Your Love & Romance Forecast begins on the following page.

If the time period for an interpretation is, for example, given as "Apr 1, 2016 (Feb 15, 2016 to May 15, 2016)", then it starts in mid-February, reaches greatest intensity around April 1, and ends in mid-May. The first date listed is the time when the influence has reached maximum strength; we can call this date the "peak date". The influence starts on the beginning date, gradually increases in strength until the peak date is reached, and then it gradually fades out until the ending date is reached.

You may also notice that the same interpretation shows up periodically during the year; this is not unusual. To eliminate redundant interpretations, you may be informed that the astrological influence also occurred earlier and that you should refer back to the previous occurrence of this interpretation.

At the top right margin after the dates, the abbreviated names of the aspects and the two factors involved are given. For example, "Jup Sqr Sat" means that during the given dates "transiting Jupiter" is squaring your "natal Saturn". That is to say, the first factor that appears is always the transiting planet (present position of the planet in the zodiac), while the second component of the pair is "natal", or the position it was in the zodiac at your birth.

At the beginning of each interpretation the complete name of the aspect and the two factors involved are given in capitalized letters. As before, the first planet is in "transit" while the second is "natal".

Below it, the INTENSITY of the aspect is indicated in a scale from 1 to 10. That is to say, an aspect with an influence of 1 is fleeting (lasts a short time) and colors your day and perhaps the surrounding days. On the other hand, an influence of 10 is longer lasting and colors the surrounding months (sometimes years!). We can consider aspects with an intensity of 8, 9 or 10 VERY STRONG & LONG-LASTING, 6 or 7 STRONG, 4 or 5 RATHER STRONG, SOMEWHAT STRONG at 2 or 3 and WEAK OR FLEETING at 1. It is normal to see many more influences with low INTENSITY than those with high INTENSITY due to the nature of transits--the faster-moving planets make more aspects in any given time period than the slower-moving ones.

This report interprets the aspects between the transiting planets and, for the most part, the following three natal planets: Moon, Venus and Pluto.

VENUS IN FOURTH HOUSE

INTENSITY: 9

You are at your magnetic best when you listen to your gut feelings during this cycle. Your heart is with your home and family, and that's just fine. You don't need to hide yourself away, however. Emphasize your home-loving and nurturing qualities, and others will see you in a most positive light. This is an excellent cycle under which to bring more harmony and pleasant interactions to your relationships with loved ones. Beware of a tendency to wall yourself up, however. Loyalty and sensitivity in your relationships are more important to you than typically. This is a calming influence--a time when simple pleasures most appeal. Love opportunities are more likely to arise in your home, through family connections, real estate activities, or in someone else's home. Your charm factor increases by expressing and emphasizing your domestic qualities, devotion, quietness, and nurturing qualities. Relationships begun now are likely to be emotionally charged, domestic, potentially long-lasting, somewhat private--they run deep. A romance begun now might be characterized by sensitivity, concern, and care on the positive side, but it could also be a moody, clinging one. If you are looking for a romance that might lead to marriage and family, this is a favorable time. Enhancing love now involves enjoying domestic activities together, nesting, spending quiet time together, and expressing nurturing and protective traits towards a lover.

SUN OPPOSITION MOON

INTENSITY: 4

A challenging aspect of transiting Sun to Moon doesn't have too much strength, but can be used to amend certain imbalances in your family or love relationships. Fundamentally, you tend to go to opposite extremes and find it hard to stay on the middle ground. You tend to impose your own points of view and do it in a certain shaky, capricious way according to your emotional state at the moment in question. In other cases you will be inclined to the opposite extreme, that is to say, to be attached and to depend too much on someone. In this case you prefer to depend on a partner or friend before venturing out and solving your own problems.

It's helpful to learn how to achieve the right balance concerning your relationships and emotional affections, neither trying to be the center of the relationship, nor intending that someone else solve your problems for you. This certainly is a difficult road that requires personal security, self-discipline, and self-understanding. It is necessary to give in order to receive, which is a simple rule and very practical in regard to relationships. That is to say, if you are stronger, you will be able to contribute more to your relationship, which also will be strengthened and at the same time will have more ability to protect you. In other words, the more a partnership is strengthened, the more your integration will be strengthened.
Increase your personal security, project that personal security to your mate, and you will find that your relationships improve notably. In that way you are going to be admired, understood, and taken into account thanks to your personal securities.

You may take things more personally now, and issues that have been stewing beneath the surface reveal themselves. This is a period when you are more inclined to behave in an immature or childish manner if you have not been managing or acknowledging your emotions in a healthy way to date. On the negative side, your relationships with others could be strained. You could be feeling less vigorous than usual or more stressed. You might find that you attract challenging situations simply because you are overreacting emotionally. Managed well, this can be a time in which you arrive at increased self-understanding of your innermost needs and wants. Others could be mirroring parts of you that you have been denying. Do what you can to avoid making entirely emotionally-driven decisions. If a relationship begins now, it may be that you're looking outside of yourself for qualities you're currently lacking, and this can result in attraction to someone who exhibits opposite traits.

Oct 6, 2016      7 PM (Oct 5, 2016 to Oct 8, 2016)              Mar Sqr Plu

MARS SQUARE PLUTO

INTENSITY: 4

A challenging aspect of transiting Mars to Pluto greatly increases your vital and sensuous energies. Your desires, feelings, and even passions can be quite high, which makes it necessary to control, moderate, and soften these forces. In the process, you can learn a lot about yourself, and perhaps some of the unflattering parts. You may be meeting the unflattering side of others right now, too!

You tend to express yourself with strong emotions and great psychological vigor during this period, but on occasion you may be a bit sharp or even slightly explosive. Thus, you will also have to control your imagination in order not to exaggerate or become obsessed by small details in your environment, or if you're with someone, in a relationship. For example, there could be groundless jealousy with respect to your friends or mate, or you may attempt to impose your decisions on others. With this aspect, the reverse can be true - someone in your life is attempting to impose their will on you.

If you think that someone has offended you, or you are hurt by something that recently happened between you, it is best to express it clearly, with respect, and as soon as possible. If both of you are accumulating concerns or susceptibilities, they may very well come to light quickly in the near future and would then have to be discussed unnecessarily. With this transit occurring, always ask yourself if things are becoming unnecessarily complicated, and whether you can do something to simplify things!

It may be helpful to accompany the act of sex with intensive communication, before, during, and/or after. Deep sexuality requires a good psychic understanding between lovers so that there can be a real union. If distrust exists or one is concealing certain
aspects from the other, it can be very difficult to reach true ecstasy and happiness.

It can be helpful that both of you share your daily decisions so that you are not bound by commitments that previously have not been planned jointly. If each one acts on their own, then the other will feel why bother, which could increase individualism. It is an excellent time to bring to light the psychological issues of each that may have been retarding the development of the relationship. Conversation about your behaviors, attitudes, virtues and psychological issues, as well as both of your daily experiences is the better way to strengthen your affectionate life. Sharing life together might make your union happier, and helping one another to better yourself can establish strong roots for the future. If each one wants to improve themselves, and if each one wishes that the other improve, the sentimental relationship will be firm and very creative. Speaking about daily problems from a constructive and positive view can very much generate a better vibratory and psychic atmosphere in the relationship.

This aspect does sometimes accompany a breakup or difficult time in a relationship, and if this is the case, there can be unseen forces at work now. Matter that you've been holding onto possibly without even realizing it can now erupt and things can be said or left unspoken that seem to forever change a relationship. Watch for this, because what is expressed during this period has more impact than usual, largely because it can be driven by something unrefined or primal. However, this is also a call to explore those feelings and fears that are often left unacknowledged.

For those who are single and looking, this can be a rather difficult period for getting involved with someone. It is best used as a time for exploring anger, desire, resentment, and fear. It's a rather intense period, although rather brief as well, when you're likely better off getting to know yourself than someone new.

Oct 9, 2016           (Oct 4, 2016 to Oct 14, 2016) Jup Conj Plu

JUPITER CONJUNCT PLUTO

INTENSITY: 7

This astrological aspect generates a wealth of vital, sentimental and sensuous energy and it is advisable to have a creative outlet for this flow of energy. Without a proper outlet, you may have to deal with too much intensification or with a certain lack of control over your sexual and sentimental life. Loyalty is fundamental now, since only this will deepen your relationship sufficiently and helps to surpass the tests or impediments that could emerge in your sensuous relationship. It will be necessary to understand your companion better from an emotional and psychological point of view, otherwise a certain sense of dissatisfaction could nestle in you. You will have intensive desires, want to be amused and enjoy a pleasurable life, and also have a notable need for new experiences and intense emotions. All of this can be very positive, provided that you maintain control over yourself and your wealth of energy. Sexual energy is bound to the total vital energy of the human being, and when it is not balanced, it also affects your partner, but when it is balanced, others will respond to you exactly the same way.
Now you will have to maintain an intense level of communication with your mate, as you are inclined to be a bit obsessed and your imagination sees things that are not there; for example, feeling groundless jealousy, or thinking that at a given moment your mate may be bothering you intentionally, when in reality it is not certain.

It is a good time to find a mate, if you currently are single, but don't think that all is gold that glitters, since you could establish a relationship, but only on the physical or sensuous level. It is advisable to be more selective at the time of choosing a mate and to have patience, since generally the exquisite are quite difficult to find. Don't be too trusting and observe the person with whom you intend to maintain a relationship well before going into action.

If you are engaged, you may be thinking of marriage now, but this may be due to pressures of your environment. It would be recommendable to choose the auspicious time for yourself, your inner maturity and real level of communication that you have with your companion at this time. If there is still a small annoyance or conflict with your mate, it is preferable to surpass them before you are married. That is to say, the simple act of marriage does not solve anything that might not have been resolved through direct and conscious work before. Thus, when your level of understanding and maturity is good, it probably will be the right time to take the following step in your relationship.

If you are married, now your abundant vital energy will incline you to intensify the level of your sensuous relationship. Take into account that loyalty, self-realization and real pleasure is fundamental to achieve happiness. Control your imagination and don't let obsessive elements or a bad character nestle in you. See sexuality as something natural and as a phenomenon of energy exchange on several levels. Sufficient intimacy is procured through confidence, relaxation and real satisfaction of each partner. Don't wait until tomorrow, if something bothers you about your companion, but clarify things immediately, so that you can maintain your daily agenda.

It is possible that you now have opportunities to maintain sexual relationships with one or several persons that are attracted to you, but in this respect there has to be outlined what you understand by sexuality. That is to say, if you consider a relationship only on a physical level, or on your inner feelings that demand more than that. Avoid creating moral problems and act conscientiously in accordance to yourself. As all acts in life, sexuality has to be exercised wittingly, consciously and, if possible, fully. Thus, you certainly will have to learn to say NO in a firm way and at the same time respectful when necessary, otherwise your real sentimental relationship could be diminished or prejudiced.

Oct 12, 2016 (Oct 11, 2016 to Nov 10, 2016) Ven 5th H.

VENUS IN FIFTH HOUSE

INTENSITY: 8
This period is one of the more romantic times of the year for you. You're at your magnetic best, and you're feeling especially playful, during this Venus transit. Take a break from the daily grind, but don't hide yourself away. Do something interesting with special children in your life. Emphasize your fun-loving side. It's all about charm—and you have it! It's natural for you to gravitate towards like-minded and like-hearted people now—and vice versa. At this time, you instinctively know how to place yourself in the best light in order to make a good impression on others. Love opportunities are more likely to arise at places of entertainment or amusement or parties. Your charm factor increases by expressing and emphasizing your playful, dramatic, spontaneous, and fun-loving qualities. Relationships begun now are likely to be very romantic, rich, playful, and full. They radiate energy and pride. They may also be quite dramatic or even melodramatic. Enhancing love now involves dining out, going to shows, sharing pleasurable activities together, and expressing your romantic and spontaneous side.

Oct 16, 2016  8 AM (Oct 14, 2016 to Oct 17, 2016)  Mar Sqr Moo

MARS SQUARE MOON

INTENSITY: 5

This astrological aspect stirs up your emotional life; that is to say, an escalation and revitalization on that level will be produced. Thus, the big problem will be to control that increase in energy in your mental states, your feelings, and your family and affectionate relationships. There will be ardor, delivery, sacrifice and spontaneity in your emotional life, but susceptibility, irritability and passion could also emerge. All in all, this is a phase in which many things in your sentimental and family relationships will be defined.

It is possible that a small disagreement or misunderstanding with a loved one could emerge, but try to soothe your spirits and control yourself. Don't make any emotional decision based on states of psychological irritability.

There could be hypersensitivity and resentment. More than anything, relaxation and psychic neutrality is important for being able to see things with objectivity. If you have been accumulating small animosities or misunderstandings with someone in the past, it is very possible that suddenly everything will come to light. When that happens, don't argue, but simply communicate, try to create an environment of mutual confidence and don't magnify things. Don't be melodramatic now, and don't deem yourself a victim of others. Consider the future, propose solutions and have sufficient greatness of the soul to forgive.

If during this phase you take on a family responsibility or have to decide something on behalf of your family, be very cautious, since you are inclined to be guided by rashness and excessive daring. Thus, if you make a mistake, you probably are going to lose some of the confidence that your family had in you. Because of this, it is advisable to heed the advise of an appropriate person and, above all, delay decisions somewhat so that they can mature. In this respect, you will not be alone and are supported by others that could facilitate your labor.
You will be direct, exempt and spontaneous in expressing your emotional states and your feelings, but don't go to extremes of ardor, fits of anger, or try to impose on your loved ones. Try to be a little more respectful, amiable and affectionate in your emotional expressions, avoiding at all cost abruptness and cultivating amiability. If you soften your emotional expressions, it is much more probable that your family and loved ones will be more receptive toward what you say or suggest to them. On the other hand, if you act in a hard way, they will close up and will be put on the defensive.

This is also a good time to bring to light elements from your infancy and adolescence that still could be active in your subconscious, in the wake of psychological experiences that still have not been assimilated well. If you have some antipathy, resentment or grudge toward some member of your family, now is the time to reflect on it and, thereafter, improve your relationship with that person.

You are acting on your feelings right now, but it might get you into hot water if you are not truly in touch with what you want. You are capable of some childish or impulsive reactions during this transit. Tempers may flare, domestic squabbles are possible, and you could be feeling under the weather. If you are feeling particularly disgruntled, this could be a good time to get in touch with what has been brewing inside.

VENUS TRINE VENUS

INTENSITY: 4

Let your feelings and affections flow. This is a time when the rest of the world seems to be appreciating your romantic "style". You are unlikely to be coming on strong and trying to make things happen, but instead are inclined to flow along with people and situations, attracting what you need and letting the world come to you. Harmonious interactions with others are favored at this time, likely because you are projecting the more charming, cooperative, and agreeable side of your nature! Smoother negotiations are the result, and love is easier than usual to enjoy -- and to find -- today. It could be easier to make money now, but also easier to spend it!

A harmonious aspect of transiting Venus to Venus brings expansion of love, that is to say, you will be able to better understand your loved one. Your inner feelings are finer, higher and less egotistical, and you are more tolerant toward other people. Your sensuality is accentuated and you could have an especially happy and satisfying experience at this time. Fundamentally, it constitutes a "confirmation" of love, since, if the selection of your mate has been right, you now are going to obtain sufficient proof about your selection. Thus, you will note that the other person actually wants you and needs you, which, without a doubt, will generate a juvenile and refreshing sensation in you.

Obviously, this is not an astrological aspect of great strength that coincides with one
or two details that are consciously noticeable - evidently one must wait for big events. Above all, it means enjoying what you have and coming a step closer toward the harmonization between you and your loved one. Express your love with naturalness and you will find that this simple act will rebound immediately. Be guided more or less by the fact that "when you give you shall receive". Express your love subtly and make use of aesthetic details of beautiful character, as the Venusian vibration is related to art, harmony, good taste and the right mood, all of which improve and extol the act of love.

Enjoy any moment of happiness that you could have now and you will see that happiness attracts happiness and what is high is integrated with the high. Understand, live and experience love as something that is simultaneously produced on several levels, that is to say, in the physical dominance as well as the emotional, mental and spiritual. The more global and total your idea and vivacity of love will be, the greater the importance of the experiences in your life will be.

Oct 18, 2016  (Oct 6, 2016 to Oct 28, 2016)  Sat Trine Moo

SATURN TRINE MOON

INTENSITY:  7

This astrological aspect generates great sentimental depth, emotional maturity and a tendency to preserve family securities. Now your feelings are geared toward the protection and conservation for the good of the family unit. You want your loved ones to have an economic situation as stable as possible. Thus, you will express your love to your family by working as much as possible so that your household is strengthened and stabilized. This doesn't mean that you will put aside family meetings with your parents, husband/wife or children by having too many other things to do. To the contrary, this is a time when you will know how to perfectly combine your material responsibilities with your commitments of sentimental character and home.

Briefly, sentimental stability in relationship to your parental family as well as your mate, be it in courtship or marriage, is most important to you now. Above all you will enjoy times of intense emotional experience and great intimacy with a mature and reflexive sentimental expression. That is to say, you will prefer what could be called "realistic romanticism", which opts for going slowly but surely in your relationship with your mate. You don't want any thrills, but unaffectedly go on giving and receiving confidence from your loved one day by day and demonstration after demonstration. For you love is something that has to work, not only something that it is in the imagination or something that is dreamed. You prefer an imperfect love that is accomplished and perfected every day, to a utopian love that never can be accomplished. This means that for you time, experience and maturity are the root of true love, and there is no reason to hurry. You believe that being hasty in love is not only useless, but also uncomfortable. To enjoy a sunset chatting with your mate is a palpable fact for you, and you prefer the quiet and simple pleasures to the hustle or spending all night away at a holiday with your companion.
For you love now requires patience, understanding and also long term planning. You want to be romantic, but on a stable and solid base. Because of this, the conversations with your companion frequently will be about the economic and professional future of both. You now want to stabilize your material life at the same time as your sentimental life. If the physical base is not operating correctly, in your opinion it could also make your family, courtship or matrimonial relationship unstable.

This certainly is a good time to make long range plans and sentimental commitments, since the maturation anticipated by these matters generates great inner security in you as well as your companion. If you are engaged, it is quite probable that you now are beginning to seriously plan your future as a couple. It is an auspicious time for this with respect to support from your respective families as well as economic and material solvency.

Oct 20, 2016 7 PM (Oct 19, 2016 to Oct 21, 2016) Sun Sqr Ven

SUN SQUARE VENUS

INTENSITY: 4

A disharmonious aspect of transiting Sun to Venus brings an increase in your sensuous vital energy, which can incline you to certain excesses. For example, you now could feel a great desire for amusement and expansion, and may even want to escape from your daily grind going to a dance with your mate, dining out, going to a club, or preparing an exceptional weekend. Obviously, there is nothing wrong with it in general, unless these kind of activities are carried to excess. It isn't so much the fact of wanting to live well, but rather to control yourself and stay within your means. If you are not careful, the following weeks could be a narrow squeeze of money, since you over spent on details, gifts or outings to such a degree that you actually are left without anything in the budget for the rest of the month. Don't give so much importance to the size or quantity of your entertainments, since a simple gift in a given moment can have great sentimental value.

Avoid an egocentric, superior and arrogant attitude toward your mate. Perhaps now you are very proud of something you have obtained on a social or professional level, or even are proud of your own companion, but you should never have a capricious or egocentric attitude. Learn to control your abundant energy and you will find that with simplicity, sincerity and nobility big improvements are brought about in your partnership. Learn to speak but also listen, give advice and also think about the advice given to you, in fact, learn to find the right balance between you and your loved one. Neither of you should impose your points of view on the other, but share the decisions and enjoy the responsibilities that both of you have every day. Don't ever think that you are going faster than your companion, since it is necessary that both of you go hand in hand, jointly experiencing the new encounters that are opened to you each day.

At this time you may also be especially proud of your mate and may want to show him/her off socially so that everyone can see that you are the "perfect couple".
Although this is not negative in general, it isn’t bad either to be unnoticed from time to time and to intermingle with others without creating so much attention. It may boost your ego when others remark about you, but it also has its disadvantages since, whether you like it or not, there always will be a certain amount of criticism.

VENUS SEXTILE PLUTO

INTENSITY: 3

This astrological aspect lasts only a few days, but on occasion it’s effect can be felt in a palpable way. Your sensuality and your ability to love are increased now, making you more intense with greater depth and creative energy. It is a personal cycle that can serve you to intensively fuse with your mate.

If you currently are not involved with anyone, use this period to become aware of your creative potential and get to know yourself better. Your personal security can really attract others to you, and there is a possibility of someone becoming strongly interested in you. In this case, try to be selective at the time of choosing a companion, since it is preferable to be alone rather than making the wrong choice. Remember that nobody is pushing you to get a mate quickly. Without a doubt, it can be said that quality is worth more than quantity. If you pass this short and intensive cycle in solitary, become fully aware of yourself as an independent and creative individual.

A harmonious aspect of Venus to Pluto is a small step toward ascending the height of sexual alchemy, which is based on the progressive increase of sexual energy as well as control over it. Uncontrolled sexuality for some people may be precisely the opposite of happiness and fulfillment. On the other hand, high and conscious sexuality inclines to personal self-realization and complete satisfaction in the relationship.

It is a good time to live, study and practice total integration in your affectionate relationship, where the body, the psyche and the mind collaborate toward the same end: fusion, and as a result evolution. Enjoy yourself intensely and become aware of each instant, since true love is bound to the full awareness of each act, each gesture, each feeling and each thought.

If you seize the opportunity, this is a good time for either (or both) finances and relationships. Your feelings are impassioned, but not in an offensive or unpleasant way. You are focused and confident, and you appreciate depth of feeling and authenticity in your dealings with others. Enjoying an especially intimate moment may be part of the picture now. Discovering something new and relevant about a partner (or about your own romantic nature) could also figure.

Mer Sqr Ven
MERCURY SQUARE VENUS

INTENSITY: 2

The probability of communication problems run high right now. It's not a favorable time for gossip or presenting your opinions and ideas, as others are inclined to misunderstand the intentions behind your words. You could take offense at someone's ideas or communications. Choose your words carefully.

Oct 28, 2016     7 PM (Oct 27, 2016 to Oct 29, 2016)     Ven Trine Moo

VENUS TRINE MOON

INTENSITY: 4

A harmonious aspect between Venus and Moon indicates the escalation of your personal romanticism. Your imagination is intensified now, especially, since your surroundings provide a stimuli and small daily events that make you agreeable and merry. In this respect, you could receive a gift, a call, have a special meaningful encounter, or simply will observe that some of your loved ones respond to you in a vibrant, cozy and warm way. During this short period of time, there is harmony between your need to be open, amused and loved on one hand, and your family responsibilities or relationship to your parents on the other hand. Thus, if you are involved in a love relationship now, you will find that the interrelationship will be more and better accepted by your family.

Everything mentioned, without a doubt, will bring greater inner emotional balance and promote some very important and satisfactory relationships with people of your emotional and family environment. You are especially receptive to the feelings and emotional states of other people, which increases your capacity of intense psychic communication with your loved ones or those you protect.

Your feelings are fine and pure now, and at the same time you will want contact with beauty, amusement, aesthetics and art as way of releasing your creative inspiration.

During the time of this aspect it is advisable to acquire a greater vision of the positive elements that sentimentally are forming part of your life; thus, if you give inner thanks for the good things happening to you, it is very probable that they are expanded and magnified. Don't concentrate on things you lack or would like to possess emotionally, it would be preferable to put your psyche on positive things and what is good for your family and sentimental relationships. In some way, perfection in human relationships is impossible.

Take this opportunity to express your feelings to people close to you, as you are more likely to be received well today than on other days. This is a good time to enhance the beauty and grace of your home, as well as to attain some level of harmony in your domestic affairs. You could be called upon to offer some emotional (or financial) support, and you are more willing to do so than usual. This is a green light period for beauty treatments, purchases for your home and family, and subtly
changing your personal style with success. You may not feel like working or pushing yourself too much now, but that's just fine. A passive approach to life works best now. This transit is a cosmic nudge to slow down and enjoy quiet and nurturing activities.

Oct 29, 2016  (Oct 24, 2016 to Nov 3, 2016)  Jup Oppos Mar

JUPITER OPPOSITION MARS

INTENSITY: 6

Inner restlessness can dominate this period in your life. What you do with this extra energy is very much up to you. You may find yourself spinning your wheels, simply because circumstances are such that you have too many desires and not enough outlets or energy to obtain them. Sexual energy is variable, and adventurousness in general is felt. However, be aware that you will have a tendency to overestimate your abilities. Avoid the tendency to boast or to come on too strong, as you may end up rubbing important people in your life the wrong way.

Nov 6, 2016  9 AM (Nov 6, 2016 to Nov 7, 2016)  Mar Oppos Ven

MARS OPPOSITION VENUS

INTENSITY: 6

This astrological aspect increases your sensuous and affectionate energy. Thus, you will be impelled to express your emotions spontaneously, direct and on occasions a bit sharp. In love it is not only necessary to want much, but also to want well, therefore it is recommendable to moderate and soothe your emotional reactions. Don't forget that in the relationship of a couple the aesthetic details, refinement and good taste is also important. Declare your love for your companion in a sweet, respectful and comprehensive way, as too much passion could bring jealousy. Passionate love is one thing and another very different thing is loving passionately, and it is necessary to establish a boundary between one and the other. Not going directly to the point will be a little more romantic, gallant, amiable and genteel.

If you are not involved with anyone, this could be a time when you are enamored quickly and may approach someone that is attractive to you, but you may do it in a daring or untimely way. If you don't moderate your impulse, it is very probable that you may be rejected, since others will see you a bit sharp or discourteous.

Avoid egocentric attitudes and learn to share your decisions with your mate, as you now tend to act on your own without consulting your loved one beforehand. Your companion could be annoyed, because you are speeding up the pace too much in matters that actually relate to both of you. Thus, there could be a case in which you launched some initiative without having counted on him/her sufficiently. And as a consequence, your companion may be burdened with part of the work for which you are responsible. Therefore both of you should jointly plan the next steps you are
going to take, which should not be seen as a loss of your own decisive capacity. Rather, exactly the opposite, since deciding jointly will suppose greater wisdom at the time of carrying out your plan of action. Your mate will help you to be more moderate, balanced and equitable, which, without a doubt, will increase your possibilities of success. This conciliation of objectives between both of you will make you happier as a couple and, at the same time, each of you will be more successful in your family, profession and, as a rule, in the every day world.

Powerful desires and amorous feelings are stimulated now perhaps through an enticing interaction or personal encounter. You take the lead in social situations or attract personal attention. Coming on too strong, not picking up on subtle cues, or being inappropriate in a social sense are pitfalls of this time. Strive for a balance between taking the initiative and being sensitive and aware of others' needs and wants. If you are usually shy and unassertive, this is your moment to come out and take a risk even if you're a bit awkward.

JUPITER OPPOSITION MOON

INTENSITY:  6

This astrological aspect generates great emotional capacity. At given times you may become very sentimental, or will express your emotions in a very visible and theatrical way. You are very family oriented now and have a great sense of responsibility toward your loved ones, such as the members of your paternal family or your conjugal family. You want to protect, benefit and advise your family, but this should not be carried to the extreme, since you have to understand that they also have to learn from their own experiences. At the same time, curiously, you will also need the protection of your family, since you will be especially demanding and needy of affection and fondness. There is an inner struggle between your need for affection on one hand, and your zeal for freedom and independence on the other. Don't go to the extreme of becoming excessively attached to your family, or to the other extreme of becoming too independent. This won't help to maintain your balance, and beginning to vacillate from one to the other will end in feeling a bit confused.

If you are taking on the responsibility of handling resources on behalf of your family, be especially careful, since you could make wrong calculations and may squander to a degree. At the same time, it is possible that your family now is excessively concerned about shining socially, which could lead to spending too much on holidays, social events and luxury items. It is advisable to quietly talk about the short and long term objectives of the family. If the family doesn't work together, it is possible that the common resources diminish. The father has to be in agreement with the mother and the children have to join mutually, otherwise you could be burdened with commitments that have not been discussed decisively or conscientiously.

Try not to get into mental states, such as susceptibility, excessive parenting, attachments, sentimental rebellion, or any other condition that will not be harmonious and balanced. You now tend to be very idealistic and have great
expectations of your loved ones, but should not simply base your illusions on romanticism that is out of proportion. It is preferable to talk with your loved one in an exonerating, opened and trusting way, stating clearly what you expect from him/her. In this way, your companion will know your expectations and thus can improve his/her ways. At the same time, it tells the other person what you think and strengthens your relationship, otherwise you are likely to adopt passive or comfortable attitudes.

VENUS IN SIXTH HOUSE

INTENSITY: 7

Love matters become more practical during this cycle. What works in a relationship becomes more important to you than romance and "play time". You are at your magnetic best when you stay disciplined, stick to your schedule, and honor others' schedules as well. Do your best to be on time. If you've been off track, be kind to yourself, but make sure you re-commit to your personal goals. During this cycle, you are most successful performing tasks that involve cooperation and team harmony. You are more likely to fuss over your lover and show your affection through practical gestures. Try to avoid nitpicking and over-analyzing love. Unless you take steps to prevent it, there is the possibility of your love life becoming too routine during this cycle. Social opportunities may be found at work, on the job, or while participating in health regimes. There is a service theme to your relationships now. You may be more aware of imbalance in your partnerships. Love opportunities are more likely to arise at or through work, the gym, health food store or association, or through medical appointments. Your charm factor increases by expressing and emphasizing your dedication, practicality, and work ethic. Relationships begun now are more likely to be practical; they might be described as meetings of the minds; they may be partnerships that are unequal in some way--those that require sacrifice in order to maintain--such as boss/employee, private affairs, teacher/student. Enhancing love now involves sharing, or taking interest in, daily routines and activities, and through performing services or little chores for a lover.

INTENSITY: 4

Passions run high and hot, but there's a hidden agenda. Feelings of jealousy and possessiveness run so close to the surface that others can almost feel the heat, and they are in direct proportion to your fear of losing something or someone dear to you. Avoid starting a new relationship at this time, because it can be characterized by these energies. Some underlying tensions in social interactions (looking for an ulterior motive or an agenda, suspiciousness) and relationships (possible jealousies) are present now. Sometimes, this transit correlates with heartbreak, unreciprocated
feelings, or romantic disappointment. Often, financial matters come to the fore. Manipulation and underhanded dealings can color relationships now. Avoid power plays with friends and lovers.

A disharmonious aspect of transiting Venus to Pluto brings an increase of your sensuous vital energies. This means that your affections will be accentuated during the time of this astrological aspect. An increase of your personal energy level in principle is of neutral character, that is to say, neither harmonious nor disharmonious, since this depends a great deal on your will. A disharmonious astrological aspect, without a doubt, could incline you to express that energy in an unbalanced way or against your natural character. That is to say, your affectionate energy could have psychological manifestations of a disharmonious character, such as jealousy, excessive attachment to your loved one, or trying to impose your whims on your mate by more or less subtle methods. It is advisable to become aware of this and to control certain instinctive tendencies that now could emerge. Remember that happiness in your relationship, the integration with your loved one, and your personal accomplishment depends a great deal on the respect you have for yourself and each other. Avoid capricious, disrespectful or out of place reactions, and try to amend this kind of conduct and extreme attitudes, always cultivating a moderate and balanced behavior.

Desire is an innate and natural inclination in human beings and, if it is accompanied by emotions and higher thoughts, constitutes the basis for greater happiness and personal development. It is important that the desire always will be an instrument of the personality, and not the other way around, since in this case sooner or later dissatisfaction is produced. Thus, if you allow yourself to be controlled by the instinct of pleasure, you won't have the ability to relax, to enjoy yourself and expand the relationship with your mate. Rather, a vacuum sensation exists upon channeling personal sensuous energies only toward physical pleasure.

You have to learn to relax, to take your time, and to give your sensuous appetites a creative impulse, which neither more nor less is the basis of total sexuality.

MARS TRINE PLUTO

INTENSITY: 4

This harmonious aspect of transiting Mars to Pluto generates an increase of your sexual and vital energy. Sexual energy is bound to self-confidence, which increases your total energy and personal magnetism during this period. It is a good time to deepen the interrelationship that exists between managing sexual energy and total vital energy. Sexual energy is a manifestation of total vital energy, and when sexual energy is used adequately, vital energy is increased.

If you currently have a satisfying sexual life, you might see a nice increase in your personal energy now. Deep sexuality does not consist of squandering your own energy, but exchanging it in an act in which psychological penetration, confidence, and understanding exists. Thus, when mutual confidence and respect exists, sexual
energy is exchanged and not wasted or worn. That is to say, this kind of relationship doesn't squander vital energy, but exactly the opposite, since each partner is more revitalized through the act of making love.

If you project this psychic energy toward someone you love and have full confidence in that person, then that energy is strengthened, exalted, and sublimated. In this way, your increased vital energy will allow you to have a clearer conscience. This can also be about loving yourself and building self-confidence.

It may be more important than usual for you to have an active sexual or physical relationship now, but also consider that it is essential to have psychological understanding with a partner as well as self-realization. You want to devote long periods of time to intense communication with your companion, since you have a need to exchange experiences, share your life together, poll your everyday life, understand a lover better psychologically as well as to understand yourself better and, in fact, to improve yourself.

Obviously self-realization is something personal, but it can be accelerated and intensified when each partner is committed to conscientiously improve their personality and impels the other to self-understanding. This is what designates positive "sexual alchemy", according to which the sexual process is something that occurs on three different levels: physical, emotional, and mental. This is one concept of sexuality, the word derived from "six", that is to say, physical - emotional - mental of one person added to the physical - emotional - mental of another. A satisfying sexual contact can be produced on those three levels, and this is a good astrological aspect under which to really understand this and employ this kind of living together.

However, this is also an important time for understanding your own sexuality without a partner. You might begin to recognize different needs, desires, and wants now, and if you're single and looking, this is a time when you're drawn to more intense, "real", and meaningful relationships.

This is a strong period for asserting yourself effectively without upsetting others. This is not to say you should badger, and your inclination is not in this direction, but it is a good time to let your desires be known in creative ways. Your sex life can certainly improve, as you are more physically and psychologically courageous. Your confidence in your sexuality can also improve. As well, your sense of vital well-being can increase dramatically now. Decision-making is strong. You are meeting people with more confidence right now. You might experience a strong unexpected attraction to someone or a situation. For some, dreams hold a little more intensity and meaning.

SUN TRINE VENUS

INTENSITY: 4
During the time of this harmonious aspect of transiting Sun to Venus your sensuous and affectionate feelings will be accentuated, that is to say, will be expressed clearly; without shyness, disguise or any complex. You now are sure of your feelings and need to revitalize them by sharing them openly with your mate. There is a better understanding between you and your loved one, since you experience that through your love relationship your own personal limits are transcended.

If you are in love with someone and up until now have not expressed your feelings, it probably would be a good time to do it, provided that you are sure and know for certain that your selection is right. If you already have someone or are married, use this chance to reaffirm your love for them, since that revitalizes the feelings for both of you.

What makes your love relationship more attractive now is that you are sure within yourself, which is not being attached or dependent on your mate, or searching for energies that you may lack; on the contrary, you radiate energy and want to share it with the person you love.

There is a possibility of making a good social contact, or entering a higher circle thanks to the prestige of your mate or partner. The harmonious influence of the Sun can bring a small social rise or personal prestige in your life, to a degree thanks to the harmonious influence you are having and in that sense your companion.

VENUS SQUARE MOON

INTENSITY: 4

During the days of this aspect your psychological state probably will fluctuate from the height of superficial happiness to extreme melancholia and a sense of isolation. In reality, there are two kinds of vibrations that prevent you from maintaining an even course, but are continually tilting from one extreme to the other. It is advisable to take some time for personal reflection, thinking about your more recent affectionate or sentimental experiences, before reacting or acting without previous contemplation. Now is the time to look deeper into your real psyche, avoiding at all cost to express your feelings outwardly without having sufficiently worked out what comes from within.

If you are sensitive or affected by the reaction of a relative, a friend, a loved one or even your mate, above all control your imagination, otherwise you run the risk of making a mountain out of a mole hill. Don't evade the situations or people responsible for your sensitivity, but simply reflect on the real meaning of that experience and how to respond to it. Either way, after calming yourself and having reflected you think that your loved one has made a mistake, it is advisable to outline everything smoothly and objectively without getting too personal.

You won't go from a feeling of joy to melancholia very easily, since you are not living in a fairy tale nor in a valley of tears. Find a balance between your family...
responsibilities and your need for entertainment, amuse yourself and relax a while. If you are involved in a love relationship now, see to it that it will be as harmonious as possible with your family to avoid small irritations or sensitivities in the future.

A craving for sweetness and comfort in the form of loving affection or food is strong now. This is a good time to baby yourself and also to spend time with the people who love and appreciate you the most. You could be emotionally and financially irresponsible now, however, and the tendency to bicker with others over emotional and domestic matters is high. Someone whose values are different from yours could easily rub you the wrong way. Watch for over-sensitive reactions.

MARS SEXTILE MOON

INTENSITY: 4

A pleasing emotional or sexual experience can be part of the picture now. Your emotions are spirited, your lust for life is strong, and you are willing to act on a hunch. There's nothing neutral about your feelings now, yet you still manage to come across as level-headed. This is a good time for projects around the home, sexual activity, and anything that involves putting your heart into what you do.

This harmonious astrological aspect energizes your emotions. That is to say, you will feel more competent to express your mental and emotional states in an open way, which causes you to be more direct and spontaneous in your sentimental relationships and, especially, with your family. If you usually are shy, it is a good time to exercise emotional advantage, self-confidence and direct expression of your emotional states.

As a rule, you will be more inclined to define circumstances, to participate actively, to decide and take part in family problems. In other words, you will prefer to take part in family decisions, and in that way try to improve conditions in your family, or solve problems that have been delayed or stagnant for some time. You never will avoid your part of responsibility that touches the dynamics of your family.

You now will be more sure of yourself psychologically, and what is very important, you are not attached to or stopped by people in your family environment. You prefer to devote part of your energies, your time and your effort to improve the dynamics of your family, have family gatherings from time to time to talk over your problems, or simply to pass the time. Thus, your personal self-esteem is increased, making you a very useful person prejudiced toward evolution and change, which will not bring states of emotional susceptibility or evasion. You prefer to sweeten the circumstances with motivation, facts, and fruit, rather than to attempt to adorn them, to defer them, or simply to delay them.

Sincerity and spontaneity in your emotional manifestations are essential for you now. You prefer to vent any possible resentment, hurt feelings or misunderstandings immediately. If there is something that concerns you or that doesn't seem right in
your emotional relationships, you will try to clear the air quickly and without any dubiousness.

Briefly, you are going to express yourself with clear, direct and defined emotions, knowing how to combine your personal freedom with your responsibility toward your family or loved ones. All in all, it will be a phase in which your emotional and psychic experiences will be enriched, conscious, filled with life and very vital.

At this time your sexuality and total vital energy will be revitalized and must be released through a creative exchange. You will be fully aware of the effect of love and of each instant in the interrelationship with your partner. Moments like this cannot be repeated and, without a doubt, constitute a great opportunity to develop and improve your own psychological qualities. Sexuality is not only a release of energy, but to understand yourself through exchange with the other. The act of love is an event of self-understanding and personal self-realization.

This is a good time to openly express your feelings so that you will be totally sincere with yourself and with your loved one. Sharing is being open to new realities, and opening up is necessary for a confident and respectful environment. Putting these qualities into practice will prove that boredom and monotony do not exist in real love. There always is something new to experience, to communicate and to put into practice. Sexuality should not wear out your energy, but release, expand, revitalize and recover your personal strength. This is a good way of finding out if the relationship works correctly, since "nothing is created, nothing is destroyed and all is transformed". Thus, the integral act of love must result in the revitalization of both partners on the physical as well as the emotional and mental levels. As a rule, when someone is tired, it is because you are not achieving an energy circuit adapted to the environment. On the other hand, when someone is revitalized, it is because you readily tune into others, and in this case, your partner.

Talk about your improvements since you were together, comment on the psychological deficiencies you have surpassed, and bring to light those that still need a bit of polishing. This sincere exchange produces great results and deepens your level of communication.

Positive new connections may be made now. The possibility of some form of
recognition or validation for what you do may come during this brief but effective period. A positive frame of mind does wonders now. Familiarity and comfort are dominant motivators for you during this period. It's a good time to mend relationship problems and to surround yourself with people.

This is a good time to strengthen family relationships and the ties with your loved ones. During this period you see things more from an emotional point of view and your psyche now is able to surpass the susceptibilities, including those bound to family situations of the past. This is an auspicious time to be sincere, noble and open with the people most dear to you. It is well known that family relationships rarely are a bed of roses, since generally always one thorn or another emerges. Precisely, this astrological aspect can motivate you to approach and be reconciled with someone, with whom you previously had certain tension. This aspect almost guarantees success, since you are now above misunderstandings and mistakes of the past.

If you are married or have children, it is a good time to guarantee your personal individual integration with your family environment, living the fact that "the personal path of evolution starts in the family". You see that by emitting noble energies, the energies returned to you are also of high and protective character. It is a good time to try and make your household a bright spot, full of warmth, conscience and protection. At least, at this time it is very clear to you that even attempting it is worth the trouble, and that success can be achieved with a little effort.

You are sure of your feelings and the fondness of your loved ones, and because of this, deeply impress the people you love. It is neither more nor less than what is visible, and what is real, noble and high always grows and fructifies. In this case, you plant the seeds of delivery, sacrifice and nobility, and the fruit thereafter will be creative and full of deep emotional experiences. That is to say, if you show your emotions openly to your loved ones, your fondest dreams will be fulfilled, since they will reciprocate in the same way.

This aspect is of short duration and doesn't have too much strength, though it can be potent if it is used in a conscious way.

Dec 5, 2016 5 PM (Dec 4, 2016 to Dec 6, 2016)

VENUS OPPOSITION VENUS

INTENSITY: 4

During this short time of the disharmonious aspect of transiting Venus to Venus your feelings will be intense, but certainly a bit superfluous. It is important to care about forms but, obviously, love cannot be sustained only by extraneous details, more or less fancy gestures, gifts or painstaking care of the personal image. We have to understand, be connected and establish firm bridges between two individuals that by nature are different.

If you are in a period of courtship, don't think that by simply maintaining an apparently harmonious, fun and happy keynote during this phase guarantees that
the future relationship will endure in time. There has to be a fundamental understanding between you, and not only the illusion of having a good time, going dancing or enjoying yourselves with friends.

Equally, if you are in a stable relationship such as marriage, you will be enthused to enjoy yourself, to relax, squander your energy and indulge in intensive leisure, all of which could lead to a certain vacuum sensation upon recapturing your daily responsibilities. You have to find a way to use your spare time for the most creative leisure, for example culture, sports, deep communication with your mate or, simply, seeking the most remote intimacy from the mundane noise.

Obviously, the dynamics of a holiday or spree could be a release of energy after a phase of stress. However, this is not the standard ideal for channeling your free time. Procure to plan the details for some activities with your mate for the weekend or your vacation.

As a rule, it is advisable to moderate your sensuous manifestations and to remember that in love it is not advantageous "to be impatient and expect things to happen" in two or three days. If you are especially euphoric or want things to go well, temper your spirits and extend the moments, and you will find that even when everything is going along well one must have serenity. It is necessary to be relaxed in order to enjoy things and people. If there is too much excitement, the instants and experiences rendered are volatile, passing and not satisfying.

Differences in values or ways of expressing affection in your personal relationships are made very noticeable to you now. Whether or not you are with someone romantically, you could be feeling underappreciated or even unloved. If there is a confrontation with a loved one now, it's unlikely to be very confrontational! Rather, it's likely to take the form of pouting, distancing, and side-stepping the real issue. Probably you'll want to indulge yourself in some way and may avoid getting down to work. Inner unrest could lead you on a shopping spree or some other attempt to reward yourself, when what you really need is to work on establishing a deeper connection with the people you love--or to get in touch with your own true needs.

INTENSITY: 9

Partnering is what matters most to you during this Venus transit. This is a cycle in which cooperation and harmony in relationships satisfies an instinctive need. If you have a partner, tune into your lover's needs and let him or her grab the spotlight for now. It's time to let others shine. If you're single, your unselfishness and willingness to listen will help boost your magnetic appeal. You are coming across as especially smooth, and your good nature is bound to attract some attention. On the negative side, "tit for tat" arguments may surface with a partner now. Love opportunities can arise anywhere, but could be through a consultation or meeting. Your charm factor increases now by expressing and emphasizing your diplomatic, tactful, and
compromising skills. Expressing a harmonious, cooperative, and pleasing manner works best. Relationships begun now are more likely to be true one-to-one partnerships, often leading to commitment; they can be decidedly romantic, at least at first. There is a real give and take associated with this house, however, which can amount to "keeping scores". This is perhaps the most favorable time of the year to enhance an existing relationship. Expressing open-hearted interest in a lover, listening to a lover's side to the "story", and compromising are in focus.

INTENSITY: 4

This astrological aspect lasts only a few days, but on occasion its effect can be felt in a palpable way. Your sensuality and your ability to love are increased now, making you more intense with greater depth and creative energy. It is a personal cycle that can serve you to intensively fuse with your mate.

If you currently are not involved with anyone, use this period to become aware of your creative potential and get to known yourself better. Your personal security can attract people to you, and there is a possibility of someone becoming strongly interested in you. In this case, try to be selective at the time of choosing a companion, since it is preferable to be alone rather than making the wrong choice. Remember that nobody is pushing you to get a mate quickly. Without a doubt, it can be said that quality is worth more than quantity. If you pass this short and intensive cycle in solitary, become fully aware of yourself as an independent and creative individual.

A harmonious aspect of Venus to Pluto is a small step toward ascending the height of sexual alchemy, which is based on the progressive increase of sexual energy as well as control over it. Uncontrolled sexuality for some people may be precisely the opposite of happiness and fulfillment. On the other hand, high and conscious sexuality inclines to personal self-realization and complete satisfaction in the relationship.

It is a good time to live, study and practice total integration in your affectionate relationship, where the body, the psyche and the mind collaborate toward the same end: fusion, and as a result evolution. Enjoy yourself intensely and become aware of each instant, since true love is bound to the full awareness of each act, each gesture, each feeling and each thought.

Deeper aspects of love become apparent, without the usual stresses and strains. Renew a commitment now. This can be an excellent time for finances and for relationships. Your feelings are intense and impassioned, but not in an offensive or destructive way. You may experience karmic attractions now, or, at the very least, strong feelings and attachments. This is a sensual transit--a time when a little charm goes a long way. Something touches you now, and you could discover something intimate and relevant about a partner or about your own love nature.
A harmonious aspect between Venus and Moon indicates the escalation of your personal romanticism. Your imagination is intensified now, especially, since your surroundings provide a stimuli and small daily events that make you agreeable and merry. In this respect, you could receive a gift, a call, have a special meaningful encounter, or simply will observe that some of your loved ones respond to you in a vibrant, cozy and warm way. During this short period of time, there is harmony between your need to be open, amused and loved on one hand, and your family responsibilities or relationship to your parents on the other hand. Thus, if you are involved in a love relationship now, you will find that the interrelationship will be more and better accepted by your family.

Everything mentioned, without a doubt, will bring greater inner emotional balance and promote some very important and satisfactory relationships with people of your emotional and family environment. You are especially receptive to the feelings and emotional states of other people, which increases your capacity of intense psychic communication with your loved ones or those you protect.

Your feelings are fine and pure now, and at the same time you will want contact with beauty, amusement, aesthetics and art as way of releasing your creative inspiration.

During the time of this aspect it is advisable to acquire a greater vision of the positive elements that sentimentally are forming part of your life; thus, if you give inner thanks for the good things happening to you, it is very probable that they are expanded and magnified. Don't concentrate on things you lack or would like to possess emotionally, it would be preferable to put your psyche on positive things and what is good for your family and sentimental relationships. In some way, perfection in human relationships is impossible.

Right now, your best bet for personal success is expressing yourself sincerely and warmly. Your personal popularity gets a boost now. Others could lean on you for a little support, and you are more than willing to give it. Tensions on the home front ease, and a partner is more attentive to you. Peace and harmony satisfy an instinctive need now, and your focus should be on ways to improve or maintain a state of balance in your personal life. Passive responses to life work better for you during this period than aggressive ones. Compliments could come your way. Your mood is sensual.
Open your heart!

Love is in the air, and your relationships are harmonious and rewarding. Others find you attractive and enjoyable to be with. Your judgment is balanced now, and you are less likely to go to extremes. Use this inner balance to smooth over differences in your personal relationships.

All that is deeply personal and that lies below the surface boosts your mood. During this cycle, it feels especially sexy and rewarding to keep secrets. Be a good listener, trust your instincts, and connect with your innermost desires. Tuning into your partner's point of view will help improve your love life considerably right now. Your intimate relationships are intensified, and either you or your partner (or, ideally, both of you!) want a deeper, more intimate and meaningful union. This is an excellent cycle under which to work on resolving differences in values or problems with joint finances in a close relationship. Beware of suspiciousness, however. The deep, perhaps even primal, energies of this transit could bring to the surface jealousies, possessiveness, and fear of betrayal. Love opportunities are more likely to arise privately, at a bank or financial institution, or in an intimate venue. Your charm factor increases considerably by expressing and emphasizing your quiet appeal and magnetism, mysterious manner, and intensity. Relationships begun now are likely to be intense, all-consuming, emotionally-charged, deep, possibly stormy and characterized by possessiveness, obsession, or power games; passionate and erotic. Enhancing love now involves deeper expressions of love and intimacy, non-superficial expressions of love (although these do not have to be spoken), and expressing psychological understanding.

This aspect symbolizes the possibility of a small irritation or conflict of little importance in your love relationship. Perhaps subconsciously something has been growing between you that has not been dealt with, come to light or outlined in a direct and respectful way. Now is the time to review possible latent issues between you, such as jealousy, secret sensitivities or egotistic attitudes of one with respect to the other. Don't forget that in love relationships there has to be revitalization from day to day that should not be neglected, but is advisable to maintain continual attention and concentration. Learn to share the achievements that each of you may
have accomplished, talk about the psychological imperfections that still are within you and have not yet been surpassed, in fact, summarize your psyche in an earthly way. It is not the time to conceal anything, but rather to recognize your own limitations and making goals to surpass them. Sharing your limitations with your loved one will help you gain more strength to tackle the task.

You will also notice an increase in your sexual energy during the time of this astrological aspect, but at given times it could be expressed abruptly and vacillating. A satisfying sexual relationship requires self-control, commitment and desire. True love is accompanied by higher qualities such as the above mentioned. Don't forget that a sexual relationship is brought about simultaneously on the physical as well as the emotional and mental level. The physical vitality must be accompanied by the feeling of sincerity and intense communication so that the spark of real love can be produced.

Avoid superior or arrogant attitudes in your love relationship and practice sincere communication every day. Don't accumulate anything or keep anything for tomorrow. If you believe that your mate has failed in some way, first meditate on it and when you are completely calm, show respect and confidence in your companion. By continuing this method you will find that a good quality of communication is established, and the results will be seen by you alone. It is always preferable to quietly become aware of the situation before accusing each other without reason and common sense. Don't allow anything to alter the confidence in your mate, since this is the basis on which a stable and fulfilling relationship is sustained. Neither of you are perfect, and that is what makes your adventure more interesting.

INTENSITY: 4

Relationship problems that arise now likely have their roots in emotional unrest and some confusion between what you want to do and what you think you should do. You are more excitable than usual, and less inclined to make rational, thought-out decisions. Whims could take hold. If you are having problems on the domestic front, they are magnified now. Do your best not to force changes in your life. Circumstances and others tend to be less supportive than usual, and you might find you have to push yourself harder to achieve the same results you would on other days of the month. Inner restlessness may take you out of your typical routine. Relationships with others may be strained for the time being. This is a good time to uncover issues of emotional unrest that have been bubbling under the surface, and to take steps to take better care of your emotional needs.

A disharmonious aspect of transiting Sun to Moon doesn't have too much strength, but can be used to amend certain imbalances in your relationships. Fundamentally, you tend to go to opposite extremes and find it hard to stay on the middle ground. In the first place, at given times you are inclined to be too individualistic, arrogant and self-sufficient in your relationships. You tend to impose your own points of view
and do it in a certain shaky, capricious way according to your emotional state at the moment in question. In other cases you will be inclined to the opposite extreme, that is to say, to be attached and to depend too much on what could be called the "family warmth". In this case you prefer to depend on the family unit before venturing out and solving your own problems.

Increase your personal security, project that personal security to others, and you will find that your relationships improve notably, or that you’re attracting the right people into your life. In that way you are going to be admired, understood, and taken into account thanks to your personal securities.

VENUS SQUARE SUN

INTENSITY: 5

Irritations that seem to stem from others could be the reflection of your own inner uneasiness. Do your best to control yearnings for more than what you have and search for a creative solution for your inner dissatisfaction. Avoid the impulse to make ultimatums with a lover.

SUN OPPOSITION VENUS

INTENSITY: 4

A disharmonious aspect of transiting Sun to Venus brings an increase in your sensuous vital energy, which can incline you to certain excesses. For example, you now could feel a great desire for amusement and expansion, and may even want to escape from your daily grind going to a dance with your mate, dining out, going to a club, or preparing an exceptional weekend. Obviously, there is nothing wrong with it in general, unless these kind of activities are carried to excess. It isn't so much the fact of wanting to live well, but rather to control yourself and stay within your means. If you are not careful, the following weeks could be a narrow squeeze of money, since you over spent on details, gifts or outings to such a degree that you actually are left without anything in the budget for the rest of the month. Don't give so much importance to the size or quantity of your entertainments, since a simple gift in a given moment can have great sentimental value.

Avoid an egocentric, superior and arrogant attitude toward your mate. Perhaps now you are very proud of something you have obtained on a social or professional level, or even are proud of your own companion, but you should never have a capricious or egocentric attitude. Learn to control your abundant energy and you will find that with simplicity, sincerity and nobility big improvements are brought about in your partnership. Learn to speak but also listen, give advice and also think about the advice given to you, in fact, learn to find the right balance between you and your
loved one. Neither of you should impose your points of view on the other, but share the decisions and enjoy the responsibilities that both of you have every day. Don't ever think that you are going faster than your companion, since it is necessary that both of you go hand in hand, jointly experiencing the new encounters that are opened to you each day.

At this time you may also be especially proud of your mate and may want to show him/her off socially so that everyone can see that you are the "perfect couple". Although this is not negative in general, it isn't bad either to be unnoticed from time to time and to intermingle with others without creating so much attention. It may boost your ego when others remark about you, but it also has it's disadvantages since, whether you like it or not, there always will be a certain amount of criticism.

VENUS IN NINTH HOUSE

INTENSITY:  7

This is an expressive and outgoing position for Venus. You are more obviously magnetic during this cycle. Take advantage by spreading your good humor. During this cycle, you're at your most magnetic when you're being adventurous. If you feel you're stuck in the same old routine, do yourself a favor and plug into your interests. Do something you haven't done before, and you're more likely to attract who and what you want. A deep discussion could take your heart forward by leaps and bounds. Different people (those who you don't normally consider your "type") attract you. You're looking for new and different people, and experiences. The exotic and the unknown have more appeal to you than the familiar. Sharing your philosophical interests with a romantic partner may be especially appealing now. Love opportunities are more likely to arise while traveling or embarking on some kind of non-routine venture; at institutions of higher learning or through a study group. Expressing and emphasizing your adventurous, philosophical, optimistic, and brave side boosts your attractiveness during this cycle. Relationships begun now are more likely to be happy-go-lucky, meetings of the mind, non-possessive, exciting, and adventurous. Enhancing love now involves sharing and comparing your spiritual, religious, or philosophical interests with a friend or loved one, which can open up a whole new dimension to your relationship.

MARS TRINE VENUS

INTENSITY:  6

A harmonious aspect of transiting Mars to Venus activates your emotional, sensuous and affectionate energy. The relationship to your mate will be especially vital. You may want to expand, enjoy, entertain and intensify your emotional communication. In general, you will feel more sure of expressing your emotions and addressing your
relationship to your mate. Thus, the decisions you make will be supported and applauded by your companion, provided that you outline them in an agreeable, exonerating and balanced way. Take the good advice of your loved one now. Upon making decisions jointly you will benefit in all kinds of activities, such as professional, economic or of any other nature. Your mate will tend to moderate, calm down, balance and perfect the ideas and initiatives that now are buzzing around in your head. This daily sincere exchange at the time of making decisions will enormously strengthen the confidence between both of you. Everything will be going along well and you will prove that as a couple you are very capable of resolving matters of great importance as well as daily things.

Sensually, you now tend to be very passionate, spontaneous and ardent in the manifestation of your emotions, which will increase the level of energy exchange between you and your companion. This generates greater inner security in you as well as your partner and greater ability to contend with the daily circumstances. Furthermore, as time goes on you will know how to better combine the responsibilities that each of you have from day to day, on one hand, and times of leisure and expansion, on the other hand.

Briefly, you are likely to have new and intensive experiences in relationship to your mate, which will give you opportunities to develop delivery, intensity, sacrifice and nobility. It is very probable that you now crave fresh air, a trip or sports activity with your companion to create the feeling of being immersed in an adventurous environment. Without a doubt, the greatest adventure you will have together is that of your own life, since sharing determination, projects, ideals and accomplishments will bring vibrant and emotional experiences that you will remember forever. You will also have opportunities for creative leisures, enjoying new surroundings, and very fulfilling periods, weekends or a vacation for both of you.

This is a wonderful moment for romance! You're in a loving, amorous mood, and if you have no lover at the moment, make something beautiful, luscious, and appealing in whatever arena you most enjoy. All creative acts are favored now. Dancing or some other vital and sensual self-expression would be especially satisfying.

This is a benefic and successful aspect; you are passionate, sexy and attractive. It is a good time for financial ventures, social life, artistic pursuits, romance and pleasure. You are now able to take the initiative and achieve harmony and sexual fulfillment in your romantic life. Although, do be careful, for there is some danger that the passions may overrule your usual discrimination. However, it is a harmonious and peaceful influence and it should bring fruitful relationships and satisfaction to the feelings, and to the emotional side of your nature. You may make permanent ties or relationships that prove to be successful and fortunate. This aspect strengthens the higher-nature and gives opportunities for the realization of hopes and wishes. It can bring financial gain, presents, social advantages, and the company of those who bring happiness and pleasure into your life. It will bring joy according to your power to respond; but if you go to extremes of feeling and allow sensation to overcome love, then you will suffer through such excess of emotion and thereby miss the genuine opportunities that are present. Nevertheless, if you choose wisely you may make this a most happy and successful period.

INTENSITY: 3

At this time your sexuality and total vital energy will be revitalized and must be released through a creative exchange. You will be fully aware of the effect of love and of each instant in the interrelationship with your partner. Moments like this cannot be repeated and, without a doubt, constitute a great opportunity to develop and improve your own psychological qualities. Sexuality is not only a release of energy, but to understand yourself through exchange with the other. The act of love is an event of self-understanding and personal self-realization.

This is a good time to openly express your feelings so that you will be totally sincere with yourself and with your loved one. Sharing is being open to new realities, and opening up is necessary for a confident and respectful environment. Putting these qualities into practice will prove that boredom and monotony do not exist in real love. There always is something new to experience, to communicate and to put into practice. Sexuality should not wear out your energy, but release, expand, revitalize and recover your personal strength. This is a good way of finding out if the relationship works correctly, since "nothing is created, nothing is destroyed and all is transformed". Thus, the integral act of love must result in the revitalization of both partners on the physical as well as the emotional and mental levels. As a rule, when someone is tired, it is because you are not achieving an energy circuit adapted to the environment. On the other hand, when someone is revitalized, it is because you readily tune into others, and in this case, your partner.

Talk about your improvements since you were together, comment on the psychological deficiencies you have surpassed, and bring to light those that still need a bit of polishing. This sincere exchange produces great results and deepens your level of communication.

VENUS TRINE VENUS

INTENSITY: 4

Let your feelings and affections flow. This is a time when the rest of the world seems to be appreciating your romantic "style". You are unlikely to be coming on strong and trying to make things happen, but instead are inclined to flow along with people and situations, attracting what you need and letting the world come to you. Harmonious interactions with others are favored at this time, likely because you are projecting the more charming, cooperative, and agreeable side of your nature! Smoother negotiations are the result, and love is easier than usual to enjoy -- and to
find -- today. It could be easier to make money now, but also easier to spend it!

A harmonious aspect of transiting Venus to Venus brings expansion of love, that is to say, you will be able to better understand your loved one. Your inner feelings are finer, higher and less egotistical, and you are more tolerant toward other people. Your sensuality is accentuated and you could have an especially happy and satisfying experience at this time. Fundamentally, it constitutes a "confirmation" of love, since, if the selection of your mate has been right, you now are going to obtain sufficient proof about your selection. Thus, you will note that the other person actually wants you and needs you, which, without a doubt, will generate a juvenile and refreshing sensation in you.

Obviously, this is not an astrological aspect of great strength that coincides with one or two details that are consciously noticeable - evidently one must wait for big events. Above all, it means enjoying what you have and coming a step closer toward the harmonization between you and your loved one. Express your love with naturalness and you will find that this simple act will rebound immediately. Be guided more or less by the fact that "when you give you shall receive". Express your love subtly and make use of aesthetic details of beautiful character, as the Venusian vibration is related to art, harmony, good taste and the right mood, all of which improve and extol the act of love.

Enjoy any moment of happiness that you could have now and you will see that happiness attracts happiness and what is high is integrated with the high. Understand, live and experience love as something that is simultaneously produced on several levels, that is to say, in the physical dominance as well as the emotional, mental and spiritual. The more global and total your idea and vivacity of love will be, the greater the importance of the experiences in your life will be.

SUN SEXTILE MOON

INTENSITY: 2

This is a time of conscious striving--knowing what you want and working towards getting it. Your vitality gets a little boost and your recuperative powers are better than normal. Relations with others tend to flow smoothly now. At the root of improved relationships are inner confidence, contentment, and balance.

This is a good time to strengthen family relationships and the ties with your loved ones. During this period you see things more from an emotional point of view and your psyche now is able to surpass the susceptibilities, including those bound to family situations of the past. This is an auspicious time to be sincere, noble and open with the people most dear to you. It is well known that family relationships rarely are a bed of roses, since generally always one thorn or another emerges. Precisely, this astrological aspect can motivate you to approach and be reconciled with someone, with whom you previously had certain tension. This aspect almost guarantees success, since you are now above misunderstandings and mistakes of the past.
If you are married or have children, it is a good time to guarantee your personal individual integration with your family environment, living the fact that "the personal path of evolution starts in the family". You see that by emitting noble energies, the energies returned to you are also of high and protective character. It is a good time to try and make your household a bright spot, full of warmth, conscience and protection. At least, at this time it is very clear to you that even attempting it is worth the trouble, and that success can be achieved with a little effort.

You are sure of your feelings and the fondness of your loved ones, and because of this, deeply impress the people you love. It is neither more nor less than what is visible, and what is real, noble and high always grows and fructifies. In this case, you plant the seeds of delivery, sacrifice and nobility, and the fruit thereafter will be creative and full of deep emotional experiences. That is to say, if you show your emotions openly to your loved ones, your fondest dreams will be fulfilled, since they will reciprocate in the same way.

This aspect is of short duration and doesn't have too much strength, though it can be potent if it is used in a conscious way.

*Feb 5, 2017  4 PM (Feb 4, 2017 to Feb 7, 2017)*  Mar Oppos Plu

**MARS OPPOSITION PLUTO**

**INTENSITY:** 4

A challenging aspect of transiting Mars to Pluto greatly increases your vital and sensuous energies. Your desires, feelings, and even passions can be quite high, which makes it necessary to control, moderate, and soften these forces. In the process, you can learn a lot about yourself, and perhaps some of the unflattering parts. You may be meeting the unflattering side of others right now, too!

You tend to express yourself with strong emotions and great psychological vigor during this period, but on occasion you may be a bit sharp or even slightly explosive. Thus, you will also have to control your imagination in order not to exaggerate or become obsessed by small details in your environment, or if you're with someone, in a relationship. For example, there could be groundless jealousy with respect to your friends or mate, or you may attempt to impose your decisions on others. With this aspect, the reverse can be true - someone in your life is attempting to impose their will on you.

If you think that someone has offended you, or you are hurt by something that recently happened between you, it is best to express it clearly, with respect, and as soon as possible. If both of you are accumulating concerns or susceptibilities, they may very well come to light quickly in the near future and would then have to be discussed unnecessarily. With this transit occurring, always ask yourself if things are becoming unnecessarily complicated, and whether you can do something to simplify things!
It may be helpful to accompany the act of sex with intensive communication, before, during, and/or after. Deep sexuality requires a good psychic understanding between lovers so that there can be a real union. If distrust exists or one is concealing certain aspects from the other, it can be very difficult to reach true ecstasy and happiness.

It can be helpful that both of you share your daily decisions so that you are not bound by commitments that previously have not been planned jointly. If each one acts on their own, then the other will feel why bother, which could increase individualism. It is an excellent time to bring to light the psychological issues of each that may have been retarding the development of the relationship. Conversation about your behaviors, attitudes, virtues and psychological issues, as well as both of your daily experiences is the better way to strengthen your affectionate life. Sharing life together might make your union happier, and helping one another to better yourself can establish strong roots for the future. If each one wants to improve themselves, and if each one wishes that the other improve, the sentimental relationship will be firm and very creative. Speaking about daily problems from a constructive and positive view can very much generate a better vibratory and psychic atmosphere in the relationship.

This aspect does sometimes accompany a breakup or difficult time in a relationship, and if this is the case, there can be unseen forces at work now. Matter that you've been holding onto possibly without even realizing it can now erupt and things can be said or left unspoken that seem to forever change a relationship. Watch for this, because what is expressed during this period has more impact than usual, largely because it can be driven by something unrefined or primal. However, this is also a call to explore those feelings and fears that are often left unacknowledged.

For those who are single and looking, this can be a rather difficult period for getting involved with someone. It is best used as a time for exploring anger, desire, resentment, and fear. It's a rather intense period, although rather brief as well, when you're likely better off getting to know yourself than someone new.

INTENSITY: 5

You are especially courageous and forthright right now, and you absolutely need to take the initiative. While you should watch out for coming on too strong (others might find you too aggressive), it's a good time to confront matters directly. You have a great need to take action and take charge, but do watch that you don’t tread on a partner’s feelings in the process! Sexually, right now you are pumped up, but not especially romantic or sensitive.

Feb 12, 2017    1 PM (Feb 10, 2017 to Feb 14, 2017)    Ven Oppos Plu

VENUS OPPOSITION PLUTO
A disharmonious aspect of transiting Venus to Pluto brings an increase of your sensuous vital energies. This means that your affections will be accentuated during the time of this astrological aspect. An increase of your personal energy level in principle is of neutral character, that is to say, neither harmonious nor disharmonious, since this depends a great deal on your will. A disharmonious astrological aspect, without a doubt, could incline you to express that energy in an unbalanced way or against your natural character. That is to say, your affectionate energy could have psychological manifestations of a disharmonious character, such as jealousy, excessive attachment to your loved one, or trying to impose your whims on your mate by more or less subtle methods. It is advisable to become aware of this and to control certain instinctive tendencies that now could emerge. Remember that happiness in your relationship, the integration with your loved one, and your personal accomplishment depends a great deal on the respect you have for yourself and each other. Avoid capricious, disrespectful or out of place reactions, and try to amend this kind of conduct and extreme attitudes, always cultivating a moderate and balanced behavior.

Desire is an innate and natural inclination in human beings and, if it is accompanied by emotions and higher thoughts, constitutes the basis for greater happiness and personal development. It is important that the desire always will be an instrument of the personality, and not the other way around, since in this case sooner or later dissatisfaction is produced. Thus, if you allow yourself to be controlled by the instinct of pleasure, you won't have the ability to relax, to enjoy yourself and expand the relationship with your mate. Rather, a vacuum sensation exists upon channeling personal sensuous energies only toward physical pleasure.

You have to learn to relax, to take your time, and to give your sensuous appetites a creative impulse, which neither more nor less is the basis of total sexuality.

An intense emotional or sexual attraction, a very revealing, intimate encounter, or a powerful desire to be close to and share your deepest feelings with someone is very likely now. Emotions and issues in a close relationship that have been brewing beneath the surface for quite awhile come to the surface at this time, possibly in a very disruptive way. All of your relationships intensify and you need to be aware of a tendency to act in a rather compulsive, demanding way towards others. This is an "all or nothing" energy. Manipulative behavior, fear of betrayal, and power struggles are possible. You might feel relationships are threatened. Reassurance will help calm the green-eyed monster.

Feb 14, 2017  1 PM (Feb 14, 2017 to Feb 15, 2017)  Mar Conj Moo

MARS CONJUNCT MOON

A conjunction of transiting Mars to Moon accentuates your emotional experiences.
Assuredly, certain emotional circumstances, happenings or recollections of the past suddenly come to the surface now. That is to say, there is an acceleration of your psychological emotional experiences, which makes it necessary to exercise self-control, so that the situations and sensations are not fueled. If you are able to control this psychic flow of energy, you will gain emotional strength, stability in your spiritual state, and the ability to solve your emotional and family situations from day to day.

Basically, you are hypersensitive and may feel neglected or hurt by some emotional situations that could occur. Don't take things from a susceptible or personal point of view, since this will psychologically distort the real value that such experiences possess. More than melodramatizing, now is the time to reduce the tone, cool your emotional state, and try to see the psychic flow of your impressions more clearly. Because of this, don't make any impetuous or rash emotional decisions now. Since nothing will be agreeable to you, wait until you are calm and in a neutral emotional state to decide which course to take.

Now it may seem to you that your loved ones are pressuring you. That perception, in reality, simply is a manifestation of inner insecurity. Without apparent reason you worry that irritations or rejection in your relationships could emerge. Because of this, it is advisable to trust and be sure of your own emotional stability, and you will find that in an almost magical way the emotional and family situations are gradually stabilized. On the other hand, if you persist in hypersensitivity, psychological weariness will make it's appearance and things in your environment will begin to be left out of the main stream. Then you will feel bad and find yourself with a certain guilt complex. Briefly, if you are mature, serene, firm and respectful in your sentimental and family relationships, you will find that the response of others toward you gradually will improve in quality and level.

Don't ever think that others want to hurt your feelings, since this prejudice makes you defensive. Rather, think that your loved ones will love you now and in the future. Be clear, direct and forgiving, if you think that someone may have offended you or may have failed to respect you. Don't wait until tomorrow and expect that expressing your complaints will be clear and amiable then. Never accumulate small susceptibilities or misunderstandings for days, weeks or months, since at that time no one will have sufficient objectivity as to know what actually happened. To the contrary, your report will transmit to them an exaggerated perception of something that at that time had practically no importance. This is the principal problem of not clarifying things from day to day, since by accumulating, the inner perception is distorted with respect to reality. Apply the above advice, communicate and converse about those small misunderstandings that come up every day. You will see that the benefits are highly positive.

Acting upon your emotions in some manner, or taking action in your home, could figure now with the fiery planet stimulating your emotional, domestic Moon. Depending on circumstances, there could be domestic friction, dealings with people who are frustratingly passive or indecisive, an invigorating project around the home, or an exciting emotional experience now. You could be especially defensive and emotional, or possessive and protective of loved ones. Acting on impulse is more likely now than usual.
VENUS CONJUNCT MARS
INTENSITY: 6

You are especially creative (and procreative!) now. Cooperating with others is easy. If an existing relationship needs a boost, now is the time to put the extra effort forth. Venus acts to soothe and soften whatever it contacts. In this case, it's your raw, instinctual nature, so your aggressive nature is toned down. Your powers of attraction are heightened, and you are more likely to be the one who's pursued. Any new relationship begun under this transit is likely to be especially passionate.

VENUS CONJUNCT MOON
INTENSITY: 4

A transiting aspect of Venus to your Moon represents emotional exaltation. That is to say, during the time of this transit you are going to have a great need for love, intimacy and understanding. To channel these feelings properly it is necessary to live, experience and practice that "to receive one must give". In other words, don't take on a passive attitude waiting for others to approach you and kiss you, embrace you or express that they want you.

It is necessary to avoid emotional changes, and especially, that these variations don't affect the way you treat your loved ones. If you make the mistake of reacting to them in a superfluous or capricious way, in return they obviously will hesitate to object if they have a disagreement with you. If at a given moment you happen to suffer an emotional low or an intensive high, try to exercise self-control so that those fluctuations do not affect your daily way of behavior with your family or your loved one.

This is a time when your instinct or sense of protection is manifested very explicitly. This, obviously, is not negative, provided that it isn't carried to excess by psychologically overburdening or suffocating the people you want to protect.

To psychologically relieve yourself of family responsibilities or small problems emerging in your love relationship, you have to know when to take a rest and be distracted, or take some time for leisure and relax. Sometimes you will need to enjoy these moments of distraction in solitary, while other times you prefer to be with your family or mate to clear the air. It is important to maintain an optimistic and sound mental state and, if at a given moment your emotions are overcharged, try not to let it affect your personal relationships.

Don't count on certain people that have your confidence to solve your problems.
Sometimes it is preferable to clear your mind, relax and restore your balance by participating in social, artistic, sports or other types of activities. It is better to put your mind on positive things and not concentrating on your problems.  
Your mood is especially romantic and sensual. Let it guide you, and you might just find yourself in a very fortunate situation. This energy is excellent for any behind-the-scenes or domestic activities. It's an opportune time to make domestic purchases, and to buy or wear new clothing for the first time. Beauty treatments are favored. This is a time when praise or compliments naturally come your way, when you receive friendly greetings, and when you might extend a hand to others you care about. Aiding someone financially or spiritually is bound to boost your own spirits.

MARS SQUARE VENUS

INTENSITY: 6

This astrological aspect increases your sensuous and affectionate energy. Thus, you will be impelled to express your emotions spontaneously, directly, and on occasions, a bit sharply. In love it is not only necessary to want much, but also to want well, therefore it is recommendable to moderate and soothe your emotional reactions. Don't forget that in the relationship of a couple the aesthetic details, refinement and good taste are also important. Declare your love for your companion in a sweet, respectful and comprehensive way, as too much passion could bring jealousy. Passionate love is one thing and another very different thing is loving passionately, and it is necessary to establish a boundary between one and the other. Not going directly to the point will be a little more romantic, gallant, amiable and genteel.

If you are not involved with anyone, this could be a time when you are enamored quickly and may approach someone that is attractive to you, but you may do it in a daring or untimely way. If you don't moderate your impulse, it is very probable that you may be rejected, since others will see you as a bit sharp or discourteous.

Avoid egocentric attitudes and learn to share your decisions with your mate, as you now tend to act on your own without consulting your loved one beforehand. Your companion could be annoyed, because you are speeding up the pace too much in matters that actually relate to both of you. Thus, there could be a case in which you launched some initiative without having counted on him/her sufficiently. And as a consequence, your companion may be burdened with part of the work for which you are responsible. Therefore both of you should jointly plan the next steps you are going to take, which should not be seen as a loss of your own decisive capacity. Rather, exactly the opposite, since deciding jointly will suppose greater wisdom at
the time of carrying out your plan of action. Your mate will help you to be more moderate, balanced and equitable, which, without a doubt, will increase your possibilities of success. This conciliation of objectives between both of you will make you happier as a couple and, at the same time, each of you will be more successful in your family, profession and, as a rule, in the every day world.

Powerful desires and amorous feelings are stimulated now perhaps through an enticing interaction or personal encounter. You take the lead in social situations or attract personal attention. Coming on too strong, not picking up on subtle cues, or being inappropriate in a social sense are pitfalls of this time. Strive for a balance between taking the initiative and being sensitive and aware of others' needs and wants. If you are usually shy and unassertive, this is your moment to come out and take a risk even if you're a bit awkward.

This astrological influence (Ven Conj Mar) also occurred on Feb 20, 2017 (peak date). Please refer to this date.

SUN TRINE VENUS

INTENSITY: 4

During the time of this harmonious aspect of transiting Sun to Venus your sensuous and affectionate feelings will be accentuated, that is to say, will be expressed clearly; without shyness, disguise or any complex. You now are sure of your feelings and need to revitalize them by sharing them openly with your mate. There is a better understanding between you and your loved one, since you experience that through your love relationship your own personal limits are transcended.

If you are in love with someone and up until now have not expressed your feelings, it probably would be a good time to do it, provided that you are sure and know for certain that your selection is right. If you already have someone or are married, use this chance to reaffirm your love for them, since that revitalizes the feelings for both of you.

What makes your love relationship more attractive now is that you are sure within yourself, which is not being attached or dependent on your mate, or searching for energies that you may lack; on the contrary, you radiate energy and want to share it with the person you love.

There is a possibility of making a good social contact, or entering a higher circle thanks to the prestige of your mate or partner. The harmonious influence of the Sun can bring a small social rise or personal prestige in your life, to a degree thanks to the harmonious influence you are having and in that sense your companion.

SUN OPPOSITION PLUTO

INTENSITY: 3

This aspect symbolizes the possibility of a small irritation or conflict of little importance in your love relationship. Perhaps subconsciously something has been growing between you that has not been dealt with, come to light or outlined in a direct and respectful way. Now is the time to review possible latent issues between you, such as jealousy, secret sensitivities or egotistic attitudes of one with respect to the other. Don't forget that in love relationships there has to be revitalization from day to day that should not be neglected, but is advisable to maintain continual attention and concentration. Learn to share the achievements that each of you may have accomplished, talk about the psychological imperfections that still are within you and have not yet been surpassed, in fact, summarize your psyche in an earthly way. It is not the time to conceal anything, but rather to recognize your own limitations and making goals to surpass them. Sharing your limitations with your loved one will help you gain more strength to tackle the task.

You will also notice an increase in your sexual energy during the time of this astrological aspect, but at given times it could be expressed abruptly and vacillating. A satisfying sexual relationship requires self-control, commitment and desire. True love is accompanied by higher qualities such as the above mentioned. Don't forget that a sexual relationship is brought about simultaneously on the physical as well as the emotional and mental level. The physical vitality must be accompanied by the feeling of sincerity and intense communication so that the spark of real love can be produced.

Avoid superior or arrogant attitudes in your love relationship and practice sincere communication every day. Don't accumulate anything or keep anything for tomorrow. If you believe that your mate has failed in some way, first meditate on it and when you are completely calm, show respect and confidence in your companion. By continuing this method you will find that a good quality of communication is established, and the results will be seen by you alone. It is always preferable to quietly become aware of the situation before accusing each other without reason and common sense. Don't allow anything to alter the confidence in your mate, since this is the basis on which a stable and fulfilling relationship is sustained. Neither of you are perfect, and that is what makes your adventure more interesting.
MERCURY SQUARE VENUS

INTENSITY: 2

The probability of communication problems run high right now. It's not a favorable time for gossip or presenting your opinions and ideas, as others are inclined to misunderstand the intentions behind your words. You could take offense at someone's ideas or communications. Choose your words carefully.

SUN CONJUNCT MOON

INTENSITY: 4

Your feelings of protection toward your loved ones and your interest in safeguarding your family securities are very important to you at this time. Alternatively, you may be particularly self-protective, having a stronger sense of self. You are likely to feel motivated and responsible, and also have great influence on your family, as you sense that your acts have an important resonance in the people most dear to you. Thus, you will prove that you have certain leadership or relevancy in your family environment, and you become more aware of your attitudes, since you understand that these affect what is called the "family unit". At the same time, this intensive relationship to the family environment is reciprocal, since you also receive an important influence from your family. It is a good time to establish the right balance between your own individuality and the people that are part of your family.

Don't carry your attachment to your loved ones to the extreme, or be tempted to impose your points of view on them. Try to stay on the middle ground, which demands important personal efforts from us but always brings better results. You will be able to maintain your individuality and your points of view, but at the same time are open to the suggestions, advice or points of view that your family could transmit to you. Equally, collaborate actively in all those family chores that are your responsibility, but don't take on too many family obligations that would be detrimental to other facets of your personal development.

Now is a good time to reflect on the influence you received from your family throughout life, observing and stimulating the more positive aspects. If you harbor recollections that generated susceptibility, fears, or small animosities in the past, you will also be able to see the positive experience that these provided. You can find that a good part of your current level of maturity is due to the way in which such experiences were absorbed. That is to say, if you allow yourself to be carried by susceptibility, the assimilating past experiences will not end; but on the other hand, if you are able to see the positive side of the family dynamics, your personal security will increase and you will be completely free of small complexities or fears generated in past eras of your life. Briefly, the family relationship will be viewed by you as something complex, but will always enrich you.

This is an important time for feeling that you're turning over a new leaf. If you're in
need of it, you can reinvent yourself in key ways now.

You are slightly more emotionally excitable at the moment. A new cycle that lasts approximately four weeks begins today—so do your best to focus on self-improvement. New attachments or projects may be formed now. The only cautions are to try to avoid making decisions that are based on your emotions of the moment, and to avoid taking everything too personally.

**VENUS TRINE VENUS**

**INTENSITY: 4**

Let your feelings and affections flow. This is a time when the rest of the world seems to be appreciating your romantic "style". You are unlikely to be coming on strong and trying to make things happen, but instead are inclined to flow along with people and situations, attracting what you need and letting the world come to you. Harmonious interactions with others are favored at this time, likely because you are projecting the more charming, cooperative, and agreeable side of your nature! Smoother negotiations are the result, and love is easier than usual to enjoy -- and to find -- today. It could be easier to make money now, but also easier to spend it!

A harmonious aspect of transiting Venus to Venus brings expansion of love, that is to say, you will be able to better understand your loved one. Your inner feelings are finer, higher and less egotistical, and you are more tolerant toward other people. Your sensuality is accentuated and you could have an especially happy and satisfying experience at this time. Fundamentally, it constitutes a "confirmation" of love, since, if the selection of your mate has been right, you now are going to obtain sufficient proof about your selection. Thus, you will note that the other person actually wants you and needs you, which, without a doubt, will generate a juvenile and refreshing sensation in you.

Obviously, this is not an astrological aspect of great strength that coincides with one or two details that are consciously noticeable - evidently one must wait for big events. Above all, it means enjoying what you have and coming a step closer toward the harmonization between you and your loved one. Express your love with naturalness and you will find that this simple act will rebound immediately. Be guided more or less by the fact that "when you give you shall receive". Express your love subtly and make use of aesthetic details of beautiful character, as the Venusian vibration is related to art, harmony, good taste and the right mood, all of which improve and extol the act of love.

Enjoy any moment of happiness that you could have now and you will see that happiness attracts happiness and what is high is integrated with the high. Understand, live and experience love as something that is simultaneously produced on several levels, that is to say, in the physical dominance as well as the emotional, mental and spiritual. The more global and total your idea and vivacity of love will be, the greater the importance of the experiences in your life will be.
SUN SQUARE VENUS

INTENSITY: 4

A disharmonious aspect of transiting Sun to Venus brings an increase in your sensuous vital energy, which can incline you to certain excesses. For example, you now could feel a great desire for amusement and expansion, and may even want to escape from your daily grind going to a dance with your mate, dining out, going to a club, or preparing an exceptional weekend. Obviously, there is nothing wrong with it in general, unless these kind of activities are carried to excess. It isn’t so much the fact of wanting to live well, but rather to control yourself and stay within your means. If you are not careful, the following weeks could be a narrow squeeze of money, since you over spent on details, gifts or outings to such a degree that you actually are left without anything in the budget for the rest of the month. Don’t give so much importance to the size or quantity of your entertainments, since a simple gift in a given moment can have great sentimental value.

Avoid an egocentric, superior and arrogant attitude toward your mate. Perhaps now you are very proud of something you have obtained on a social or professional level, or even are proud of your own companion, but you should never have a capricious or egocentric attitude. Learn to control your abundant energy and you will find that with simplicity, sincerity and nobility big improvements are brought about in your partnership. Learn to speak but also listen, give advice and also think about the advice given to you, in fact, learn to find the right balance between you and your loved one. Neither of you should impose your points of view on the other, but share the decisions and enjoy the responsibilities that both of you have every day. Don’t ever think that you are going faster than your companion, since it is necessary that both of you go hand in hand, jointly experiencing the new encounters that are opened to you each day.

At this time you may also be especially proud of your mate and may want to show him/her off socially so that everyone can see that you are the "perfect couple". Although this is not negative in general, it isn’t bad either to be unnoticed from time to time and to intermingle with others without creating so much attention. It may boost your ego when others remark about you, but it also has it’s disadvantages since, whether you like it or not, there always will be a certain amount of criticism.

MARS SEXTILE VENUS

INTENSITY: 5

A harmonious aspect of transiting Mars to Venus activates your emotional, sensuous and affectionate energy. The relationship to your mate will be especially vital. You
may want to expand, enjoy, entertain and intensify your emotional communication. In general, you will feel more sure of expressing your emotions and addressing your relationship to your mate. Thus, the decisions you make will be supported and applauded by your companion, provided that you outline them in an agreeable, exonerating and balanced way. Take the good advice of your loved one now. Upon making decisions jointly you will benefit in all kinds of activities, such as professional, economic or of any other nature. Your mate will tend to moderate, calm down, balance and perfect the ideas and initiatives that now are buzzing around in your head. This daily sincere exchange at the time of making decisions will enormously strengthen the confidence between both of you. Everything will be going along well and you will prove that as a couple you are very capable of resolving matters of great importance as well as daily things.

Sensually, you now tend to be very passionate, spontaneous and ardent in the manifestation of your emotions, which will increase the level of energy exchange between you and your companion. This generates greater inner security in you as well as your partner and greater ability to contend with the daily circumstances. Furthermore, as time goes on you will know how to better combine the responsibilities that each of you have from day to day, on one hand, and times of leisure and expansion, on the other hand.

Briefly, you are likely to have new and intensive experiences in relationship to your mate, which will give you opportunities to develop delivery, intensity, sacrifice and nobility. It is very probable that you now crave fresh air, a trip or sports activity with your companion to create the feeling of being immersed in an adventurous environment. Without a doubt, the greatest adventure you will have together is that of your own life, since sharing determination, projects, ideals and accomplishments will bring vibrant and emotional experiences that you will remember forever. You will also have opportunities for creative leisures, enjoying new surroundings, and very fulfilling periods, weekends or a vacation for both of you.

MARS TRINE PLUTO

INTENSITY: 4
This harmonious aspect of transiting Mars to Pluto generates an increase of your sexual and vital energy. Sexual energy is bound to self-confidence, which increases your total energy and personal magnetism during this period. It is a good time to deepen the interrelationship that exists between managing sexual energy and total vital energy. Sexual energy is a manifestation of total vital energy, and when sexual energy is used adequately, vital energy is increased.

If you currently have a satisfying sexual life, you might see a nice increase in your personal energy now. Deep sexuality does not consist of squandering your own energy, but exchanging it in an act in which psychological penetration, confidence, and understanding exists. Thus, when mutual confidence and respect exists, sexual energy is exchanged and not wasted or worn. That is to say, this kind of relationship doesn't squander vital energy, but exactly the opposite, since each partner is more revitalized through the act of making love.

If you project this psychic energy toward someone you love and have full confidence in that person, then that energy is strengthened, exalted, and sublimated. In this way, your increased vital energy will allow you to have a clearer conscience. This can also be about loving yourself and building self-confidence.

It may be more important than usual for you to have an active sexual or physical relationship now, but also consider that it is essential to have psychological understanding with a partner as well as self-realization. You want to devote long periods of time to intense communication with your companion, since you have a need to exchange experiences, share your life together, poll your everyday life, understand a lover better psychologically as well as to understand yourself better and, in fact, to improve yourself.

Obviously self-realization is something personal, but it can be accelerated and intensified when each partner is committed to conscientiously improve their personality and impels the other to self-understanding. This is what designates positive "sexual alchemy", according to which the sexual process is something that occurs on three different levels: physical, emotional, and mental. This is one concept of sexuality, the word derived from "six", that is to say, physical - emotional - mental of one person added to the physical - emotional - mental of another. A satisfying sexual contact can be produced on those three levels, and this is a good astrological aspect under which to really understand this and employ this kind of living together.

However, this is also an important time for understanding your own sexuality without a partner. You might begin to recognize different needs, desires, and wants now, and if you're single and looking, this is a time when you're drawn to more intense, "real", and meaningful relationships.

This is a strong period for asserting yourself effectively without upsetting others. This is not to say you should badger, and your inclination is not in this direction, but it is a good time to let your desires be known in creative ways. Your sex life can certainly improve, as you are more physically and psychologically courageous. Your confidence in your sexuality can also improve. As well, your sense of vital well-being can increase dramatically now. Decision-making is strong. You are meeting people
with more confidence right now. You might experience a strong unexpected attraction to someone or a situation. For some, dreams hold a little more intensity and meaning.

MARS SEXTILE MOON

INTENSITY: 4

A pleasing emotional or sexual experience can be part of the picture now. Your emotions are spirited, your lust for life is strong, and you are willing to act on a hunch. There's nothing neutral about your feelings now, yet you still manage to come across as level-headed. This is a good time for projects around the home, sexual activity, and anything that involves putting your heart into what you do.

This harmonious astrological aspect energizes your emotions. That is to say, you will feel more competent to express your mental and emotional states in an open way, which causes you to be more direct and spontaneous in your sentimental relationships and, especially, with your family. If you usually are shy, it is a good time to exercise emotional advantage, self-confidence and direct expression of your emotional states.

As a rule, you will be more inclined to define circumstances, to participate actively, to decide and take part in family problems. In other words, you will prefer to take part in family decisions, and in that way try to improve conditions in your family, or solve problems that have been delayed or stagnant for some time. You never will avoid your part of responsibility that touches the dynamics of your family.

You now will be more sure of yourself psychologically, and what is very important, you are not attached to or stopped by people in your family environment. You prefer to devote part of your energies, your time and your effort to improve the dynamics of your family, have family gatherings from time to time to talk over your problems, or simply to pass the time. Thus, your personal self-esteem is increased, making you a very useful person prejudiced toward evolution and change, which will not bring states of emotional susceptibility or evasion. You prefer to sweeten the circumstances with motivation, facts, and fruit, rather than to attempt to adorn them, to defer them, or simply to delay them.

Sincerity and spontaneity in your emotional manifestations are essential for you now. You prefer to vent any possible resentment, hurt feelings or misunderstandings immediately. If there is something that concerns you or that doesn't seem right in your emotional relationships, you will try to clear the air quickly and without any
dubiousness.

Briefly, you are going to express yourself with clear, direct and defined emotions, knowing how to combine your personal freedom with your responsibility toward your family or loved ones. All in all, it will be a phase in which your emotional and psychic experiences will be enriched, conscious, filled with life and very vital.

VENUS CONJUNCT MARS

**INTENSITY: 6**

You are especially creative (and procreative!) now. Cooperating with others is easy. If an existing relationship needs a boost, now is the time to put the extra effort forth. Venus acts to soothe and soften whatever it contacts. In this case, it’s your raw, instinctual nature, so your aggressive nature is toned down. Your powers of attraction are heightened, and you are more likely to be the one who's pursued. Any new relationship begun under this transit is likely to be especially passionate.

**May 18, 2017  7 AM (May 17, 2017 to May 19, 2017)  Ven Conj Moo**

VENUS CONJUNCT MOON

**INTENSITY: 4**

A transiting aspect of Venus to your Moon represents emotional exaltation. That is to say, during the time of this transit you are going to have a great need for love, intimacy and understanding. To channel these feelings properly it is necessary to live, experience and practice that “to receive one must give”. In other words, don't take on a passive attitude waiting for others to approach you and kiss you, embrace you or express that they want you.

It is necessary to avoid emotional changes, and especially, that these variations don't affect the way you treat your loved ones. If you make the mistake of reacting to them in a superfluous or capricious way, in return they obviously will hesitate to object if they have a disagreement with you. If at a given moment you happen to suffer an emotional low or an intensive high, try to exercise self-control so that those fluctuations do not affect your daily way of behavior with your family or your loved one.

This is a time when your instinct or sense of protection is manifested very explicitly.

47
This, obviously, is not negative, provided that it isn't carried to excess by psychologically overburdening or suffocating the people you want to protect.

To psychologically relieve yourself of family responsibilities or small problems emerging in your love relationship, you have to know when to take a rest and be distracted, or take some time for leisure and relax. Sometimes you will need to enjoy these moments of distraction in solitary, while other times you prefer to be with your family or mate to clear the air. It is important to maintain an optimistic and sound mental state and, if at a given moment your emotions are overcharged, try not to let it affect your personal relationships.

Don't count on certain people that have your confidence to solve your problems. Sometimes it is preferable to clear your mind, relax and restore your balance by participating in social, artistic, sports or other types of activities. It is better to put your mind on positive things and not concentrating on your problems.

Your mood is especially romantic and sensual. Let it guide you, and you might just find yourself in a very fortunate situation. This energy is excellent for any behind-the-scenes or domestic activities. It’s an opportune time to make domestic purchases, and to buy or wear new clothing for the first time. Beauty treatments are favored. This is a time when praise or compliments naturally come your way, when you receive friendly greetings, and when you might extend a hand to others you care about. Aiding someone financially or spiritually is bound to boost your own spirits.

May 18, 2017 3 PM (May 17, 2017 to May 19, 2017) Sun Sxtil Ven

SUN SEXTILE VENUS

INTENSITY: 3

During the time of this harmonious aspect of transiting Sun to Venus your sensuous and affectionate feelings will be accentuated, that is to say, will be expressed clearly; without shyness, disguise or any complex. You now are sure of your feelings and need to revitalize them by sharing them openly with your mate. There is a better understanding between you and your loved one, since you experience that through your love relationship your own personal limits are transcended.

If you are in love with someone and up until now have not expressed your feelings, it probably would be a good time to do it, provided that you are sure and know for certain that your selection is right. If you already have someone or are married, use this chance to reaffirm your love for them, since that revitalizes the feelings for both of you.

What makes your love relationship more attractive now is that you are sure within yourself, which is not being attached or dependent on your mate, or searching for energies that you may lack; on the contrary, you radiate energy and want to share it with the person you love.

There is a possibility of making a good social contact, or entering a higher circle
thanks to the prestige of your mate or partner. The harmonious influence of the Sun can bring a small social rise or personal prestige in your life, to a degree thanks to the harmonious influence you are having and in that sense your companion.

VENUS IN TENTH HOUSE

INTENSITY: 9

You are more attractive when you show your responsible, managerial, ambitious, and constant side during this Venus cycle. Having a steady and reliable sexual partner is especially attractive to you now. Love can be found on the job, or erotic undertones may be in play. Socializing and making friendly contacts at work can help boost your career. Cooperation and a focus on harmony and understanding benefits you professionally or enhances your reputation and public standing. Attending an important social occasion or festivity may put you in the public eye as well. A romance or beneficial friendship that begins as a business alliance could be part of the picture. You may also feel you are married to your career right now because quite a bit of your energy is invested there and/or you love what you're doing at the moment. You may make a good friend or meet someone especially charming through your work. Love opportunities are more likely to occur through your career, by word of mouth, at business parties, and while mixing work with pleasure. Expressing your more responsible and competent side works best for you now. Relationships begun now are more likely to be responsible, status-conscious, serious, and long-term. Enhancing love now involves sharing goals, structuring your relationship, doing things with a loved one that make you feel secure, and showing your more responsible side.

May 27, 2017  7 AM (May 27, 2017 to May 28, 2017)  Sun Trine Plu

SUN TRINE PLUTO

INTENSITY: 3

At this time your sexuality and total vital energy will be revitalized and must be released through a creative exchange. You will be fully aware of the effect of love and of each instant in the interrelationship with your partner. Moments like this cannot be repeated and, without a doubt, constitute a great opportunity to develop and improve your own psychological qualities. Sexuality is not only a release of energy, but to understand yourself through exchange with the other. The act of love is an event of self-understanding and personal self-realization.

This is a good time to openly express your feelings so that you will be totally sincere with yourself and with your loved one. Sharing is being open to new realities, and opening up is necessary for a confident and respectful environment. Putting these qualities into practice will prove that boredom and monotony do not exist in real love. There always is something new to experience, to communicate and to put into
practice. Sexuality should not wear out your energy, but release, expand, revitalize and recover your personal strength. This is a good way of finding out if the relationship works correctly, since "nothing is created, nothing is destroyed and all is transformed". Thus, the integral act of love must result in the revitalization of both partners on the physical as well as the emotional and mental levels. As a rule, when someone is tired, it is because you are not achieving an energy circuit adapted to the environment. On the other hand, when someone is revitalized, it is because you readily tune into others, and in this case, your partner.

Talk about your improvements since you were together, comment on the psychological deficiencies you have surpassed, and bring to light those that still need a bit of polishing. This sincere exchange produces great results and deepens your level of communication.

**Jun 3, 2017  4 AM (Jun 2, 2017 to Jun 4, 2017)  Sun Sxtil Moo**

**SUN SEXTILE MOON**

**INTENSITY: 2**

This is a time of conscious striving--knowing what you want and working towards getting it. Your vitality gets a little boost and your recuperative powers are better than normal. Relations with others tend to flow smoothly now. At the root of improved relationships are inner confidence, contentment, and balance.

This is a good time to strengthen family relationships and the ties with your loved ones. During this period you see things more from an emotional point of view and your psyche now is able to surpass the susceptibilities, including those bound to family situations of the past. This is an auspicious time to be sincere, noble and open with the people most dear to you. It is well known that family relationships rarely are a bed of roses, since generally always one thorn or another emerges. Precisely, this astrological aspect can motivate you to approach and be reconciled with someone, with whom you previously had certain tension. This aspect almost guarantees success, since you are now above misunderstandings and mistakes of the past.

If you are married or have children, it is a good time to guarantee your personal individual integration with your family environment, living the fact that "the personal path of evolution starts in the family". You see that by emitting noble energies, the energies returned to you are also of high and protective character. It is a good time to try and make your household a bright spot, full of warmth, conscience and protection. At least, at this time it is very clear to you that even attempting it is worth the trouble, and that success can be achieved with a little effort.

You are sure of your feelings and the fondness of your loved ones, and because of this, deeply impress the people you love. It is neither more nor less than what is visible, and what is real, noble and high always grows and fructifies. In this case, you plant the seeds of delivery, sacrifice and nobility, and the fruit thereafter will be creative and full of deep emotional experiences. That is to say, if you show your emotions openly to your loved ones, your fondest dreams will be fulfilled, since they
will reciprocate in the same way.

This aspect is of short duration and doesn't have too much strength, though it can be potent if it is used in a conscious way.

VENUS SQUARE VENUS

INTENSITY: 4

During this short time of the disharmonious aspect of transiting Venus to Venus your feelings will be intense, but certainly a bit superfluous. It is important to care about forms but, obviously, love cannot be sustained only by extraneous details, more or less fancy gestures, gifts or painstaking care of the personal image. We have to understand, be connected and establish firm bridges between two individuals that by nature are different.

If you are in a period of courtship, don't think that by simply maintaining an apparently harmonious, fun and happy keynote during this phase guarantees that the future relationship will endure in time. There has to be a fundamental understanding between you, and not only the illusion of having a good time, going dancing or enjoying yourselves with friends.

Equally, if you are in a stable relationship such as marriage, you will be enthused to enjoy yourself, to relax, squander your energy and indulge in intensive leisure, all of which could lead to a certain vacuum sensation upon recapturing your daily responsibilities. You have to find a way to use your spare time for the most creative leisure, for example culture, sports, deep communication with your mate or, simply, seeking the most remote intimacy from the mundane noise.

Obviously, the dynamics of a holiday or spree could be a release of energy after a phase of stress. However, this is not the standard ideal for channeling your free time. Procure to plan the details for some activities with your mate for the weekend or your vacation.

As a rule, it is advisable to moderate your sensuous manifestations and to remember that in love it is not advantageous "to be impatient and expect things to happen" in two or three days. If you are especially euphoric or want things to go well, temper your spirits and extend the moments, and you will find that even when everything is going along well one must have serenity. It is necessary to be relaxed in order to enjoy things and people. If there is too much excitement, the instants and experiences rendered are volatile, passing and not satisfying.

Although this influence is subtle, you might notice an imbalance in your relationships. Someone is giving more or feeling more than the other. Differences in personal style, tastes, and ways of expressing affection may emerge or become glaringly apparent. Compromise requires some effort. Touchiness could be coming from you or from those close to you, and you might be feeling underappreciated.
There could be a feeling of uncertainty about your romantic prospects. Your natural, instinctive approach to socializing and expressing your affections is not received well just for the time being.

Jun 9, 2017  (May 16, 2017 to Jul 3, 2017)  jup opps moo

JUPITER OPPOSITION MOON

INTENSITY: 6

This astrological aspect generates great emotional capacity. At given times you may become very sentimental, or will express your emotions in a very visible and theatrical way. You are very family oriented now and have a great sense of responsibility toward your loved ones, such as the members of your paternal family or your conjugal family. You want to protect, benefit and advise your family, but this should not be carried to the extreme, since you have to understand that they also have to learn from their own experiences. At the same time, curiously, you will also need the protection of your family, since you will be especially demanding and needy of affection and fondness. There is an inner struggle between your need for affection on one hand, and your zeal for freedom and independence on the other. Don't go to the extreme of becoming excessively attached to your family, or to the other extreme of becoming too independent. This won't help to maintain your balance, and beginning to vacillate from one to the other will end in feeling a bit confused.

If you are taking on the responsibility of handling resources on behalf of your family, be especially careful, since you could make wrong calculations and may squander to a degree. At the same time, it is possible that your family now is excessively concerned about shining socially, which could lead to spending too much on holidays, social events and luxury items. It is advisable to quietly talk about the short and long term objectives of the family. If the family doesn't work together, it is possible that the common resources diminish. The father has to be in agreement with the mother and the children have to join mutually, otherwise you could be burdened with commitments that have not been discussed decisively or conscientiously.

Try not to get into mental states, such as susceptibility, excessive parenting, attachments, sentimental rebellion, or any other condition that will not be harmonious and balanced. You now tend to be very idealistic and have great expectations of your loved ones, but should not simply base your illusions on romanticism that is out of proportion. It is preferable to talk with your loved one in an exonerating, opened and trusting way, stating clearly what you expect from him/her. In this way, your companion will know your expectations and thus can improve his/her ways. At the same time, it tells the other person what you think and strengthens your relationship, otherwise you are likely to adopt passive or comfortable attitudes.

MARS SQUARE PLUTO
A challenging aspect of transiting Mars to Pluto greatly increases your vital and sensuous energies. Your desires, feelings, and even passions can be quite high, which makes it necessary to control, moderate, and soften these forces. In the process, you can learn a lot about yourself, and perhaps some of the unflattering parts. You may be meeting the unflattering side of others right now, too!

You tend to express yourself with strong emotions and great psychological vigor during this period, but on occasion you may be a bit sharp or even slightly explosive. Thus, you will also have to control your imagination in order not to exaggerate or become obsessed by small details in your environment, or if you're with someone, in a relationship. For example, there could be groundless jealousy with respect to your friends or mate, or you may attempt to impose your decisions on others. With this aspect, the reverse can be true - someone in your life is attempting to impose their will on you.

If you think that someone has offended you, or you are hurt by something that recently happened between you, it is best to express it clearly, with respect, and as soon as possible. If both of you are accumulating concerns or susceptibilities, they may very well come to light quickly in the near future and would then have to be discussed unnecessarily. With this transit occurring, always ask yourself if things are becoming unnecessarily complicated, and whether you can do something to simplify things!

It may be helpful to accompany the act of sex with intensive communication, before, during, and/or after. Deep sexuality requires a good psychic understanding between lovers so that there can be a real union. If distrust exists or one is concealing certain aspects from the other, it can be very difficult to reach true ecstasy and happiness.

It can be helpful that both of you share your daily decisions so that you are not bound by commitments that previously have not been planned jointly. If each one acts on their own, then the other will feel why bother, which could increase individualism. It is an excellent time to bring to light the psychological issues of each that may have been retarding the development of the relationship. Conversation about your behaviors, attitudes, virtues and psychological issues, as well as both of your daily experiences is the better way to strengthen your affectionate life. Sharing life together might make your union happier, and helping one another to better yourself can establish strong roots for the future. If each one wants to improve themselves, and if each one wishes that the other improve, the sentimental relationship will be firm and very creative. Speaking about daily problems from a constructive and positive view can very much generate a better vibratory and psychic atmosphere in the relationship.

This aspect does sometimes accompany a breakup or difficult time in a relationship, and if this is the case, there can be unseen forces at work now. Matter that you've been holding onto possibly without even realizing it can now erupt and things can be said or left unsaid that seem to forever change a relationship. Watch for this, because what is expressed during this period has more impact than usual, largely
because it can be driven by something unrefined or primal. However, this is also a call to explore those feelings and fears that are often left unacknowledged.

For those who are single and looking, this can be a rather difficult period for getting involved with someone. It is best used as a time for exploring anger, desire, resentment, and fear. It's a rather intense period, although rather brief as well, when you're likely better off getting to know yourself than someone new.

**MARS SQUARE MOON**

**INTENSITY: 5**

This astrological aspect stirs up your emotional life; that is to say, an escalation and revitalization on that level will be produced. Thus, the big problem will be to control that increase in energy in your mental states, your feelings, and your family and affectionate relationships. There will be ardor, delivery, sacrifice and spontaneity in your emotional life, but susceptibility, irritability and passion could also emerge. All in all, this is a phase in which many things in your sentimental and family relationships will be defined.

It is possible that a small disagreement or misunderstanding with a loved one could emerge, but try to soothe your spirits and control yourself. Don't make any emotional decision based on states of psychological irritability.

There could be hypersensitivity and resentment. More than anything, relaxation and psychic neutrality is important for being able to see things with objectivity. If you have been accumulating small animosities or misunderstandings with someone in the past, it is very possible that suddenly everything will come to light. When that happens, don't argue, but simply communicate, try to create an environment of mutual confidence and don't magnify things. Don't be melodramatic now, and don't deem yourself a victim of others. Consider the future, propose solutions and have sufficient greatness of the soul to forgive.

If during this phase you take on a family responsibility or have to decide something on behalf of your family, be very cautious, since you are inclined to be guided by rashness and excessive daring. Thus, if you make a mistake, you probably are going to lose some of the confidence that your family had in you. Because of this, it is advisable to heed the advise of an appropriate person and, above all, delay decisions somewhat so that they can mature. In this respect, you will not be alone and are supported by others that could facilitate your labor.

You will be direct, exempt and spontaneous in expressing your emotional states and your feelings, but don't go to extremes of ardor, fits of anger, or try to impose on your loved ones. Try to be a little more respectful, amiable and affectionate in your emotional expressions, avoiding at all cost abruptness and cultivating amiability. If you soften your emotional expressions, it is much more probable that your family and loved ones will be more receptive toward what you say or suggest to them. On
the other hand, if you act in a hard way, they will close up and will be put on the defensive.

This is also a good time to bring to light elements from your infancy and adolescence that still could be active in your subconscious, in the wake of psychological experiences that still have not been assimilated well. If you have some antipathy, resentment or grudge toward some member of your family, now is the time to reflect on it and, thereafter, improve your relationship with that person.

You are acting on your feelings right now, but it might get you into hot water if you are not truly in touch with what you want. You are capable of some childish or impulsive reactions during this transit. Tempers may flare, domestic squabbles are possible, and you could be feeling under the weather. If you are feeling particularly disgruntled, this could be a good time to get in touch with what has been brewing inside.

Jun 27, 2017     4 PM (Jun 26, 2017 to Jun 28, 2017)     Sun Sqr Plu

SUN SQUARE PLUTO

INTENSITY: 3

This aspect symbolizes the possibility of a small irritation or conflict of little importance in your love relationship. Perhaps subconsciously something has been growing between you that has not been dealt with, come to light or outlined in a direct and respectful way. Now is the time to review possible latent issues between you, such as jealousy, secret sensitivities or egotistic attitudes of one with respect to the other. Don't forget that in love relationships there has to be revitalization from day to day that should not be neglected, but is advisable to maintain continual attention and concentration. Learn to share the achievements that each of you may have accomplished, talk about the psychological imperfections that still are within you and have not yet been surpassed, in fact, summarize your psyche in an earthly way. It is not the time to conceal anything, but rather to recognize your own limitations and making goals to surpass them. Sharing your limitations with your loved one will help you gain more strength to tackle the task.

You will also notice an increase in your sexual energy during the time of this astrological aspect, but at given times it could be expressed abruptly and vacillating. A satisfying sexual relationship requires self-control, commitment and desire. True love is accompanied by higher qualities such as the above mentioned. Don't forget that a sexual relationship is brought about simultaneously on the physical as well as the emotional and mental level. The physical vitality must be accompanied by the feeling of sincerity and intense communication so that the spark of real love can be produced.

Avoid superior or arrogant attitudes in your love relationship and practice sincere communication every day. Don't accumulate anything or keep anything for tomorrow. If you believe that your mate has failed in some way, first meditate on it and when you are completely calm, show respect and confidence in your companion.
By continuing this method you will find that a good quality of communication is established, and the results will be seen by you alone. It is always preferable to quietly become aware of the situation before accusing each other without reason and common sense. Don't allow anything to alter the confidence in your mate, since this is the basis on which a stable and fulfilling relationship is sustained. Neither of you are perfect, and that is what makes your adventure more interesting.

VENUS IN ELEVENTH HOUSE

INTENSITY: 7

During this cycle, a friendly spirit is most important to you with regards to love relationships. You or a lover may be more independent now. Freedom issues become stronger than usual. Bring a spirit of friendship into existing partnerships, and if you are single, look for opportunities in groups and with or through friends. Friends are bound to lean on you a little, and it feels good. Remember that you are at your most magnetic when you're expressing your humanitarian side openly, schmoozing with friends, and enjoying group activities. It's all about friendship and camaraderie now. During this Venus cycle, you are bound to meet with people who share common ideals or purposes. Your especially friendly, cooperative attitude is an integral part of your charm. You need and want to socialize now. Differences and discordant tendencies between people you love are almost nonexistent during this period. This is an easy, flowing position for Venus. Take advantage of the smooth, magnetic energy by surrounding yourself with people. Love is more likely to be found through friendships, clubs, group meetings, organizations, and parties. A friendly, helpful, tolerant, or breezy manner is most attractive now. Show your unique and progressive spirit. Relationships begun now are likely to be noncommittal, friendly, detached, spirited, and perhaps aloof. Enhancing love now can involve sharing long-term goals, hopes, dreams and wishes; treating your partner as a friend as well as a lover; showing tolerance and acceptance.

VENUS SEXTILE VENUS

INTENSITY: 3

Harmonious interactions with others are favored at this time, likely because you are projecting the more charming, cooperative, and agreeable side of your nature! Smoother negotiations are the result, and love is easier than usual to enjoy -- and to find -- today. This could also be a prosperous time for your financial affairs or investments. Pleasing contact with females is probable. Your natural approach to socializing and expressing your affections is acknowledged or appreciated now. Reasonable demands you make now are more likely to be fulfilled.

A harmonious aspect of transiting Venus to Venus brings expansion of love, that is to
say, you will be able to better understand your loved one. Your inner feelings are finer, higher and less egotistical, and you are more tolerant toward other people. Your sensuality is accentuated and you could have an especially happy and satisfying experience at this time. Fundamentally, it constitutes a "confirmation" of love, since, if the selection of your mate has been right, you now are going to obtain sufficient proof about your selection. Thus, you will note that the other person actually wants you and needs you, which, without a doubt, will generate a juvenile and refreshing sensation in you.

Obviously, this is not an astrological aspect of great strength that coincides with one or two details that are consciously noticeable - evidently one must wait for big events. Above all, it means enjoying what you have and coming a step closer toward the harmonization between you and your loved one. Express your love with naturalness and you will find that this simple act will rebound immediately. Be guided more or less by the fact that "when you give you shall receive". Express your love subtly and make use of aesthetic details of beautiful character, as the Venusian vibration is related to art, harmony, good taste and the right mood, all of which improve and extol the act of love.

Enjoy any moment of happiness that you could have now and you will see that happiness attracts happiness and what is high is integrated with the high. Understand, live and experience love as something that is simultaneously produced on several levels, that is to say, in the physical dominance as well as the emotional, mental and spiritual. The more global and total your idea and vivacity of love will be, the greater the importance of the experiences in your life will be.

URANUS SQUARE VENUS

INTENSITY: 9

This astrological aspect generates a certain need for freedom and individualism, which will not be very compatible with your affectionate and sentimental life, if you go to the extreme. You will have to learn toconciliate freedom with responsibility, understanding that freedom is not given to the one who earns it, and that responsibility is not synonymous to obligation. In love, avoid at all cost unpredictable, capricious behavior or sharp, harsh tones. These attitudes create instability in relationships, because when you act nervous or strident, your companion will lose confidence in you and won't know what to expect from your next reactions. Because of this, try not to become cold or detached in sentimental matters and maintain a frequent and high level of communication with your companion. Forget about utopia in love and concentrate on materializing and accomplishing your ideal love. There is no love that will be perfect from the beginning, and therefore Cupid's arrow shots are no guarantee that a relationship will work. It is preferable to be willing to work and strengthen the sentimental relationship from day to day. "Nothing is created, nothing is destroyed and all is transformed", therefore, if you strengthen and improve your relationship, you will be able to collect the fruit sooner or later.
If you now have a strong need to develop your individuality, make it clear to your loved one and come to an agreement for having time to develop your personal activities, or simply to be alone for while. Provided that all this is expressed and sincerely agreed from the heart of the relationship, the basic principle of loyalty will not be weakened. It will be sincere and will not create insecurity in your companion, as it is better for you as well as him/her to know the feelings and psychological situation of the other in each moment.

In general, avoid detached, cold or unpredictable behavior from the sentimental point of view. Don't forget that love is easier to destroy than to build, and don't put your sentimental relationship at risk gratuitously. Be reflective, meditative, mature and prudent at the time you communicate with your mate, since mutual confidence generates personal freedom. If there is confidence there is no jealousy, and if there is no jealousy, there is no loss of personal freedom.

It is advisable to jointly coordinate your free time now so that you can enjoy leisure as creative as possible, for example going to social, cultural and intellectual events, or developing a hobby or interest that both of you will enjoy, or simply conversing about interesting topics. If you maintain a level of communication that is psychological and emotional adequate, your relationship will be more relaxing, happy and optimistic. Let your romanticism fly away and see your companion as a great possibility to accomplish your ideal. In the beginning, no relationship is perfect, and daily effort is required to accomplish greater levels.

If you currently are not involved with anyone, there is a possibility of a sudden and fleeting romance, but you have to be prudent in this regard. It is very possible that this relationship will be short, since the communication has been established on a too superficial level.

**Jul 4, 2017 2 PM (Jul 4, 2017 to Jul 5, 2017) Sun Sqr Moo**

**SUN SQUARE MOON**

**INTENSITY: 4**

Relationship problems that arise now likely have their roots in emotional unrest and some confusion between what you want to do and what you think you should do. You are more excitable than usual, and less inclined to make rational, thought-out decisions. Whims could take hold. If you are having problems on the domestic front, they are magnified now. Do your best not to force changes in your life. Circumstances and others tend to be less supportive than usual, and you might find you have to push yourself harder to achieve the same results you would on other days of the month. Inner restlessness may take you out of your typical routine. Relationships with others may be strained for the time being. This is a good time to uncover issues of emotional unrest that have been bubbling under the surface, and to take steps to take better care of your emotional needs.

A disharmonious aspect of transiting Sun to Moon doesn't have too much strength,
but can be used to amend certain imbalances in your relationships. Fundamentally, you tend to go to opposite extremes and find it hard to stay on the middle ground. In the first place, at given times you are inclined to be too individualistic, arrogant and self-sufficient in your relationships. You tend to impose your own points of view and do it in a certain shaky, capricious way according to your emotional state at the moment in question. In other cases you will be inclined to the opposite extreme, that is to say, to be attached and to depend too much on what could be called the "family warmth". In this case you prefer to depend on the family unit before venturing out and solving your own problems.

Increase your personal security, project that personal security to others, and you will find that your relationships improve notably, or that you're attracting the right people into your life. In that way you are going to be admired, understood, and taken into account thanks to your personal securities.

**Jul 4, 2017 5 PM (Jul 4, 2017 to Jul 5, 2017) Mer Conj Ven**

**MERCURY CONJUNCT VENUS**

**INTENSITY: 2**

You find yourself more socially composed than usual now. Lighthearted conversations, sociability, humor, and cooperation are favored. It's a strong time for socializing and communicating with ease, telling others how you feel, and negotiating, so do get yourself out there if you are looking for a relationship. You could receive a compliment or other pleasing communication today. Making plans or simply talking about relationship dynamics is likely. Pleasant experiences surround you and communications are harmonious with others. Take hints from anywhere they come from, as they will prove to be beneficial to you. The ability to understand your partner's point of view is an asset as well.

**VENUS TRINE PLUTO**

**INTENSITY: 4**

This astrological aspect lasts only a few days, but on occasion its effect can be felt in a palpable way. Your sensuality and your ability to love are increased now, making you more intense with greater depth and creative energy. It is a personal cycle that can serve you to intensively fuse with your mate.

If you currently are not involved with anyone, use this period to become aware of your creative potential and get to known yourself better. Your personal security can attract people to you, and there is a possibility of someone becoming strongly interested in you. In this case, try to be selective at the time of choosing a companion, since it is preferable to be alone rather than making the wrong choice. Remember that nobody is pushing you to get a mate quickly. Without a doubt, it can
be said that quality is worth more than quantity. If you pass this short and intensive cycle in solitary, become fully aware of yourself as an independent and creative individual.

A harmonious aspect of Venus to Pluto is a small step toward ascending the height of sexual alchemy, which is based on the progressive increase of sexual energy as well as control over it. Uncontrolled sexuality for some people may be precisely the opposite of happiness and fulfillment. On the other hand, high and conscious sexuality inclines to personal self-realization and complete satisfaction in the relationship.

It is a good time to live, study and practice total integration in your affectionate relationship, where the body, the psyche and the mind collaborate toward the same end: fusion, and as a result evolution. Enjoy yourself intensely and become aware of each instant, since true love is bound to the full awareness of each act, each gesture, each feeling and each thought.

Deeper aspects of love become apparent, without the usual stresses and strains. Renew a commitment now. This can be an excellent time for finances and for relationships. Your feelings are intense and impassioned, but not in an offensive or destructive way. You may experience karmic attractions now, or, at the very least, strong feelings and attachments. This is a sensual transit—a time when a little charm goes a long way. Something touches you now, and you could discover something intimate and relevant about a partner or about your own love nature.

\[ Jul 16, 2017 \quad 11 AM (Jul 16, 2017 to Jul 17, 2017) \quad \text{Ven Sxtil Moo} \]

**VENUS SEXTILE MOON**

**INTENSITY: 3**

A harmonious aspect between Venus and Moon indicates the escalation of your personal romanticism. Your imagination is intensified now, especially, since your surroundings provide a stimuli and small daily events that make you agreeable and merry. In this respect, you could receive a gift, a call, have a special meaningful encounter, or simply will observe that some of your loved ones respond to you in a vibrant, cozy and warm way. During this short period of time, there is harmony between your need to be open, amused and loved on one hand, and your family responsibilities or relationship to your parents on the other hand. Thus, if you are involved in a love relationship now, you will find that the interrelationship will be more and better accepted by your family.

Everything mentioned, without a doubt, will bring greater inner emotional balance and promote some very important and satisfactory relationships with people of your emotional and family environment. You are especially receptive to the feelings and emotional states of other people, which increases your capacity of intense psychic communication with your loved ones or those you protect.

Your feelings are fine and pure now, and at the same time you will want contact with
beauty, amusement, aesthetics and art as way of releasing your creative inspiration.

During the time of this aspect it is advisable to acquire a greater vision of the positive elements that sentimentally are forming part of your life; thus, if you give inner thanks for the good things happening to you, it is very probable that they are expanded and magnified. Don't concentrate on things you lack or would like to possess emotionally, it would be preferable to put your psyche on positive things and what is good for your family and sentimental relationships. In some way, perfection in human relationships is impossible.

Right now, your best bet for personal success is expressing yourself sincerely and warmly. Your personal popularity gets a boost now. Others could lean on you for a little support, and you are more than willing to give it. Tensions on the home front ease, and a partner is more attentive to you. Peace and harmony satisfy an instinctive need now, and your focus should be on ways to improve or maintain a state of balance in your personal life. Passive responses to life work better for you during this period than aggressive ones. Compliments could come your way. Your mood is sensual.

**VENUS CONJUNCT SUN**

**INTENSITY: 5**

**Turn on the charm!**

This is a day for sentimentality and tenderness. If you are spending the day alone, pampering yourself makes a lot of sense. It's a great time to improve your appearance and your manner. You are especially charming today, however, so you might not want to isolate yourself! At this time, you desire to please and to be pleased; to treat and to be treated. You have an especially loving and tender touch. You are more sensitive to imbalances in your environment, and you seek to find harmony in whatever you do. Others see your more charming, caring, and attractive side. You are motivated by the desire to strike a balance in your relationships. Smooth negotiations with others, graciousness, diplomacy, and charm are with you, although there could also be a tendency to gloss over the less-than-pleasant stuff.

**MARS CONJUNCT VENUS**

**INTENSITY: 6**

This astrological aspect stimulates your affectionate and sensuous capacities, revitalizing and energizing you notably. Without a doubt, you will be more passionate, expressive and enthusiastic in your romantic relationships, but you also have to be careful so that the wealth of energy will not overflow. Take care of the
small details with your loved one, as refinement, good taste and the right mood can bring your romantic relationships to a very high level. Avoid abruptness and the tendency to come to the point too directly in your emotional relationship. Give a bouquet of flowers, invite your loved one to a relaxed ride, and have a well prepared special dinner. All these aesthetic elements and good taste will make the vibration of love you are sharing subtler. Remember that during this phase all kinds of aesthetic elements will be fundamental. Because of this, your physical appearance, your good taste in dressing and your gallantry will be very important and will have great influence on your relationship.

You tend to express your emotional, affectionate and sensuous feelings direct and spontaneous now, but try not to become excessively passionate. When an affectionate and romantic relationship is directed toward passion, dissonant elements or distortions, such as jealousy, intending to impose your own will on your companion, or expressing egocentric attitudes will emerge. Take into account that love means to resign, in the sense that one must moderate aspects of oneself to find the balance with one's mate. Thus, if you are very impulsive and your mate is more conservative, both will have to relinquish to find a middle point in which the two of you are comfortable, the same is true the other way around. This continuous search for the middle ground and balance in a relationship of courtship or marriage brings the integration of the couple to perfection and self-realization.

Avoid imposing attitudes toward your companion, and you will become sensitive toward unseen or hidden aspects of your relationship as well as your own sexuality. In good measure, the relationship of a couple at a deeper level supposes the understanding of the polarity of ourselves - the so-called masculine or feminine - that stays more hidden or potential. Thus, we may be learning more sensibility, receptiveness and intuition from a partner. On the other hand, we may be learning certain qualities that have traditionally been assigned to the masculine, such as spontaneous decision, energetic reaction and competitive spirit. Through the dynamics of balance and weighing you will be able to perfect the elements of your character that still are in the virgin state or "in the rough". Little by little, each of you will be polishing those aspects of your personal psyche, as if filing the face of a diamond upon polishing it.

In love, give as much importance to the form as to the funds, and never regard a sexual relationship as a simple release of energy unless that is what you have come together to do/be. Rather, the development of your own energies characterizes greater love. Two forces are established to improve yourself, but not to lose yourself or wear yourself out. The principle of love on a higher level is when the physical support of the relationship is the base or launching ramp, but not the object or the end in itself. When the physical exchange is vitalized and revitalizes itself through love, delivery, confidence, sensibility and dedication, then real happiness is procured, since energies that are exchanged grow and multiply. Thus, the event of real love supposes the renovation of each partner. A romantic and elated end is fundamental so that the physical exchange will indeed be happy and merry.

Sexual and creative energy is high now. You are hungry for experience--you want to put into action many of your wants and desires. Although you might be a little too eager, and perhaps come across as insensitive, this could also be a time when you
take the lead and make your move. You could be impulsive with your affections and/or your pocketbook during this transit. You have an opportunity now to take the initiative in order to achieve harmony and sexual fulfillment. Social relations are impassioned, and perhaps demanding or extreme. Your romantic impulses may be more forceful and pressing. Some level of competition is present in your interactions with others.

SUN CONJUNCT VENUS

INTENSITY: 4

Your ego could be somewhat inflated under the influence of the Sun aligned with your natal Venus. You could become quite egocentric and expect others to submit to your wishes. This may be accompanied by an increase in your own sensuous vital energy, which inclines you to express your feelings in a very open and theatrical way. Try not to continually subject your mate or people around you to your whims, since this would tip the scale of the ideal balance between people. It is possible that some small personal success of someone made you proud too, and now is something to boast about for your companion as well. It will even things out, be sincere, and possibly be a simple expression of your love during the time of this astrological aspect, thus attempting to understand each other much better.

Perhaps you also want to show off your mate socially, seeking personal grandeur. Without a doubt, you are proud of yourself in terms of how you get along with others, but it is also advisable to apply the virtues of balance and simplicity in this sense.

Learn to relinquish your points of view a little and you will find that this results in revitalization for you as well as for a partner. Obviously, you each possess your own individuality, but one should not try to underline or prevail more than the other, and both are strengthened in a balanced and just interrelationship.

For single people, this is a beautiful time for showing yourself off a little! Your more attractive qualities are in the spotlight. It's a strong time to mingle, connect, and mix.

If you're with someone, you may want to show off a little now, dress well, or demonstrate your affection to the rest of the world. Without a doubt, it is important in a couple's life to enjoy certain details or small mutually consented whims from time to time, but this should not lead to being too squeezed economically in the following weeks or months. Because of this, it doesn't depend so much on a big or striking gift or detail, but rather on a sentimental gesture. A flower delivered in a meaningful way and imparted with a lot of feeling can bring about an affectionate experience, while perhaps a large and decorative box of chocolates could be taken as a standard gift.

Your desire to enjoy yourself and to express your feelings is emphasized now. You
may find that even without effort, something or someone frames you in a beautiful light right now. It's a great time to pamper yourself.

At this time your sexuality and total vital energy will be revitalized and must be released through a creative exchange. You will be fully aware of the effect of love and of each instant in the interrelationship with your partner. Moments like this cannot be repeated and, without a doubt, constitute a great opportunity to develop and improve your own psychological qualities. Sexuality is not only a release of energy, but to understand yourself through exchange with the other. The act of love is an event of self-understanding and personal self-realization.

This is a good time to openly express your feelings so that you will be totally sincere with yourself and with your loved one. Sharing is being open to new realities, and opening up is necessary for a confident and respectful environment. Putting these qualities into practice will prove that boredom and monotony do not exist in real love. There always is something new to experience, to communicate and to put into practice. Sexuality should not wear out your energy, but release, expand, revitalize and recover your personal strength. This is a good way of finding out if the relationship works correctly, since "nothing is created, nothing is destroyed and all is transformed". Thus, the integral act of love must result in the revitalization of both partners on the physical as well as the emotional and mental levels. As a rule, when someone is tired, it is because you are not achieving an energy circuit adapted to the environment. On the other hand, when someone is revitalized, it is because you readily tune into others, and in this case, your partner.

Talk about your improvements since you were together, comment on the psychological deficiencies you have surpassed, and bring to light those that still need a bit of polishing. This sincere exchange produces great results and deepens your level of communication.

**Jul 29, 2017**

**VENUS IN TWELFTH HOUSE**

**INTENSITY: 7**

While Venus is transiting your twelfth house, you are more likely to take pleasure in private moments. Your fantasies are alive and strong--and also especially private. This cycle indicates that you're more attracted to secrets, whispers, and private affairs for the next while. Inspired and imaginative sexuality is on the agenda with Venus in your privacy sector. It's a cycle in which all that is hidden and private attracts. Until Venus enters your first house, you are bound to find love in hidden or
unexpected places. Your dreams and intuition are telling you something—and it's magical. In love, it's best to avoid taking premature action. You're laying low, and that's just fine. Unconditional love is the way to go. You are called upon to be selfless, to help, to understand, and to serve. It could be hard to find satisfaction if you don't go this route. You are more impressionable now. This cycle sometimes marks the beginning of a secret affair. Also, circumstances or your own reserve may prevent you from openly declaring or expressing your love needs. Love yearnings that cannot be fulfilled in any direct way arise. Hold off on decisions about love for now. Lay low, reflect, and enjoy. This is a quiet cycle that is part of a natural process. For some, it's a period of letting go in preparation for the transit of Venus in the first house, when you come "out of the woodwork" and express yourself more freely. Love is more likely to be found privately, in hospitals or service-oriented institutions, online, or through blind dates during this cycle. Showing your quiet charm, helpful and compassionate nature, and discretion works best for you now. Relationships begun now are likely to be private, behind closed doors, forbidden, intimate, compassionate, and potentially confusing. Enhancing love now involves displaying unselfish love; showing affection and attention without expectation of reward; being supportive; and engaging in private activities.

MARS SEXTILE PLUTO

INTENSITY: 3

This harmonious aspect of transiting Mars to Pluto generates an increase of your sexual and vital energy. Sexual energy is bound to self-confidence, which increases your total energy and personal magnetism during this period. It is a good time to deepen the interrelationship that exists between managing sexual energy and total vital energy. Sexual energy is a manifestation of total vital energy, and when sexual energy is used adequately, vital energy is increased.

If you currently have a satisfying sexual life, you might see a nice increase in your personal energy now. Deep sexuality does not consist of squandering your own energy, but exchanging it in an act in which psychological penetration, confidence, and understanding exists. Thus, when mutual confidence and respect exists, sexual energy is exchanged and not wasted or worn. That is to say, this kind of relationship doesn't squander vital energy, but exactly the opposite, since each partner is more revitalized through the act of making love.

If you project this psychic energy toward someone you love and have full confidence in that person, then that energy is strengthened, exalted, and sublimated. In this way, your increased vital energy will allow you to have a clearer conscience. This can also be about loving yourself and building self-confidence.

It may be more important than usual for you to have an active sexual or physical relationship now, but also consider that it is essential to have psychological understanding with a partner as well as self-realization. You want to devote long periods of time to intense communication with your companion, since you have a
need to exchange experiences, share your life together, poll your everyday life, understand a lover better psychologically as well as to understand yourself better and, in fact, to improve yourself.

Obviously self-realization is something personal, but it can be accelerated and intensified when each partner is committed to conscientiously improve their personality and impels the other to self-understanding. This is what designates positive "sexual alchemy", according to which the sexual process is something that occurs on three different levels: physical, emotional, and mental. This is one concept of sexuality, the word derived from "six", that is to say, physical - emotional - mental of one person added to the physical - emotional - mental of another. A satisfying sexual contact can be produced on those three levels, and this is a good astrological aspect under which to really understand this and employ this kind of living together.

However, this is also an important time for understanding your own sexuality without a partner. You might begin to recognize different needs, desires, and wants now, and if you're single and looking, this is a time when you're drawn to more intense, "real", and meaningful relationships.

This is a strong period for asserting yourself effectively without upsetting others. This is not to say you should badger, and your inclination is not in this direction, but it is a good time to let your desires be known in creative ways. Your sex life can certainly improve, as you are more physically and psychologically courageous. Your confidence in your sexuality can also improve. As well, your sense of vital well-being can increase dramatically now. Decision-making is strong. You are meeting people with more confidence right now. You might experience a strong unexpected attraction to someone or a situation. For some, dreams hold a little more intensity and meaning.

SUN TRINE MOON

INTENSITY: 3

Positive new connections may be made now. The possibility of some form of recognition or validation for what you do may come during this brief but effective period. A positive frame of mind does wonders now. Familiarity and comfort are dominant motivators for you during this period. It's a good time to mend relationship problems and to surround yourself with people.

This is a good time to strengthen family relationships and the ties with your loved ones. During this period you see things more from an emotional point of view and your psyche now is able to surpass the susceptibilities, including those bound to family situations of the past. This is an auspicious time to be sincere, noble and open with the people most dear to you. It is well known that family relationships rarely are a bed of roses, since generally always one thorn or another emerges. Precisely, this astrological aspect can motivate you to approach and be reconciled with someone,
with whom you previously had certain tension. This aspect almost guarantees success, since you are now above misunderstandings and mistakes of the past.

If you are married or have children, it is a good time to guarantee your personal individual integration with your family environment, living the fact that "the personal path of evolution starts in the family". You see that by emitting noble energies, the energies returned to you are also of high and protective character. It is a good time to try and make your household a bright spot, full of warmth, conscience and protection. At least, at this time it is very clear to you that even attempting it is worth the trouble, and that success can be achieved with a little effort.

You are sure of your feelings and the fondness of your loved ones, and because of this, deeply impress the people you love. It is neither more nor less than what is visible, and what is real, noble and high always grows and fructifies. In this case, you plant the seeds of delivery, sacrifice and nobility, and the fruit thereafter will be creative and full of deep emotional experiences. That is to say, if you show your emotions openly to your loved ones, your fondest dreams will be fulfilled, since they will reciprocate in the same way.

This aspect is of short duration and doesn't have too much strength, though it can be potent if it is used in a conscious way.

VENUS SQUARE PLUTO

INTENSITY: 4

Passions run high and hot, but there's a hidden agenda. Feelings of jealousy and possessiveness run so close to the surface that others can almost feel the heat, and they are in direct proportion to your fear of losing something or someone dear to you. Avoid starting a new relationship at this time, because it can be characterized by these energies. Some underlying tensions in social interactions (looking for an ulterior motive or an agenda, suspiciousness) and relationships (possible jealousies) are present now. Sometimes, this transit correlates with heartbreak, unreciprocated feelings, or romantic disappointment. Often, financial matters come to the fore. Manipulation and underhanded dealings can color relationships now. Avoid power plays with friends and lovers.

A disharmonious aspect of transiting Venus to Pluto brings an increase of your sensuous vital energies. This means that your affections will be accentuated during the time of this astrological aspect. An increase of your personal energy level in principle is of neutral character, that is to say, neither harmonious nor disharmonious, since this depends a great deal on your will. A disharmonious astrological aspect, without a doubt, could incline you to express that energy in an unbalanced way or against your natural character. That is to say, your affectionate energy could have psychological manifestations of a disharmonious character, such as jealousy, excessive attachment to your loved one, or trying to impose your whims on your mate by more or less subtle methods. It is advisable to become aware of
this and to control certain instinctive tendencies that now could emerge. Remember that happiness in your relationship, the integration with your loved one, and your personal accomplishment depends a great deal on the respect you have for yourself and each other. Avoid capricious, disrespectful or out of place reactions, and try to amend this kind of conduct and extreme attitudes, always cultivating a moderate and balanced behavior.

Desire is an innate and natural inclination in human beings and, if it is accompanied by emotions and higher thoughts, constitutes the basis for greater happiness and personal development. It is important that the desire always will be an instrument of the personality, and not the other way around, since in this case sooner or later dissatisfaction is produced. Thus, if you allow yourself to be controlled by the instinct of pleasure, you won’t have the ability to relax, to enjoy yourself and expand the relationship with your mate. Rather, a vacuum sensation exists upon channeling personal sensuous energies only toward physical pleasure.

You have to learn to relax, to take your time, and to give your sensuous appetites a creative impulse, which neither more nor less is the basis of total sexuality.

MARS TRINE MOON

INTENSITY: 4

A pleasing emotional or sexual experience can be part of the picture now. Your emotions are spirited, your lust for life is strong, and you are willing to act on a hunch. There's nothing neutral about your feelings now, yet you still manage to come across as level-headed. This is a good time for projects around the home, sexual activity, and anything that involves putting your heart into what you do.

This harmonious astrological aspect energizes your emotions. That is to say, you will feel more competent to express your mental and emotional states in an open way, which causes you to be more direct and spontaneous in your sentimental relationships and, especially, with your family. If you usually are shy, it is a good time to exercise emotional advantage, self-confidence and direct expression of your emotional states.

As a rule, you will be more inclined to define circumstances, to participate actively, to decide and take part in family problems. In other words, you will prefer to take part in family decisions, and in that way try to improve conditions in your family, or solve problems that have been delayed or stagnant for some time. You never will avoid your part of responsibility that touches the dynamics of your family.

You now will be more sure of yourself psychologically, and what is very important, you are not attached to or stopped by people in your family environment. You prefer to devote part of your energies, your time and your effort to improve the dynamics of your family, have family gatherings from time to time to talk over your problems, or simply to pass the time. Thus, your personal self-esteem is increased, making you
a very useful person prejudiced toward evolution and change, which will not bring
states of emotional susceptibility or evasion. You prefer to sweeten the
circumstances with motivation, facts, and fruit, rather than to attempt to adorn
them, to defer them, or simply to delay them.

Sincerity and spontaneity in your emotional manifestations are essential for you now.
You prefer to vent any possible resentment, hurt feelings or misunderstandings
immediately. If there is something that concerns you or that doesn't seem right in
your emotional relationships, you will try to clear the air quickly and without any
dubiousness.

Briefly, you are going to express yourself with clear, direct and defined emotions,
knowing how to combine your personal freedom with your responsibility toward your
family or loved ones. All in all, it will be a phase in which your emotional and psychic
experiences will be enriched, conscious, filled with life and very vital.

VENUS SQUARE MOON

INTENSITY: 4

During the days of this aspect your psychological state probably will fluctuate from
the height of superficial happiness to extreme melancholia and a sense of isolation.
In reality, there are two kinds of vibrations that prevent you from maintaining an
even course, but are continually tilting from one extreme to the other. It is advisable
to take some time for personal reflection, thinking about your more recent
affectionate or sentimental experiences, before reacting or acting without previous
contemplation. Now is the time to look deeper into your real psyche, avoiding at all
cost to express your feelings outwardly without having sufficiently worked out what
comes from within.

If you are sensitive or affected by the reaction of a relative, a friend, a loved one or
even your mate, above all control your imagination, otherwise you run the risk of
making a mountain out of a mole hill. Don't evade the situations or people
responsible for your sensitivity, but simply reflect on the real meaning of that
experience and how to respond to it. Either way, after calming yourself and having
reflected you think that your loved one has made a mistake, it is advisable to outline
everything smoothly and objectively without getting too personal.

You won't go from a feeling of joy to melancholia very easily, since you are not living
in a fairy tale nor in a valley of tears. Find a balance between your family
responsibilities and your need for entertainment, amuse yourself and relax a while. If
you are involved in a love relationship now, see to it that it will be as harmonious as
possible with your family to avoid small irritations or sensitivities in the future.

A craving for sweetness and comfort in the form of loving affection or food is strong
now. This is a good time to baby yourself and also to spend time with the people
who love and appreciate you the most. You could be emotionally and financially
irresponsible now, however, and the tendency to bicker with others over emotional and domestic matters is high. Someone whose values are different from yours could easily rub you the wrong way. Watch for over-sensitive reactions.

VENUS CONJUNCT VENUS

INTENSITY: 5

A conjunction of transiting Venus to Venus reactivates your sensuality during the time of this astrological aspect. Each fiber of your being, and especially your emotional level, will be jolted by the vibration. Thus, you will be inclined to start new social relationships and want to share your experiences with your mate, want recreations filled with life and seek total expansion of your emotions. Your sensuous and vital energies are increased and you need to practice moderation so that you don't squander your energy. Don't allow yourself to be carried by the torrent of sensuality, but feel that every moment those forces revitalize you and surcharge your vitality. On the contrary, avoid frivolous relationships, think about the impression you make on others, and don't waste your energy with persons of little substance. It is preferable to refine or separate the experiences of your environment and select those that could help internally to make you a freer, more complete and happy person.

Your romantic sensibility is also potent during these dates and because of this you tend to see things through rose colored glasses. It is advisable to adopt some measures so that these moments of fullness are extended in the right direction. For example, use this period of time for sincerity with your mate, discover aspects in him/her that before you had not valued sufficiently and, in fact, transcend your personal love by approaching love honestly and not egotistically.

Without a doubt, transiting Venus conjunction Venus is an excellent opportunity to extol and increase love through beauty, refined details, intense emotional communication and opening your heart to others. Venus generates fusion, affinity, tuning in, and purification of the emotions.

It's your Venus Return today, so be sure to surround yourself with positive thoughts, people, and affirmations, as this day can act as a "stamp" for the year or so ahead with regards to both relationships and personal finances. There is the potential for your personal relationships (especially romantic ones) to experience renewal. Beauty and art are especially appealing now. Feelings are affectionate. Your desire for love, companionship, and affection predominates at this time. A new friendship or romance could begin, or an established relationship can be revitalized and enhanced. If there is someone you have wanted to reach out to, doing so now is likely to create warm feelings between you, and may be the start of something beautiful. Revealing and reiterating your love at this time could turn a relationship in a new direction. You also need to be surrounded by beauty and harmony and your artistic inclinations are stimulated now. A shift or change in your attitude towards money and personal possessions is also possible now.

VENUS IN FIRST HOUSE

INTENSITY: 10

You could find it hard to deny yourself anything during this cycle! This is a time when you naturally let loose your softer, receptive side. Romantic matters, as well as pleasure-seeking activities, come to the fore now. You are more likely to pay closer attention to your physical appearance and mannerisms, aiming to improve and enhance your attractiveness. Others find you agreeable and cooperative. You probably won't need to do much to attract attention, but anything that boosts your feelings of self-worth will help you benefit from this exciting transit. The rest of the world seems to be speaking your love language right now. Turn on the charm! It's a great time to exert your personal influence, as you are coming across as especially cooperative and graceful. Your people skills are above par. You have romantic energy working for you big time. Your love life is bound to step up a notch. It's a passionate time, although you are unlikely to be displaying a whole lot of self-discipline. Love opportunities abound during this cycle. Your charm factor increases by expressing your initiative, natural charm, friendliness, enhancing your beautiful features and personal style, and expressing self-confidence. Relationships begun now are more likely to be ego-gratifying, dramatic, and dynamic. They might start quickly and expectations are such that the relationship is exciting and maintains spontaneity. You're inclined to use charm, gentle coaxing, and loving persuasion rather than more direct, forceful methods to get what you want. Charm and spontaneity enhance love most efficiently now.

VENUS SEXTILE PLUTO

INTENSITY: 3

This astrological aspect lasts only a few days, but on occasion its effect can be felt in a palpable way. Your sensuality and your ability to love are increased now, making you more intense with greater depth and creative energy. It is a personal cycle that can serve you to intensively fuse with your mate.

If you currently are not involved with anyone, use this period to become aware of your creative potential and get to known yourself better. Your personal security can really attract others to you, and there is a possibility of someone becoming strongly interested in you. In this case, try to be selective at the time of choosing a companion, since it is preferable to be alone rather than making the wrong choice. Remember that nobody is pushing you to get a mate quickly. Without a doubt, it can be said that quality is worth more than quantity. If you pass this short and intensive cycle in solitary, become fully aware of yourself as an independent and creative individual.
A harmonious aspect of Venus to Pluto is a small step toward ascending the height of sexual alchemy, which is based on the progressive increase of sexual energy as well as control over it. Uncontrolled sexuality for some people may be precisely the opposite of happiness and fulfillment. On the other hand, high and conscious sexuality inclines to personal self-realization and complete satisfaction in the relationship.

It is a good time to live, study and practice total integration in your affectionate relationship, where the body, the psyche and the mind collaborate toward the same end: fusion, and as a result evolution. Enjoy yourself intensely and become aware of each instant, since true love is bound to the full awareness of each act, each gesture, each feeling and each thought.

If you seize the opportunity, this is a good time for either (or both) finances and relationships. Your feelings are impassioned, but not in an offensive or unpleasant way. You are focused and confident, and you appreciate depth of feeling and authenticity in your dealings with others. Enjoying an especially intimate moment may be part of the picture now. Discovering something new and relevant about a partner (or about your own romantic nature) could also figure.

URANUS SQUARE VENUS

INTENSITY: 9

This astrological aspect generates a certain need for freedom and individualism, which will not be very compatible with your affectionate and sentimental life, if you go to the extreme. You will have to learn to conciliate freedom with responsibility, understanding that freedom is not given to the one who earns it, and that responsibility is not synonymous to obligation. In love, avoid at all cost unpredictable, capricious behavior or sharp, harsh tones. These attitudes create instability in relationships, because when you act nervous or strident, your companion will lose confidence in you and won't know what to expect from your next reactions. Because of this, try not to become cold or detached in sentimental matters and maintain a frequent and high level of communication with your companion. Forget about utopia in love and concentrate on materializing and accomplishing your ideal love. There is no love that will be perfect from the beginning, and therefore Cupid's arrow shots are no guarantee that a relationship will work. It is preferable to be willing to work and strengthen the sentimental relationship from day to day. "Nothing is created, nothing is destroyed and all is transformed", therefore, if you strengthen and improve your relationship, you will be able to collect the fruit sooner or later.

If you now have a strong need to develop your individuality, make it clear to your loved one and come to an agreement for having time to develop your personal activities, or simply to be alone for while. Provided that all this is expressed and sincerely agreed from the heart of the relationship, the basic principle of loyalty will
not be weakened. It will be sincere and will not create insecurity in your companion, as it is better for you as well as him/her to know the feelings and psychological situation of the other in each moment.

In general, avoid detached, cold or unpredictable behavior from the sentimental point of view. Don't forget that love is easier to destroy than to build, and don't put your sentimental relationship at risk gratuitously. Be reflective, meditative, mature and prudent at the time you communicate with your mate, since mutual confidence generates personal freedom. If there is confidence there is no jealousy, and if there is no jealousy, there is no loss of personal freedom.

It is advisable to jointly coordinate your free time now so that you can enjoy leisure as creative as possible, for example going to social, cultural and intellectual events, or developing a hobby or interest that both of you will enjoy, or simply conversing about interesting topics. If you maintain a level of communication that is psychological and emotional adequate, your relationship will be more relaxing, happy and optimistic. Let your romanticism fly away and see your companion as a great possibility to accomplish your ideal. In the beginning, no relationship is perfect, and daily effort is required to accomplish greater levels.

If you currently are not involved with anyone, there is a possibility of a sudden and fleeting romance, but you have to be prudent in this regard. It is very possible that this relationship will be short, since the communication has been established on a too superficial level.

**Sep 5, 2017  7 PM (Sep 4, 2017 to Sep 6, 2017)**

**VENUS TRINE MOON**

**INTENSITY: 4**

A harmonious aspect between Venus and Moon indicates the escalation of your personal romanticism. Your imagination is intensified now, especially, since your surroundings provide a stimuli and small daily events that make you agreeable and merry. In this respect, you could receive a gift, a call, have a special meaningful encounter, or simply will observe that some of your loved ones respond to you in a vibrant, cozy and warm way. During this short period of time, there is harmony between your need to be open, amused and loved on one hand, and your family responsibilities or relationship to your parents on the other hand. Thus, if you are involved in a love relationship now, you will find that the interrelationship will be more and better accepted by your family.

Everything mentioned, without a doubt, will bring greater inner emotional balance and promote some very important and satisfactory relationships with people of your emotional and family environment. You are especially receptive to the feelings and emotional states of other people, which increases your capacity of intense psychic communication with your loved ones or those you protect.

Your feelings are fine and pure now, and at the same time you will want contact with
beauty, amusement, aesthetics and art as way of releasing your creative inspiration.

During the time of this aspect it is advisable to acquire a greater vision of the positive elements that sentimentally are forming part of your life; thus, if you give inner thanks for the good things happening to you, it is very probable that they are expanded and magnified. Don't concentrate on things you lack or would like to possess emotionally, it would be preferable to put your psyche on positive things and what is good for your family and sentimental relationships. In some way, perfection in human relationships is impossible.

Take this opportunity to express your feelings to people close to you, as you are more likely to be received well today than on other days. This is a good time to enhance the beauty and grace of your home, as well as to attain some level of harmony in your domestic affairs. You could be called upon to offer some emotional (or financial) support, and you are more willing to do so than usual. This is a green light period for beauty treatments, purchases for your home and family, and subtly changing your personal style with success. You may not feel like working or pushing yourself too much now, but that's just fine. A passive approach to life works best now. This transit is a cosmic nudge to slow down and enjoy quiet and nurturing activities.

**VENUS IN SECOND HOUSE**

**INTENSITY: 7**

The second house is a rather content position for Venus. The ability to relate well with others might enhance your own personal finances during this period. You may find yourself in a position in which there is a blending of financial matters with social or public affairs. This is a stable position for love matters and close relationships. You value those who make you feel comfortable, and familiarity is more important to you than someone new during this cycle. You're at your magnetic best when you emphasize the secure and sensual side of your nature. Let others know they can depend on you. You could be a little extravagant with your spending now, especially if you are unhappy with your love life! Possessiveness (as long as it isn't taken too far) makes you feel secure just now. Love opportunities are more frequent now while shopping, in financial institutions, and at restaurants. Your charm factor increases by expressing your loyalty, dependability, good taste, sensuality, simplicity, and practicality. Relationships begun now are more likely to be sensual, possessive, comfortable, potentially long-lasting, stable, dependable, and loyal. Enhancing love now involves enjoying the moment, sensual pleasures, stability, gift-giving, candles, massages, and earthy pleasures.

**SUN SEXTILE VENUS**

74
During the time of this harmonious aspect of transiting Sun to Venus your sensuous and affectionate feelings will be accentuated, that is to say, will be expressed clearly; without shyness, disguise or any complex. You now are sure of your feelings and need to revitalize them by sharing them openly with your mate. There is a better understanding between you and your loved one, since you experience that through your love relationship your own personal limits are transcended.

If you are in love with someone and up until now have not expressed your feelings, it probably would be a good time to do it, provided that you are sure and know for certain that your selection is right. If you already have someone or are married, use this chance to reaffirm your love for them, since that revitalizes the feelings for both of you.

What makes your love relationship more attractive now is that you are sure within yourself, which is not being attached or dependent on your mate, or searching for energies that you may lack; on the contrary, you radiate energy and want to share it with the person you love.

There is a possibility of making a good social contact, or entering a higher circle thanks to the prestige of your mate or partner. The harmonious influence of the Sun can bring a small social rise or personal prestige in your life, to a degree thanks to the harmonious influence you are having and in that sense your companion.

Sep 29, 2017  4 AM (Sep 28, 2017 to Sep 30, 2017)  Sun Conj Plu

SUN CONJUNCT PLUTO

This transit brings an increase in your total vital energy. You will become more aware of your own psyche that up until now had been hidden. To a degree this tendency toward self-understanding is due to the relationship with your partner and can be especially intense during the period of this astrological aspect. It is possible that a small irritation emerges between you and your companion, which simply is a normal developing process of your relationship. Those small frictions serve to polish the raw diamond that both of you have within and will secure the control of your egocentric attitudes. Without a doubt, in love relationships an effort is needed to transcend the personal levels.

Love relationships require changing or modifying imperfect aspects of our character in order to awaken psychological virtues that up until now had been dormant. On certain occasions this process is accompanied by a small crisis in the relationship, but always turns out to be positive and evolutionary, if self-control is practiced.

You now could be led by instinctive behavior such as jealousy, egocentricity or superiority. If you watch yourself during those times, assuredly you will be able to correct and control them. Try to approach your companion in-depth, giving less
importance to the appearance and paying more attention to the feelings, impressions and thoughts within each of you. It is advisable to enter the dynamics of mutual understanding, which means disregarding fleeting things and concentrating on what is important. Thus, you learn to share your ideal, the sense that each of you give to the other's life and your future projects.

VENUS SQUARE SUN

INTENSITY: 5

Irritations that seem to stem from others could be the reflection of your own inner uneasiness. Do your best to control yearnings for more than what you have and search for a creative solution for your inner dissatisfaction. Avoid the impulse to make ultimatums with a lover.

**Oct 1, 2017**  (Sep 26, 2017 to Oct 6, 2017)  Jup Sqr Ven

JUPITER SQUARE VENUS

INTENSITY: 6

This disharmonious aspect of transiting Jupiter to Venus exalts your sensuous and affectionate energies and inclines toward an intensive search for happiness. Certainly, during this time you are apt to have very sweet experiences in connection with love and the senses, beauty and social relationships, small luxuries and whims, as well as entertainment and amusing yourself. Evidently, these activities require support, normally in the form of time, expenses and money. It is advisable not to let yourself get financially stripped by spending on clothes, meals at restaurants, weekends at hotels, organizing holidays and events with the intend of pleasing your companion and keeping up with your social or friendships circle. All of this may bring great satisfaction and pleasure during the time of the holiday, but thereafter you may have to deal with large invoices and hard work to pay them.

This is not the time for the classic "enjoy yourself now and pay later in comfortable credit installments". It is preferable to outline a realistic standard of life with your mate. Measure your current possibilities correctly, without being led by illusions or by excessive consumption. Happiness and love are not necessarily bound to these kinds of luxurious or momentary whims, you can also enjoy a good weekend outdoors making use of a tent, or simply inviting friends and preparing a meal at home. These are simple solutions to problems that actually are simple. Watch your current level of energy and don't put yourself in a forced world of illusions, and your love as well as your social and friendship relationships will be strengthened. But if you force things, then you are probably depending more on the facade and image rather than the essence in itself.

If you are thinking about getting married or taking a pleasure trip, also take into
account the preceding advice so that you actually can enjoy your free time without any future worries about payments. Thus, make preparations to enjoy life without large delusions, and value the small details the same as the large events. Modest gestures of good taste procure large things, since a gift is not necessarily better the larger or more expensive it is. Perfume can be an excellent gift, but is considered something simple.

Now it is advisable to be selective or to refine your friendships and the environment you occupy with your mate, as many of them are probably too superfluous. Furthermore, in little while a natural selection of the same will be produced. It is better to care about the quality rather than the quantity. That is to say, it is preferable to have three good friends rather than thirty holiday companions, etc. Also, try to deepen the love you share with your mate, not only getting along, but also chatting about your daily experiences, since it is preferable to be a little happy throughout the week rather than tremendously happy over the weekend and adverse during the week.

Overindulgence is the theme of this transit. Your desire for pleasure increases dramatically, and you are likely to overestimate your ability to indulge and get away with it! You may also come across as insincere or superficial at this time. You may overspend or overeat—both symptoms of your inner restlessness. It can be hard to focus on your responsibilities at this time due to a desire to spoil yourself with pleasurable activities.
