Introduction

Welcome to your Forecast Report!

This report shows the astrological trends influencing your life over a one year period.

The duration of each trend is indicated by a starting date, an ending date and strongest influence date. Further, an influence may begin before the time frame of the report or end beyond it.

You will notice that some influences are longer in duration and tend to have longer interpretation texts. These are the over-arching transits that should get special attention, as they are more defining than the briefer, transient influences. They represent longer-term trends and have more influence in your life.

The accuracy of the timing of some of the forecasts is dependent on the accuracy of the birth time. Be prepared to slide the sequence of trends either forwards or backwards in time if necessary.

In some instances, there may be interpretations that repeat themselves. This is due to the cyclical and forward and backward motion of the planets activating points on your chart more than once in the period under review.

There can be multiple influences on some days, and there can be seemingly conflicting texts. This is normal and expected, as there are rarely completely "good" or completely "bad" days. The influences are potentials.

As you will find, the forecast interpretations can be positive and/or challenging. Their effects can be experienced either directly personally or through events in the lives of others in the environment. Some trends will be more apparent than others, while

others may be more subtle. What is most important is how you respond to them. Treat this report as a guide, and remember that it's up to you to make the best of the transits influencing your life.

Before Oct 1 2016 - Beyond Oct 2 2017, Transiting Saturn is passing through your 5th House

During Saturn's transit through this house, your concentration will be on matters of the heart and possibly children. This can be a period in which you will seek to firm up or formalize your love relationships. Sometimes, people enter into love unions at this time with someone who is older. If you have children, there may be problems in relation to them that you have to deal with. If you don't have children, this could be a time when you seriously consider becoming a parent. The 5th house is also associated with speculation and gambling; but with Saturn here now, it would be best not to gamble at any level. This is an excellent time for gaining skills and experience in art or sports. Your unique personal expression and creativity - whether athletic, artistic, or musical, in love or in business - is the focus now. At the beginning of the cycle you may feel your creative juices have dried up, that your offerings are meeting with indifference or rejection, that you've lost the joy and passion, or that you are more self-critical and self-conscious. This is a period of deepening and maturely developing as a creative person. You may hone in on a specialty or concern yourself with making something that is more lasting, durable, or of a higher caliber. Patient work and persisting despite mistakes and obstacles are the keys. You are more cautious and discriminating in romantic relationships, too, especially if you've been loose or noncommittal. Any love affair that begins now is apt to be serious.

Before Oct 1 2016 - Beyond Oct 2 2017, Transiting Uranus is passing through your 10th House

For the duration of this transit your career path will tend to be somewhat erratic and changeable. You will need to guard your reputation during this period, because any unconventional or socially unacceptable behavior could backfire on you and cause possible embarrassment. During this period, your identity in the world and your important personal goals will change. A strong spirit of restlessness, freedom, and idealism comes over you, and you cannot go on in the old way. You may change your profession or do it in a more unorthodox way, with less regard for societal standards, norms, or expectations. You could have conflicts with authorities for ignoring rules and policies, and stubbornly insisting on doing it your way. Whatever you've outgrown or accepted begrudgingly up until now will be challenged, and may quickly be given the boot. You can get somewhat ungrounded, overly idealistic, or unnecessarily provocative during this period. Extreme behaviors can land you in hot water.

Before Oct 1 2016 - Beyond Oct 2 2017, Transiting Neptune is passing through your 8th House

During this period esoteric and metaphysical subjects are likely to become more of an interest and focus in your life. You will tend to have a fascination with life's mysteries and question marks. There could be financial problems associated with joint ownership; care is required to counteract possible deception between people sharing resources.

Before Oct 1 2016 - Beyond Oct 2 2017, Transiting Pluto is passing through

your 6th House

During this period your attitude to work is likely to change quite significantly. You may become intensely passionate about a particular line of work, or you could find it difficult to deal with restructuring and changes within the employment sector. Power struggles at work are possible. You need to listen to your body now, as there is a risk of health problems caused through overdoing things or ignoring health related warning signals.

Before Oct 1 2016 - October 1, 2016, Transiting Saturn is Trine your Natal Mars

You now have the self-discipline and determination to tackle those tasks you've had simmering on the backburner for some time. Your powers of perseverance and endurance are stronger and you will be able to accomplish a lot.

Before Oct 1 2016 - October 10, 2016, Transiting Sun is passing through your 3rd House

You have increased confidence to express your ideas now. There can be added force and power in your communications. Important events may occur in the lives of your relatives or neighbors. Light social interaction promotes healthy relations with neighbors, those who are a part of your immediate environment, and people you do business with on a regular basis. Give other people a little extra time and attention, notice their efforts on your behalf, and strengthen your connections. Don't overlook the obvious! Sometimes what you need is right in front of your eyes. Pay attention to what's close at hand.

Before Oct 1 2016 - October 12, 2016, Transiting Venus is passing through your 4th House

During this period you can expect relations with your family to be good, or to improve - if improvement is needed. Equally, this is a good time for enhancing or beautifying your home in some way. You may do more socializing at home than usual.

Before Oct 1 2016 - October 17, 2016, Transiting Mercury is passing through your 3rd House

Anticipate increased intellectual activity during this period. Your communications tend to have more of a flow to them at the moment and others quickly understand what you are saying. There may be an increase in communication with relatives or neighbors now.

Before Oct 1 2016 - October 23, 2016, Transiting Neptune is Sextile Progressed Mars

During this transit you may become actively involved in an idealistic cause. You may become involved in the study of metaphysics, or take an interest in spiritual disciplines that tone your mind, body and soul, such as tai chi or yoga. Artistic creativity can flourish now, especially art forms that are physically based, such as

dance.

Before Oct 1 2016 - November 1, 2016, Transiting Neptune is Square your Natal Neptune

This transit equates to one of the so-called astrological mid-life crisis phases. This is a time of soul-searching, of personal questioning and of determining to what extent you have fulfilled your dreams thus far. You could possibly face a "crisis of meaning"; with the ideals you've shaped your life upon going under the microscope for evaluation. The inclination now may be to look to pursuing new ideals - from which a sense of greater purpose can be experienced. As nothing is completely certain at this time, try to avoid making any major decisions or commitments until this transit has passed. For example, it might not be the best time to change jobs or get married, because you are not seeing things as clearly as usual. You may also be feeling quite vulnerable at the moment. Should you encounter pressure from external sources, sensing your vulnerability, stay firm in your resolve and maintain your belief in yourself. As this is a potentially confusing period, guard against exacerbating any confusion through immoderate drug or alcohol use.

Before Oct 1 2016 - November 7, 2016, Transiting Mars is passing through your 6th House

This is the classic "occupational injury" syndrome, so take care at work or when doing physical jobs. You may need to take extra care with your general health now, as there is a risk of accidents, fevers or illnesses associated with chemicals, heat or over-exertion. Arguments with co-workers or employees are a possibility during this period.

Before Oct 1 2016 - December 7, 2016, Transiting Jupiter is passing through your 3rd House

During this transit your day-to-day life will seem very busy. There will be more and more people coming and going in your immediate environment. Relations with siblings and neighbors should be relatively harmonious at this time. You may be more mobile now and inclined to take more short journeys than usual. This is an excellent time for learning new things and expanding your knowledge. It is also a favorable time for writing and communicating with others. Restlessness and curiosity may lead you to explore and appreciate facets of your immediate environment that you have overlooked until now. Those that are nearby and readily available - perhaps a neighbor, a relative, or some friendly person you see occasionally in your everyday life - may offer you a wonderful opportunity or gift. A neighborhood walking group, or some other light social activities that enrich and expand your world, would be beneficial to you. Communication of all kinds and travel for educational purposes are favored now.

Before Oct 1 2016 - October 2, 2016, strongest around October 1, 2016, Transiting Venus is Opposition Progressed Mars

Your emotions are likely to run hot and cold during this period, which may cause people to wonder what to expect from one moment to the next. There is a potential

for arguments and disagreements. Romantically, you may be inclined to come on too strongly and aggressively.

Before Oct 1 2016 - October 29, 2016, strongest around October 5, 2016, Transiting Uranus is Square Progressed Sun

These are fast-moving times. Nothing stands still for very long while you are under the influence of this transit. Even if it makes you nervous, you want to make a number of changes in your life. New and interesting people will enter your life now and introduce you to many new experiences, some of which you may never have thought possible. Whether you enjoy these experiences or not will depend on how you feel about change in general. Whatever your personal circumstances, you will be restless and unsettled; you may also experience disturbed sleep. All of these are signs of a strong inner desire to break out of your old routines and to revitalize and re-invent yourself. Some people change their jobs or place of residence under this influence, even break away from relationships that have become dull and predictable. Of course, not everyone has to make such radical changes. If you are in control of your own life, you will see this period as an opportunity for making some changes. You could, for example, decide to "get up to speed" with technology or change a few things around the home or office. If, however, you are not in control of your life, you will either start kicking against any restrictions or begin to experience sudden upsets from external sources. A partner may suddenly leave or cause you unrest, or you could be suddenly faced with disruptions at work or in your neighborhood. All of these are signs that you are not in full command of your circumstances and that you need to make adjustments to your lifestyle. One word of caution, you may have to take extra care of your health, as there can be a tendency to stress-related illnesses or even accidents. Your relationship to a male may change under this influence.

You will have big plans at this time; just make sure that they are reasonable and realizable. With this transit, there can be a tendency to get so wrapped up with an idea or plan that important details get overlooked or ignored. **October 4, 2016 - October 6, 2016, strongest around October 5, 2016,
Transiting Sun is Opposition your Natal Moon**

You may have to make an effort to respond to the needs of others during this period, even if you don't feel like it. You will win their respect. This transit can bring out tensions between your personal needs and your public and professional obligations. As the Sun "illuminates" your emotions, you may feel like you're in a tug-o-war between "me and them". The purpose of this conflict is to help you learn to balance emotions with public or professional duties. If you have been pursuing your public life by covering up your emotions, this transit can be quite noticeable and perhaps frustrating -- your emotional nature will come out one way or another. On the positive side, this can also be a time of high energy and you can achieve a great deal. If your feelings have been suppressed, then tensions can occur in your personal life, too. The lesson to be learned here is how to operate in your daily life by acknowledging and accepting your emotions, and functioning in tune with your "gut" feelings.

At this time, you have a powerful urge to make your mark - perhaps, by whatever means necessary. This is a potent configuration, which requires careful handling because the potential for success is great, but so too is the risk of disaster if you over-estimate yourself and your abilities. By way of an illustration to the power of

this planetary pairing for gain and loss some authors have referred to it as the "make a million, lose a million" aspect. Therefore proceed with caution if contemplating taking risks that are more than you can withstand. Compulsive behavior and power plays are common with this transit and you have to be very careful who you take on as an opponent. Those in positions of power, such as bosses, governmental authorities or even criminals could make your life difficult if you get out of your depth with them. Also, there can be the tendency to become zealous or obsessed with an idea, which can lead to arguments with others or cause you to lose sight of whom or what is important in your life. Positively, you may demonstrate a capacity for leadership and organization - an ability to step in and take charge of situations.

October 4, 2016 - October 6, 2016, strongest around October 5, 2016, Transiting Sun is Trine your Natal Sun

A dignified and self-confident air surrounds you. Others, sensing your self-assuredness, respect you. You can make a favorable impression on influential people now. This transit occurs twice a year: approximately four months before your birthday and four months after. It is a time of balance and equilibrium in your life, when you can be yourself with the least amount of obstacles from people or circumstances. Energy levels should be high and you can work or play with vigor and enthusiasm. Now is a time to firm up your affairs and make them strong enough so that they can weather turbulence and trouble at a less stable later date.

You can realize your objectives over this period but they will take longer than usual to achieve. This could be because of unexpected delays or obstacles caused by others or circumstances. Estrangements or separations from others are possible but not a given. Sometimes this is just about taking a bit of time to do something alone. You may feel physically tired or grumpy. There can be a slight risk of injury caused through inattention or tiredness.

October 8, 2016 - October 10, 2016, strongest around October 9, 2016, Transiting Sun is Opposition your Natal Jupiter

This is a good transit for positive growth and expansion. Perhaps you will be motivated to travel, study or introduce something into your life that makes you feel good. However, there is the need guard against over-extending yourself financially, or taking on more than you can comfortably handle. This transit can cause a tendency to go overboard. Oppositions provide a two-way pull, but the positive side of this is that one seems stronger. It can puff self-confidence, but it's important that this doesn't turn into arrogance. It can be a good idea to limit efforts to keep within parameters that are controllable. It may be better to draw in your horns if others are irritated.

Your thoughts tend to be influenced by deep emotional stirrings now. Your powers of persuasion are very strong and you should be able to convince just about anybody of anything at the present time. This is a good time to carry out research. This can be a two-sided transit. It indicates a time of very intense mental activity in which your thinking and communications with others will have an extremely penetrating quality, and can be obsessed with getting to the bottom of every question, feeling unsatisfied with superficial answers. It is a good time for research and investigative activities. Any aspect of these two planets gives you the ability to speak with persuasive force and vigor. In fact, others will believe you are right, even if you don't have the answer. It is critical that you take the feelings of others into consideration when speaking, or extreme opposition could result--even if they believe you. The other side of the transit is that others may do the same thing to you. It can indicate an extremely unpleasant mental power struggle in which you may be either the victim or the perpetrator. Or, you could become preoccupied and obsessed by a single idea or point of view that can be hard to let go of, until it seems to control your life for that day. This could be very intense while it lasts, but Mercury transits do not last very long.

There are rewards for sacrifice, patience and perseverance. Over time you will rise to a new position in life, if you are prepared to put in the long hours now and to persevere. The key to success now is to maintain focus, keep a sense reality and, most importantly, plan all of your moves carefully and strategically. Remember your responsibilities, keep a

You may feel like you could conquer the world, and could issue unnecessary challenges to others. On the other hand, you may have to deal with someone else who is doing the same things. In that case it is best to be patient as long as possible, only fighting back if there are important issues at stake. It will be very difficult to endure any kind of frustration during this time. Take care of your physical health under this transit, and avoid taking any unnecessary chances which could result in accidents.

An excellent day for dealing with influential people.

November 28, 2016 - December 10, 2016, strongest around December 4, 2016, Transiting Jupiter is Square your Natal Saturn

This is one of the more testing transits of Jupiter, but it is by no means unmanageable. Advancement in life at this time seems slow or cumbersome, and everything you want to achieve appears to take a lot more effort than usual. Any progress you make comes at a price and it will probably feel that life is moving along at the rate of three steps forward and two steps back. Also, there can be temporary setbacks and possible financial constraints or worries. At an inner level, you are likely to feel discontented, for no apparent reason, and your self-confidence may be temporarily dented. However, as you will discover, this state of affairs will not last for long. The best way for you to deal with things now is with patience and to persevere in your endeavors. Professionally, if your work is unsatisfying, you may decide to change jobs, but only take such a step if you have something better to go to. Buying and selling property is often successful with this transit, providing you don't over-extend yourself financially.

November 28, 2016 - December 10, 2016, strongest around December 4, 2016, Transiting Jupiter is Opposition your Natal Jupiter

During this period, you will tend to view life more positively and optimistically than usual. Expect your understanding of the world to broaden - this may be experienced through such things as long-distance travel, higher education, or simply by being more outreaching and embracing of life and others. However, there is a need to caution against extending your scope of activity beyond what you can reasonably manage - or of losing your sense of proportion and perspective. At its best, this transit brings the rewards of hard work commensurate to the amount of energy you put in. But if you simply sit around enjoying the feelings of well-being it induces, you will have little to show for it after it passes. While this can be a financially prosperous time, you would do well to guard against wasteful or extravagant tendencies. Also, it is not uncommon for some people to get a superiority complex during this transit

and end up arguing with others, especially over matters of outlook or philosophy.

Regarding buying, selling or leasing property, this is one of the best periods for these activities. Equally, any improvements or repairs you want to make to your home should be dealt with now.

tensions. You may be a bit grumpy or out of sorts during this period. If this is a regular transit, it occurs about six months past your last birthday and it indicates a culmination of your life energies. There can be a need to bring your affairs into some kind of order, and there may be some opposition from others in the process. The goal now is not to fight against yourself, because this is actually a time of great strength. If some projects have fallen away, it is important not to feel defeated but rather to keep moving forward. Insight gained can give you valuable information for fresh starts.

The emotional and artistic influences of Venus are squared off against the imaginative influences and the urge for freedom of Uranus. This could be a transit for seeking new experiences. These two planets signify love and freedom, and different people have different interpretations of "free love". This transit can bring hidden forces to light and trigger psychological energies within that could change your life. Positive introspection can bring greater awareness and control of the inner dimensions of your being. On the other hand, it can cause compulsive thinking and a tendency to force your point of view on others. It is important to keep an open mind on all issues and not become obsessed with one idea or thought. It is a good time to study subjects like psychology, philosophy, mysticism, and the occult.

worthwhile move. Family matters are well-aspected and any difficulties that may exist within the family can be worked out more easily now than at other times. December 8, 2016 - February 20, 2017, strongest around January 22, 2017, Transiting Neptune is Square your Natal Neptune

This transit equates to one of the so-called astrological mid-life crisis phases. This is a time of soul-searching, of personal questioning and of determining to what extent you have fulfilled your dreams thus far. You could possibly face a "crisis of meaning"; with the ideals you've shaped your life upon going under the microscope

for evaluation. The inclination now may be to look to pursuing new ideals - from which a sense of greater purpose can be experienced. As nothing is completely certain at this time, try to avoid making any major decisions or commitments until this transit has passed. For example, it might not be the best time to change jobs or get married, because you are not seeing things as clearly as usual. You may also be feeling quite vulnerable at the moment. Should you encounter pressure from external sources, sensing your vulnerability, stay firm in your resolve and maintain your belief in yourself. Your communications with others could be strained at the moment. Misunderstandings are possible. Negotiations in business can be difficult. Encourage objective thinking. This transit stimulates the mind and could produce seemingly

endless dialogue and communications with others. If you are overly concerned with your own opinions and thoughts of yourself, there could be arguments. Objectivity is very important, and if you are receptive, much can be learned now. This may not be a good time to go in new directions. It's a time for looking at your life as it is and not as you would like it to be. It's important to avoid situations that drain your nervous energies. This can be a testing period in your life, particularly if you are someone who ordinarily resists change. In extreme circumstances, this transit can bring people into confrontation with authority figures or cause losses through forces beyond personal control. Pluto, the planet of transformation and regeneration, has come into the sphere of your natal Saturn, the planet of structure, boundaries and rigidity. While we all need structure in our lives in order to function properly, there are some structures we create that actually prevent us from growing and moving forward. Pluto's purpose now is to force you to explore different dimensions of yourself and alert you to aspects of your life that are limiting you or holding you back. Examples of limiting factors in your life may include unrewarding relationships, an unsatisfying career or an unfulfilling lifestyle. With this transit, you could find that an

unsatisfactory situation becomes so intolerable that something has to give. This can be a time when you break free from self-limiting restrictions or inhibitions and assume a new persona or change the direction of your life in some way. On one hand, this process of breaking down barriers can be unsettling and disruptive, but on the other hand, it is ultimately liberating and rewarding. Positively, this can be an excellent time to pursue a course of serious and demanding study, or to commit to a challenging project.

It is often said that "life begins at 40"; the timing of this transit around this age certainly coincides with a turning point in most people's lives. There comes the realization that you are not as young as you were, but that you may still have a lot of things you want to achieve. There can be a sense that time is running out and if you are going to make the impact you want, you may need to make some fundamental changes. If you are a person who naturally takes responsibility for your own actions and decisions, this transit will not be too disruptive. You will make some changes and seek new challenges and ways of doing things. You may change direction, location or vocation, but you will not be destabilized by this; instead you will most likely enjoy the opportunity for new adventures. However, if you are the sort of person who is fearful of change and inclined to live your life according to others' expectations, this can be an unsettling time. With this transit, you will quickly discover if your life is in need of restructuring, because changes start taking place around you. Relationships may start unraveling - your own or those of people close to you. The pace of life suddenly seems to accelerate and you wonder if you are being left behind; or other people start acting differently and you don't know what to expect next.
