trouble as a sign that you are being too self-contained and not showing your true self.

Yet another mask could be a very sleek and impenetrable countenance (like highly polished veneer) and this can be very effective in commanding order or respect. But behind this guarded persona is your most difficult task - that of emerging into the world as you actually are, rather than as what you feel is expected of you, which is to be conventional (even if in an acceptably unconventional way). This can be further expressed as your having to see life in very concrete and logical terms.

Behind all this is your early life which was difficult in that your own identity was not allowed to emerge, or your birth itself was difficult indicating perhaps that you did not want to enter the harsh reality of Earth-life at all. Finding a face to present to the world while, at the same, avoiding confusion with the external image of who you actually are inside is precisely what you are having to do.

Your Saturn Aspects

♄ ♀ ★★☆☆☆

Saturn opposed by Mercury

You are learning to become mentally aware of all these matters, to talk and be rational about them. At times this can cause you to feel quite inadequate intellectually. This needn't be such a problem if you bear in mind that it's being disciplined, objective and successful concerning your Saturn Profile as a whole that enables you to think and communicate clearly, rather than just acquiring a bunch of clever phrases and concepts that weigh you down rather than bear you up.

♄ △ ♂ ★★☆☆☆

Saturn allying with Mars

A solid virtue of yours is a consistent willingness to meet and actually deal with the problems and challenges of life. Indeed, your physical reliability probably prevents the worst from happening. Working hard comes naturally to you.

♄ ♂ AS ★★☆☆☆

Saturn uniting with your Ascendant

Those qualities of yours, which I have described above under Saturn in the First House, are strongly accentuated so I suggest that you note them as such and how they relate to the whole of your Saturn Profile.

Chapter Ten - Your Uranus Profile: Awakening and Freedom

Uranus in Virgo

You belong to a generation (born during the 1960's) whose intention was to reform work methods and attitudes towards health. During this period technology transformed the employment situation with automation and computers. You are therefore quite likely to encounter difficulties and sudden changes on your own employment scene as new requirements arise and certain occupations become obsolete. You may wish to update office systems or overthrow bureaucracy.

Uranus in the Sixth House

Freedom is an issue for you where your working life is concerned. You are not keen on a rigid routine, so flexi-hours or self-employment are desirable, if not downright essential. Sharp ups and downs, along with interminable changes of fortune in the work sphere would indicate that job security is going to have to take second place to job satisfaction. There is, or should be, something inventive or highly original about your work.

Similarly, unpredictable health - especially intermittent or odd complaints - would point to your being a round peg in a square hole, or that a change of work environment or lifestyle was called for. Further regarding health, you can successfully diagnose the cause of complaints - in yourself or others - by spotting the symbolism involved. For example, trouble with the pancreas, which regulates blood sugar, would suggest that one is bitter or sour about something, that life has lost its sweetness.

Your Uranus Aspects

Uranus uniting with Sun

At no cost do you want to be deprived of your ego's right to dance in its own light. In other words, ideals and social principles are all very well for you, but in the end you see yourself as your own rule maker and rule breaker. You are becoming increasingly conscious of the fact that the only true determinant of what life is about is you - or rather your self-awareness. You are very much ahead of your time in some ways, but be careful not to allow such living in the future to distort what's actually going on for you right now.

Uranus opposed by Moon

You feel all these forces for change and liberation with such intensity that it's quite difficult for you to maintain emotional stability. It's as if you take it all personally. Remind yourself that these forces are both intelligent and are for the good of all. Cultivate coolness; be loose and open to the promise of the future and avoid tucking yourself away somewhere 'safe' because this would only attract the very upheaval you feared. Positively speaking, you should be able to reassure others when they are traumatically afflicted or stressed by changes.

♃ ✖ ♆ ★★☆☆☆

Uranus working with Neptune

If you have a fair amount of Aspects to either Uranus or Neptune (see next Chapter) then you have a sense of Humanity on the march towards a greater good and away from evil. Furthermore, you know that this is only achieved through a sense of teamwork, unity and spiritual and psychological awareness.

♃ □ MC ★★☆☆☆

Uranus challenging your Midheaven

There is something in you that, consciously or unconsciously, rebels against authority, your parental and social background, or anything that smacks of limiting your freedom. This in turn causes you to be unreliable, unpredictable or bored with your work or home life. Unless you wish this disruptive and non-productive influence to continue, you will need to identify and sort out what that 'something' is.

Chapter Eleven - Your Neptune Profile: Sensitivity and Spirituality

♆ in ♏

Neptune in Scorpio

You belong to the Neptunian generation born between the mid 1950's and 1970. As this generation came of age, established musical forms and the use of drugs took on more self-destructive and sexually explicit undertones. The seeking of 'highs' became heavier and also involved the underworld of crime more. The lack of Mankind's spiritual awareness which had been prevalent for some time became a more critical issue, with material status symbols becoming gods and sexual diseases - especially AIDS - becoming more threatening as the result of a lack of awareness as to the true and subtle nature of what intimacy means. The challenge to your generation is great indeed: to prevent degeneration.

♆ in 8th House

Neptune in the Eighth House

For you, such sensitivity and yearning is a very private affair. Your longing for enlightenment or escape surfaces within intimate relationships, at times of crisis, or in the face of such mysteries as death and other planes of existence. This is a heady mixture, so you can be easily spooked by the unknown and ecstatic and therefore try to avoid or reason them away, or else you could become quite addicted to such things.

Sexuality can be particularly elevating, or enslaving, depending on your sexual attitude, stability and inclination generally. A more grounded expression of your marked sensitivity could be a sixth sense about legacies, taxes, investing other people's resources, etc.

Ultimately, you are seeking to surrender and dissolve your illusions of separateness in a wave of transcendental emotion. All or nothing, it would seem - but that in itself is an illusion - more a case of all and nothing.

Your Neptune Aspects

♆ ✖ ☉ ★★☆☆☆

Neptune working with Sun

You have a healthy, constructive and creative sense of matters relating to sensitivity and spirituality. You are therefore able and willing to incorporate them into your life as a whole. Your sense of idealism and compassion is central to your life's purpose and it becomes increasingly obvious to you that all living things are one. You are qualified to champion and exemplify this truth.

♆ △ ☾ ★★☆☆☆

Neptune allying with Moon

The good news is that you have a natural feel for a healthy situation, personality, or physical body for that matter. There's probably a history of psychism in your family. This gives you a reliable sense of the whole and of suitable places for homes or establishments. You may also have a talent for dowsing.

♆ □ ♀ ★★☆☆☆

Neptune challenged by Venus

You readily find a means of giving form to your finer feelings and more sophisticated ideas, as described by your Neptune Profile as a whole. You seek the sublime or the glamorous in the world of art or society. The sublime leads you forever on; the glamorous seductively leads you round in circles.

♆ □ ♃ ★★☆☆☆

Neptune challenged by Jupiter

You probably take all these inclinations to extremes. You yaw back and forth between high hopes and disappointments - and so it will go on until you devise a philosophy of life that takes human failing into account as a meaningful reality rather than as something to overlook or avoid altogether. You have a big soft heart that can make dreams come true when tempered with some hard thinking.

♆ ✖ ♁ ★★☆☆☆

Neptune working with Uranus

You find that the more you acquaint yourself with the latest technology, social values, psychological concepts and your own original way of doing things, then the more you are able to achieve your dreams and relieve, enlighten or entertain others.

♆ ✖ ♇ ★★☆☆☆

Neptune working with Pluto

You're helped in taking steps towards enlightenment by the fact that doing so has become a more generally accepted pursuit since the horrors of World War II. However, you will need more than this point alone to set you off on this path.

Chapter Twelve - Your Pluto Profile: Power and Transformation

Pluto in Virgo

You are a member of the Plutonian generation (1956 - 1972) that grew up into a world where revolutionary changes began to take place with regard to the food that we eat and the way we work. Processing and pre-packaging of food has led to impurities and health hazards.

Work has been automated and 'the personal touch' has been removed. The introduction of more efficient means of birth control gave rise to an illusion of sexual inviolability when quite the opposite (sexual abuse) has increased. All these matters were in fact just crises waiting to happen so that they could be - or rather had to be - duly dealt with. You are a bristle in a gigantic new broom that will sweep clean. At some point you may well get obsessed over work and health as a deep sense of service and purity arises from your unconscious mind.

Pluto in the Sixth House

Your call to transformation and your sense of power and destiny is encountered via your work and health. This means that any changes that are necessary in the way you live will show themselves in the state of your body or in your work situation. Putting work and health together, healing and psychology could well be the nature of your actual career.

By the same token, you can be obsessive with regard to health and healthy living. Equally, or additionally, you are very thorough in dealing with any kind of physical disturbance. It's also likely that you subscribe to the theory that all diseases originate in the mind and indeed, as if to prove it, your own body readily shows up any psychological or emotional problems. At its most extreme, a major illness or physical damage can be the event that alters the course of your life.

You are, or come to be, a great believer in thoughts being powerful and existing in their own right. A negative thought will insidiously breed an unwelcome happening. A positive thought would be the new broom that sweeps clean. Similarly, you're able to solve problems at a profound, deep level for yourself and for others. Because of this, people automatically open up in your presence - like it or not.

Your Pluto Aspects

Pluto uniting with Sun

Your life in general revolves around these issues of power and transformation. It is important therefore that you understand quite what this entails because you can either feel filled with awe at the sheer profundity and inevitability of things, or manipulate others, or be manipulated by them as a result of getting caught up in power games and ego conflicts. Yours is either a sense of destiny or doom. It all depends whether you allow yourself to let go and be taken over by something positive or negative. For you it's alpha and omega time: do or die.

Pluto opposed by Moon

Your personal power and influence are checked and complicated by the negative traits of your Moon Profile and by a suspicion that something, or someone, is out to control you. This is because from the word go you absorbed the negative emotions of others, especially those of your mother. Your own intense and vehement emotional nature resented this and built up an obsessive resistance to changing your emotional disposition or domestic situation - even though you don't really like it. Sooner or later you will be called upon to confront and free these rich dark feelings once and for all.

Pluto uniting with Uranus

Transformation will occur in your life one way or the other. Unless you heavily suppress any opportunity for change, some kind of departure from the lifestyle and culture that you were born into is bound to occur in the context of what your Pluto Profile indicates.

Pluto working with Neptune

You know that we're all in the same boat and that it's a case of sink or swim. So, you look around, smile at your fellow human beings and pull together!
