# Introduction

## **Your Birthday, Your Year**

A solar return is the chart cast for the instant the Sun returns to the exact place it was when you were born, at whatever place you happen to be at that moment. That's simple enough. That happens within a day of your birthday every year, so it's your birthday chart - happy birthday!

But what is it really, and what does it mean? It's two things in one:

- 1) It's a sky snapshot, which gives you an idea of what the planets are up to and what kind of things they are cooking up for you around your birthday and in days to come. It's a quick look at the general state of things, your transits, which is always helpful - but you could do that for any day of the year.
- 2) It's a yearly rebirth chart, a picture of a new you reborn each year in slightly different clothing. It's a yearly overlay to your original horoscope which paints a picture of what the coming twelve months will be like - and, just as important, it paints what you yourself will be like in the coming year. And, unlike your natal chart, you can actually do something about it - by choosing where you will be when it happens, you can change your whole year.

There was a time when the yearly solar return was taken as a virtual replacement chart for your original horoscope. In fact, that opinion was so strongly held among astrologers in the 1600s that English astrology giant William Lilly warned practitioners not to neglect the natal chart in favor of the latest solar return. So, it's a big deal. Your natal chart is still the most important description of you, but your solar return each year has a lot to say about how you're developing and what the year has to offer.

## **A Special Event**

Your solar return has some special attributes that make it unique, which require special attention, and which offer unusual opportunities. Because it's an annual rebirth chart, unlike your natal birth chart which lasts a life time, it only lives for a year - but in that year it has its own, scaled-down mini-life, in which the day of the solar return is like the year in miniature. By secondary progression, that means that the events of each successive hour of your solar return day foretell a corresponding two-week segment of the coming year. For that reason, it may be a good

idea to set aside that birthday period and see that it goes thoughtfully and well - and keep track of exactly what happens all day, as much of that may be reflected in the coming year, week by week. Under any circumstances, treat the day as something spiritually special, a time for pulling together your energies and aspirations, making resolutions - in short, rebirth.

### **A Travel Decision**

If at all possible, carefully select where you will be on your solar return - it's better some places than others. That's because although you can't change the planetary aspects that make up the return, what houses the planets fall in and the areas of life they affect are all determined by where you are on the planet. And that's up to you. You can put the Sun strongly in the first house, if you think you need extra independence and will power in the coming year. Or if you need an extra 12-month economic boost, go somewhere that puts Jupiter in or ruling the second house. By traveling just two time zones away from where you normally would be, you change the house position of every planet in the chart and thus your entire physical agenda for the year. In some cases, that can mean the difference between a year of stagnation and a year of progress. It's pretty powerful stuff, and well worth taking the time to cast your solar return for a variety of possible options and pick the one that delivers the most. Some people use this time of year for vacation, and even visit unlikely places they've never been to for the best possible solar return and a new travel adventure rolled into one.

Wherever you go, or if just staying home is your best bet, be sure you are there at least 24 hours ahead of time, and that you stay there at least 24 hours after the solar return. An extra day's leeway on either side of that couldn't hurt, either. Think of it like pouring cement - you want to have enough time to prepare it, and then proper time to set afterwards. It's got to last the whole year through...

# The Foundation for Your Year Sun, Moon, Ascendant

As in a natal chart, the first thing you look at is the position of the Sun, Moon, and Ascendant. Their positions and aspects describe the fundamental vehicle the year will become: they will tell you if you're jumping into a Jaguar or boarding a bus, crowding into a tram or leasing a Lamborghini. Since the Solar return Sun is the same as your natal Sun, any aspects to it are also transiting aspects to your natal horoscope, thus uniquely entwining both charts and making the Solar aspects especially important. The house position of the Sun and Moon tell you where your main action will be all year, and the Ascendant sign show the overall style. Easy aspects of these to the rest of the chart will show a year whizzing by according to plan. Hard aspects will indicate tangles and tests of your resilience. It's all about how to make the most of the best and turn challenges to your advantage to get top results from the year.

## The Ascendant

## Your Looks, Your Presentation

### Active Reception

*Ascendant in Libra*

This year can involve stepping into the middle of things and fearlessly upsetting the applecart if you see that needs to be done. You look the part of a reformer, someone who has an improvement and even a solution, and the only way you're going to sell it is to play it to the hilt. That means getting involved in relationships that may be touchy at times and knowing when to pull back if you've really hit a raw nerve. In the end, however, you're a fixer - and the greatest talent involved is spotting what needs fixing, and what doesn't.

### Mental Conservation Arises

*Mercury Trine Ascendant*

A year of witty and spacious remarks lies ahead of you, so don't hesitate to be loquacious, playful, and wise about what you have to say. A lot of it will be about smooth delivery, which allows you to put more into a phrase and to add depth to a cliché. When the obvious is stated really well, it's taken for scripture, because it is.

### Conserving Career Arises

*Jupiter Trine Ascendant*

Positive developments accrue to you by your ability to let your creative urge spur you along and not be held back by ordinary convention. You don't have to think outside the box, just expand it a bit and it won't even seem like pushing the envelope. When it's time to grow, you just step aside and make room for it.

# The Foundation for Your Year (continuation)

## Spiritual Experience Arises

*Neptune Opposite Ascendant*

Confusing signals from friends and close partners may become the norm this year, and it can be hard to figure who's to fault. You're projecting your own images to begin with, and then they get mixed up as to what part you want them to play or whether you're seeing them correctly. Talk it out before you make assumptions.

## Power Building Arises

*Pluto Trine Ascendant*

Confidence in the way you bear yourself is high this year, and you move like you've already gotten where you're going, which is a good way to assure your getting there. When you know you're right, everybody tends to go along with you, including yourself, like you have destiny on your side.

## The Midheaven

## Your Reputation, Career, Life Path

## Manage Home

*Midheaven in Cancer*

Whatever they're saying about you, it really means they're not hearing enough real information and probably have to make it up. In certain ways, you're a closed book this year, at least to strangers, because you've got more important things to spend your time on than broadcasting about yourself.

## Manage Emotional Examination

*Moon Sextile Midheaven*

Unseen benefits accrue to your reputation this year through intuitive involvements you pick up on entirely underneath your own radar. You help yourself without meaning to based on feelings you take for granted, and if that seems like a mystery to you, well, it is. If it could be explained, it wouldn't be a mystery.

## Manage Spiritual Objectivity

*Neptune Square Midheaven*

Confusion about yourself and your personal involvements can mislead others about what you're doing and who you are. That can lead to false rumors or incorrect assessments of your value, so an emphasis on spin control this year would be a really good idea. Put your ear to the ground, then correct what's in the air.

## The Sun

## Your Inner Personality and Style

## Philosopher

*Sun in 9th House*

Size is not only measure physically but by the breadth of your concept. Think big, and you're big. That's the ticket this year, as you naturally stretch your boundaries and the sky is the limit in ways that might not have occurred to you before. That could fearlessly lead you to foreign places or just wrap yourself around possibilities that are out of the box because they're too big for one to contain. The key to the year lies not so much in any one escapade, but in the inner adventurer that easily leaps from one experience to the next, because the call just cannot be denied.

## Love of the Future

*Sun Conjunct Venus*

Your purpose this year is to please and be pleased, which sets a pleasant tone on everything, whatever else happens. As with birthday presents, the assumption may be that what you want is what others want, too, and that may not be the case, so make sure your desires are on the same track before you spend.

## Successful Discipline

*Sun Square Saturn*

Older, more established people and situations can be a drag on you this year, particularly if you take their criticism to heart. Don't let those who would suck the life out of you have a drop more than you have to spare. Self-inspection is a good thing, but random search and seizure from others is an invasion.

## The Moon

## Your Feelings, Reactions, Emotions

## Fertility

*Moon in Taurus*

Your emotional pace this year is likely to be more deliberate, gradual on the uptake as you take extra time to make sure your reactions are correct and your feelings are both sincere and enduring. You'll find yourself more patient and willing to absorb and tolerate rough or uneven patches that might normally get you riled up or annoyed. There's a feeling that it's worth the added effort to decorate your inner life with depth and content that may require added expense or effort because the end result is so much more satisfying. For the moment, you can skip instant gratification, go for the 24-karat life...

## Business Support

*Moon in 8th House*

There's a call this year to explore the unknown - to visit lost jungles or vanished civilizations, some of which could be around the world or across history, but most of which may be right next door. It could be in your attic, in an old scrapbook, in talents and aspirations you thought you had put behind you - or perhaps, more externally, in an offer from someone else to underwrite efforts you couldn't do yourself. On a very shallow level, that means mind your credit cards and other debts don't loom too large, but fundamentally it's about feeling about for and finding lost treasure.

## Motivational Insight

*Moon Conjunct Mars*

Strong expression of feeling are an earmark of the year, which can range through every level of inner passion, from joy, to love, to grief, to anger. Reacting too powerfully too quickly can be a problem, as it can upset everybody's composure, including your own, so keep your emotions on a leash, at least until you know there's appropriate room to express them.

## Signs of Change

*Moon Square Pluto*

There's a constant contest to get control of yourself this year, and thus to get control of the situation around you. Part of the problem is in thinking you really can control things, and part of it is in refining your approach, which seems to fail you the first few time you try it out. Despite belief otherwise, it will be a compromise in the end.

# Personally Speaking

Mercury, Venus, Mars

The inner planets change significantly from year to year and indicate the personal permutations your life is going through. Basically, it's the framework of how you play the game, who else is playing, and how they're playing it. Easy aspects mean you win with no contest, hard aspects suggest a more hard-fought game that may put your life skills to the test and increase your personal growth and talents through experience. Take a look at both sides and consider what games to play, what ones to avoid, and the best strategies - whether you want to raise, hold, or walk away.

## Mercury

## Your Mind and Intellect, Thoughts and Plans, Communication

### Communications

*Mercury in Gemini*

You're head can cover all the bases this year, as long as you can put your plans into words and down on paper. Discuss it, network, get everybody's opinion and then put your own on top of the mix to cap the lot. As long as there's a plan you can stand back and look at, analyze, you'll be on top of the issues.

### Spiritual Ideas

*Mercury in 9th House*

Putting those big-picture ideas down on paper so they make sense is a theme for the year, so put your head to it. Now's the time to step down that hypothesis to a theory and then into a real plan that makes sense. Just connect the dots, and there it suddenly all appears before you.

### Career Thoughts

*Mercury Conjunct Jupiter*

Big plans are in the air this year, and your head will be exploding with countless new ideas that are new and exciting. The challenge will be to pick the ones to go with and put others on hold, even though you'd like to pursue them all. Extras you generously toss aside this year will be thankfully received, come back to you accordingly.

### Insights and Ideas

*Mercury Conjunct Uranus*

That brilliant idea you've been waiting for is waiting for you just up ahead, making this a eureka year and then some. Don't expect to be thinking straight, because it's thinking out of the box and out of the ball park is the theme. Your head may feel positively peppery by the end of it, because you don't know what thought is coming next.

# Personally Speaking (continuation)

## Patient Kindness

*Mercury Sextile Neptune*

Small dollops of imagination thrown together end to end turn into big dreams, and that's as theme for the year. You don't need a private jet to reach the ends of the earth – you can walk there, one step at a time. And because it's so interesting along the way, you won't notice how far you've actually gone.

## Incorporate Change

*Mercury Trine Pluto*

You'll have a lot of faith in what you're saying this year, and your confidence that your ideas have the weight of destiny behind them makes you all the more believable. When you're listening to that still, small voice, you don't need a megaphone. A stage whisper will reach the back of the house.

## Venus

## Your Needs, Wants, Desires

## Talk of Love

*Venus in Gemini*

Why stick to only one pleasure when you can trip from flower to flower, tasting them all? That may be a theme for a while, so don't feel you have to go deep in order to get what you want. A smorgasbord may offer more than a big helping of life's meat and potatoes. Delicacy of taste rules the day, as does variety.

## Spiritual Love

*Venus in 9th House*

You can't get what you want unless you can get your head around it. This is a year when you increase the width, breadth, and depth of your desires, when by thinking bigger you can imagine a new scale of satisfaction that can be obtained. You've got to know what to ask in order to receive it.

## Signs of Order

*Venus Square Saturn*

If you're always complaining, you'll never get what you want, and you'll need to resist the temptation to criticize the bird in your hand, or otherwise it will disappear into the bush. The challenge is to firmly grasp the opportunity of the moment, and then move directly to the next. Delay is your enemy, and it lurks within.

## Mars

## Your Energy, Life Force, Excitement

## Direct Action

*Mars in Aries*

Quick deeds, strong actions inspire you with an urgency that says get the job done first. You'll do that, for sure, but just check to see that it's a job well done and that the follow-through is attended to as well. Avoid the temptation to hit hard and move on unless you know that's exactly the maneuver required.

## Social Drive

*Mars in 7th House*

When you're looking for an energy boost this year, look to someone else to supercharge you. Sometimes it takes a spark from another plug to get your own engine fired up, and that sometime is upon you. You don't have to put your own shoulder to the wheel when someone else is eager and waiting to help you out.

## Achieving

*Mars Square Pluto*

Breakage could be a problem coming from trying too hard to force the situation in a way that things just don't fit. There's an urgency to get the job done that may cause you to overlook that you're not doing it right, forcing a square peg into a round hole. The right tool for the right task is essential – check to see that's what you're using.

Every year sees the giant planets, the wielders of social and economic change, move along a significant notch, opening new doors of opportunity, while closing others. Each solar return suggests a new shift in strategy to get you where you're going and keep you ahead of the game. It's about what's new and what's not, what's happening and what's history. When you know when the shift is about to start and where it's going, you know which way to steer.

**Jupiter** **Ambitions, Goals, Possibilities**

**Communications Career** *Jupiter in Gemini*  
 A year of multiple plans and schemes is ahead, where everyone talks a lot about what they're about to do, but not all of it will be decided or acted upon. There's more discussion than action, and lots of avenues are explored before narrowing down the options. Multitasking is a must, because there will always be more than one iron in the fire.

**Spiritual Career** *Jupiter in 9th House*  
 Higher education is the key this year, though that may not mean the kind that tuition pays for. Bigger concepts, wider territories, greater travels await your urge to adventure, so leave yourself some time and space for expansion. You may not be able to do it all, but why not take a big bite?

**Independent Ideas** *Jupiter Conjunct Uranus*  
 This is generally a time when big new ideas blossom forth into existence and are there for the picking. It is a real test of talents, however, because everybody's in the same boat, rising on the same tide. It's what you see in it and how you use it right now that counts. Lay down roots fast, make a strong foundation with dispatch.

**Compassion** *Jupiter Sextile Neptune*  
 A more realistic and satisfying way to blend dreams, hopes, and expectations by sharing is in the wind, if you are willing to take a deep breath. Actually, a series of shallow breaths describes it better. What once you may have kept to yourself, it is time to exchange with others who have been in the same situation.

**Building Success** *Jupiter Trine Pluto*  
 New frontiers, hot prospects, expanded operations are not hard to sell right now - in fact, the soft sell will be the most successful. Whether you are promoting your affections or your product, act as if it's the only way to go in the world and is pretty much of an accomplished fact already. The more faith you have in yourself, the more others will have in you.

## Saturn

## Caution, Wariness, Wisdom, Boundaries

### Obstacle: Sacrifice

*Saturn in Pisces*

This year will produce the end of many illusions and hard times for those who perpetrate them. Matters of unconfirmed belief are likely to be tested, and those who have relied on intuition alone to get by may have to take a more tangible and practical approach. Real and imagined spirituality are set side by side to see which passes the test.

### Obstacle: Care

*Saturn in 6th House*

Trimming your schedule and getting rid of daily redundancies could be this year's blessing in disguise. It may be tiring or tedious in the process, but it will clear the decks for more important operations as time goes by. Eat less, live longer – and that doesn't mean you have to starve yourself.

The positions of the outer Planets - Uranus, Neptune, and Pluto - change little from one Solar return to the next, so they add more of a backdrop, the stage set on which the yearly play is performed. They are very powerful, however, and their long-running helpful and troublesome aspects are not to be taken lightly. They can be like a rope to swing yourself across the stage or a trap door that will cause a fall if you're not watching. Knowing their aspects with the other inner planets and the Lights, and where they fall by house, lets you in on just where to watch for them, what mood they're in, and how to get them on your side.

**Uranus** **Discovery, Revelations, New Ground**

**Freedom: Productivity** *Uranus in Taurus*  
 There begins an inexorable seven-year build-up of recently-learned harsh truths that actually makes structure out of revolution, but at a price that will only be appreciated afterwards. Because of previous breakdowns, much is tolerated that would not otherwise be put up with, all in the name of a new deal, which may be learned from but have to be at least partially undone afterwards.

**Freedom: Business** *Uranus in 8th House*  
 Expect unexpected offers in the credit department this year, but whether you want to rush to take advantage of them is another issue to be dealt with carefully. Genuine opportunities of lost treasure may truly arise, but all that glitters is not gold, and following fool's gold is a fool's errand.

**Accumulating** *Uranus Trine Pluto*  
 This several-year period (most recently centering around 1922) occurs only twice every 128 years and is reputed to have the effect of uniting political power and technological progress in society at large. Too lengthy to have much more than a background effect, it nevertheless sets the tone of the period.

**Neptune** **Dreams, Hopes, and Fantasies**

**Embrace: Life** *Neptune in Pisces*  
 Spiritual revival will be just one hallmark of this period, as will a general tendency for those who pretend to it not to give to those who actually do it. Flights of romanticism are daily fare, even to those whose life is not romantic in the least. When there is nothing else, there is always a dream, a pure dream, waiting just beyond.

## Embrace: Caring For

*Neptune in 6th House*

Wishing and thinking about what needs to be done won't ultimately make it happen, especially where practical, everyday matters are concerned, but it's a good start. You may find yourself accruing a host of good intentions this year, which by and by may turn into specific applications, but don't push yourself unnecessarily.

## Change Blocked

*Neptune Sextile Pluto*

This year sees you part of a rare but lengthy outer planet dance that happened throughout the 1950s and again in the 1970s and puts a deep background of a generation when spiritual issues are not forced but sort of proceed in a leisurely matter without conflict, either because of mutual respect or blissful unawareness.

## Pluto

## Necessity and Fate, Power, What Must Be

## Control: Community

*Pluto in Aquarius*

A generation-long period is underway in which spreading equality of opportunity is a prime cultural force, a time to re-forge society and hand it to the common people. Independence of operation is the order of the day, as is great expansion. The resulting generation, however, will have a hard time holding together what results as a unity.

## Control: Family

*Pluto in 4th House*

Your greatest power comes from your own inner foundation, not the tool you momentarily have in your hand. That's something you'll tap into this year, as when the inner bell rings, the outer walls resound. It started at home as a little child and it renews itself at home to this day. That's where to look.

# Featured Natal Positions

Your Best Foot Forward

When Solar return positions occupy the same spaces as planets in your natal chart, this highlights those natal inclinations for the whole year. It will mean that certain elements in your fundamental character will be emphasized both internally and externally. These will be the areas that most appear to represent you for the moment and that others will seize upon as entry points to your personality. These are the areas in which you can put your best foot forward to make the most effective and satisfying steps ahead, your first line of challenges and opportunities to embrace the world.

## Sun

### Your Inner Personality and Style

#### Love of the Future

*Venus Conjunct Sun*

No one pleases you quite so well as you please yourself this year, so have a good time with it. When you're happy with your own show, so is your audience, and you're likely to be putting on a gracious and ingratiating performance for an appreciative house. Catch some of your own rays, there's nothing like it.

## Midheaven

### Your Reputation, Career, Life Path

#### Manage Practical Action

*Mars Conjunct Midheaven*

What you do is what they'll be talking about this year, so get moving and keep it going, or at least let it out that that's what's happening. Any career efforts now have extra power because you have more energy to put into them, partly because you'll be expected to. When the world cheers, you perform.

## Pluto

### Necessity and Fate, Power, What Must Be

#### Power on Horizon

*Ascendant Conjunct Pluto*

You may feel that you could roll over anything this year, or that obstacles are completely blocking your path, because you're held in the sway of destiny in ways that you cannot control, even when you are the only one actually totally in control. Rulers feel that way, seemingly in charge of fate yet totally pawns of it.

Where you spend your birthday and how the sky looks from that location can profoundly affect how your year turns out. The ideal birthday chart has the most favorable planets up front, ready to push you forward and the more troublesome ones tucked away where they can cause the least mischief. Sometimes that happens right where you would normally be, so you can just stay home for your birthday. Sometimes the best place to be is on the other side of the globe, involving an expensive (though perhaps exciting) journey. Often, however, just moving a few hundred miles east or west just for the twenty-four hours before and after your solar return can make all the difference in the world, allowing you to put your best foot forward for the entire year.

Here are a list of places near you and around the world and how being there would affect your coming year. Some are good for growth and expansion, others for learning there are places better for money and career, or others best for home and family development. You choose, and then perhaps take a look at a second, revised report for your new place of choice, your travel decision to improve the year. You will likely find it reads quite differently in many critical areas and perhaps worth the travel expenses to maximize your twelve months ahead.

Take a look at your choices, then decide where to go on your birthday, in order to get to where you want to be the rest of the year.

From Jun 03, 2024 to Jun 3, 2025

As the year moves on, so does your Solar Return chart: it swings around an entire 360 degrees by daily progression and the Moon moves half a sign. At the same time, transiting events in the sky trigger sensitive degrees of your birthday chart. These are the times to look for specific events that activate these parts of your yearly picture and will offer times for making your best moves. These, together with your natal transits and progressions, paint the daily picture of your coming year, from birthday to birthday, until your next Solar Return.

**Power on Horizon**

*Ascendant on Pluto (PSR-NA)*

Obstacles - either breaking through them or being stopped by them - are the watchword for the next day or so. Don't beat yourself up unnecessarily over something that's impossible, and don't be impossible in situation where you should back off and let develop by themselves for a few more days.

**Ideas of Love**

*Mercury Conjunct Venus (TR-SR)*

This is an ideal time for achievement in arts and letters -- whether it's redecorating, taking great pictures and movies, or doing a makeover. A keen eye for the beautiful is in sharp focus and a strong sense of shape and proportion makes for good judgment in all aspect of design, now and for posterity.

**Manage Problems**

*Midheaven on Saturn (PSR-NA)*

Expect some criticism in the wind, especially about your job or work efforts, but don't react with resentment unless it's untrue. If you've got a flaw or two (and you do), better it should be known and admitted to than blatantly denied. On the other hand, this is a time when your reliable side is particularly noticed.

**Manage Practical Values**

*Midheaven on Venus (PSR-NA)*

They're saying good things about you, and maybe it's about time, but it's definitely time to take advantage of the good press for a day or so to cement the picture of you to the wall where it will remain to be admired later. You don't have to talk yourself up, just relay the good news you find in the air.

Sunday  
July

07

07:24 pm

**Insights Appear**

*Ascendant on Uranus (PSR-NA)*

Unsettling events, unexpected surprises, and generally choppy waters describe this day or so when the social wind is fickle and gusty. If you reply in kind, it could make for a real wreck, so patience and tolerance is your watchword for the moment. It could be a great in the end, but it won't be if you reject the intrusion.

07:25 pm

**Ideas of Freedom**

*Mars Conjunct Uranus (TR-SR)*

A general tendency to fire off too fast, shoot from the hip and miss, and boil over unpredictably marks this as a very volatile time. Accidents abound, tempers flare, and sudden moves bring cause for regret. Look both ways crossing the street and avoid potentially explosive situations -- and don't fly off the handle yourself.

Tuesday  
July

**Career Ideas**

*Mars Conjunct Jupiter (TR-SR)*

Boundless energy and enthusiasm can overwhelm, like a herd of runners all attempting the hundred-yard dash. You may want to think about not joining that herd but siphoning off some of the energy around you in a more reasoned way. Overweening eagerness lacks staying power, but ardor can be a thrill when channeled.

You may find yourself in a bit of a fog for a couple of days, but it could be a pleasant one if you're basically on course otherwise. You can soften your image, try a new look on for size, or pretend to be someone you're not and get away with it. Your dreams feel particularly real, so bring one to earth now to savor later.

*Midheaven on Ascendant (PSR-SR)*

You're beginning to see yourself getting noticed as a result of the last few months' efforts, and it might be well to double-check that they're getting the right message and are correctly passing on the image you'd like to build your reputation on. They should be reporting what you see in the mirror.

**Manage Practical Power**

*Midheaven on Pluto (PSR-NA)*

Obstacles to professional progress appear that beg to be smashed through, but that may not be the most profitable approach, as they may vanish as quickly as they arose, without your wasting the effort. Unless it's a critical power play, let other egos have their way and you stay to fight another day.

There are illusions in the air about what you do and what you think can happen for you, some of which may actually be true. Don't take what's said about you to be gospel, as it may just be fantasy - someone else's or even your own. Hope is in the air, but you still need to put breakfast on the table unless you can wait for lunch.

Friday

Slowdowns are the order of the day, brought on by extra work, added commitments, less firepower. This, too, will pass in a few days, but you have to go through it, not around it. You may be taken extra seriously about how you present yourself right now, so when in doubt, lighten up for the sake of all concerned.

# Conclusion

## **Conclusion: Now That You Know, Where Do You Go?**

With the pattern of your coming year described for you now, what's the best way to use all this information? Forewarned is forearmed, and there are several things you can do to maximize your knowledge and get the most out of the year.

### **1. Make Sure You're In The Right Place**

It really does matter where you are for the twenty-four hours on either side of your birthday chart. A basically good year can be made even better by getting the right planets on the horizon or overhead, and a difficult year can be made easier by simply sidelining some of the challenges. Check out several different locations - more often than not, a change of only a few hundred miles east or west of where you are may make all the difference in the world. And, it's a great excuse for a birthday trip.

### **2. Keep Notes On Your Special Day**

It is not unusual that the twenty-four hours of your solar return will be a symbolic miniature of the coming year, in which the happenings of each two-hour period will reflect a corresponding one-month period of the year. Of course, you'll likely sleep through eight hours of it, but keep notes on the rest and guide your activities to make it the best possible day. Along with the report text, it will give you further clues to what's coming and when.

### **3. Pay attention to what's in the text and use it well.**

That means getting in there and making the best of the favorable periods and if possible simply avoiding unnecessary action or at least backing off during the periods that might cause trouble. Seize opportunities and dodge (don't confront) troublesome roadblocks. Better to do nothing than do something disastrous. Then move ahead when the coast is clear. That way you make only forward progress.

### **4. Think Ahead To Next Year**

As you watch this year unfold, take a look at your next birthday chart well ahead of time so you can be where you should be to make it dovetail perfectly with what you're already doing. Smooth transitions save time, boost success and happiness.

### **5. Take It In Context, Put It All Together**

birthday chart is not the only thing that describes your coming year. It's just an overlay of likelihoods, which mixes in with the other astrological windows on your future like transits and progressions. Include the rest and combine them all for a maximized 365 days ahead for you. When you bring everything to bear, nothing gets left out, and neither do you. It's yours for the taking, now go for it.
